ECONOMY

Rice is abundantly grown in the Coastal Districts of Thana, Kolaba, Ratnagiri and also in Chanda and Bhan-

dara. It accounts for one-fifth of the foodgrains grown in the State. Wheat accounts for a little more than one-twentieth. Millets are grown abundantly in the Deccan, Vidarbha and Marathwada districts. Jowar is the major cereal and accounts for half the production.

The production of cotton in 1965-66 was 1,74,000 metric tons and groundnut 4,50,000 metric tons in Maharashtra.

The production of cotton and groundnut was 8,47,000 metric tons and 40,22,000 metric tons respectively in the country.

The State has abundant forest wealth. Forests form 20·7 per cent of the area of the State. There are forest areas in all districts, but the thickest forest areas are, in Chanda, Amravati, Yeotmal, Bhandara, Nagpur, Dhulia, Thana and Nasik Districts. They produce various types of timber, teak and minor forest produce.

In the matter of live-stock, the milk-yielding buffalo population is greater than the cattle only in Kolhapur and Greater Bombay. The sheep and goat abound in all Districts but are particularly noticeable in Nasik, Dhulia, Ahmednagar and Sholapur. The concentration of horses and ponies is greater in Marathwada, Dhulia and Ahmednagar.

The more important industries are cotton textiles, general and electrical engineering, chemicals, petroleum, transport and transport equipment, sugar, vegetable oils, paper, paper boards and soap. In 1966 there were 9,043 working factories in the State providing employment to about 8,79,000 workers. Out of the registered factories, about 49 per cent factories are in the Greater Bombay area.

Out of the Rs. 866 crores of productive capital in Maharashtra in 1963, the textile industry alone accounts for 16 per cent. It is apparent that Greater Bombay alone contributes 69 per cent of productive capital.

ELECTRIC POWER DEVELOPMENT

Today all places with a population of 50,000 and over are electrified. Power generation and consumption in Greater Bombay are high.

The allocation for Irrigation and Power during 1966-67 was Rs. 46·02 crores or about 38·2 per cent of the total Annual Plan of Rs. 120·46 crores.

The total installed capacity as on 31st March 1965 was 1,224 MW; output of electricity 4,439 million KWH and consumption 3,569 million KWH. The per capita power generated and consumed was 112 KWH and 90 KWH respectively as compared with 66 KWH and 52 KWH in the Indian Union as a whole.

The power requirements of the State have been assessed at 2,288 MW at the end of the Fourth Five Year Plan. To meet this demand, the State's Fourth Five Year Plan includes projects, hydro and thermal, of a total capacity of 1,580 MW. This together with 190 MW accruing from the Nuclear Power Station, is expected to meet the anticipated demand of 2,288 MW in 1970-71 in full and also leave some surplus to meet unforeseen demands, if any, during the Fourth Plan period.

Maharashtra has a hydro potential of over 3,000 MW mainly concentrated in or around the Western Ghats.

Projects in progress : Of the hydro power projects in progress, two more generators of 75 MW each of the Koyna Project were recently commissioned. The Purna Project in Marathwada is nearing completion. The extension of the State Electricity Board's Khaperkheda Steam station by 60 MW was completed towards the end of 1964. The extension of the Paras Steam station by 60 MW more and establishment of a new steam station of 60 MW at Bhusaval are in an advanced stage of construction. In the private sector, an additional capacity of 150 MW was commissioned by Tatas in their steam power station at Trombay.

New Projects : Three more steam stations, of a total capacity of 900 MW, are to be constructed by the State

Jt. Stock Companies (March 1964) : No. of Jt. Stock Companies limited by shares : 5,173 ; Paid-up capital : Rs. 632 crores.

No. of new Jt. Stock Companies incorporated & registered with Authorised capital (Rs. in lakhs) respectively : 1964-65 : 267 ; 10,558 ; 1965-66 : 284 ; 4,446 ; 1966-67 : 227 ; 3,169.

Mineral Production (1967) : The Quantity being in '000 tonnes & value in Rs. '000 respectively :

1967 : Chromite 0·2 ; 23 ; Coal 1,337 ; 38,572 ; Iron ore 194 ; 3,101 ; Limestone 111 ; 568 ; Manganese ore 331 ; 33,059 ; Chinaclay 2 ; 16 ; Bauxite 24 ; 257 ; Salt 529 ; .. ; Dolomite 9 ; 64 ; Gypsum 0·09 ; 1 ; Quartz & silica 14 ; 101 ; Ochre 0·7 ; 8.

Vidarbha region of Maharashtra is outstandingly rich in mineral wealth. Nagpur and Bhandara districts of Vidarbha region possess some of the largest deposits of manganese ore in India. Salt is produced in the Coastal districts. The only Coal bearing area, having extensive reserves of first grade and medium grade Coal is found around Kamptee, Umrer and Bokhara in Nagpur district and Warora in Chanda district. Large deposits of iron ore are found in Ratnagiri and Chanda districts. Limestone is at present mined only in Nagpur and Yeotmal districts.

Electricity Board during the Fourth Five Year Plan period. One of these, of 280 MW, will be constructed near Nasik the Western Maharashtra, the second of 60 MW in Parli-Vajinath in Marathwada and the third, a super-station of 560 MW, near Nagpur in Vidarbha. Though of the Fourth Plan programme, advance action in respect of these projects had been initiated in the Third Plan itself.

Transmission Lines : The total length of transmission lines was expected to be around 1,750 circuit kms. at the end of the Third Five Year Plan and additional lines of a total length of 2,414 circuit kms. are proposed to be constructed during the Fourth Plan period.

Rural Electrification : In rural electrification, the accent is on electrification of villages which are within easy reach of grid lines and which offer sufficient load, particularly load for agriculture and small industries. There are 35,851 towns and villages in the State. Of these as many as 7,377 villages had been electrified by 31st March 1969. Agricultural pumps supplied with electricity aggregated 90,002. A target of supplying electricity to 10,000 more villages and 1,00,000 agricultural pumps has been fixed for the Fourth Five Year Plan.

MAHARASHTRA STATE ELECTRICITY BOARD (1967-68)

Total installed capacity :	786,473 KW
Steam :	235,000 KW
Hydro :	545,824 KW
Diesel :	5,649 KW

Number of towns and villages and agricultural pumps supplied with electricity :

		Villages	Pumps
Western Maharashtra	3,344	45,094
Vidarbha	2,662	28,901
Marathwada	1,371	16,007
Total (State)	7,377	90,002
Total length of Transmission lines 11KV and above (Circuit kms)			33,533·5

Total number of consumers	702,999
Total electricity production (Miln. KWH)	3,715·967
Total electricity purchased (Miln. KWH)	348·510
Electricity received from Eldari Power Station (Miln. KWH) ..	10·420
Total sales (Miln. KWH)	3,429·766
Total expenditure on Electricity Schemes (Rs. crores)	36·72
Capital assets on 31st March 1968 (Rs. crores)	162·66
Gross Revenue (Rs. crores)	29·8234
Working expenditure for the year end- ing 31st March 1968 (Rs. crores) ..	21·7674

POWER PROJECTS IN OPERATION

The following statement shows particulars of the Board's power projects in operation as on March 31, 1968:

Bombay-Koyna System : Intended mainly to serve the Western Maharashtra region, this system comprises three hydro power stations, viz., the Koyna, Radhanagari and Bhatgar. The first one is interconnected with the power stations of Messrs. Tata's of Bhira, Khopoli, Bhivpuri & Trombay & the Chola Power Station of Central Railway. For its schemes in the Bombay-Poona and Igatpuri-Manmad areas the Board continued to purchase bulk power from Tatas. The supply for Igatpuri-Manmad area is sent out over the transmission lines of Central Railway from their Chola Power Station to Igatpuri and from there to Igatpuri-Manmad area over the Board's lines, for distribution to its consumers. Board also continued to supply Electricity to Goa from its Koyna-Radhanagari interconnected system in Western Maharashtra. In addition there is one Diesel Power Station in Nasik.

Capacity of Power Stations: Koyna 540,000 KW; Radhanagari 4,800 KW; Bhatgar 1,024 KW; Diesel Station 5,339 KW; Units generated in 1967-68: 2,865·910 miln. KWH; Units purchased 348·510 miln. KWH; Units sold 279,92,45,205 KWH; No. of consumers served 4,48,641; Length of transmission lines 16,970·5 circuit KMS.

Vidarbha Grid System : This system is served by three inter-connected steam power stations—Khaperkheda (120,000 KWH), Ballarshah (22,500 KW) and Paras (92,500 KW). There are also three small diesel power stations of a total capacity of 310 KW at Aheri and Sironcha in Chandrapur District and Dharni in Amravati District. Units generated in 1967-68 : 847·203 million KWH; units sold—57,81,90,300 million KWH; number of consumers served—1,73,563; length of transmission lines—10,530 circuit KMS.

Marathwada :

Aurangabad, Bhir, Parbhani and Nanded Districts of Marathwada area are served by the Vidarbha Grid system and the Osmanabad District is served with power from the Koyna-Tata-Interconnected Grid system of Western Maharashtra. The Eldari Power Station of the Purna Hydro Electric project was commissioned by the Irrigation and Power Department of the State Government and power generated to the extent of 10·42 million KWH was received in this interconnected system by the Board for distribution in this area. Units sold 5,23,31,247 KWH; Number of consumers served 80,795; Length of transmission lines 6,033 circuit KMS.

CHOLA, KOYNA

Central Railway's Power House at Chola has a total installed capacity of 136,000 KW and supplies electric power for the requirements of Central and Western Railways' electrified lines in Bombay. This power house is interconnected with the Tata-Koyna system.

The second scheme is Koyna, it is the biggest scheme in Maharashtra.

The Koyna Hydro-Electric Project comprises three Stages. Stage-I of the project is completed and the four generating sets of 60 MW capacity each under stage I have been commissioned and handed over to the State Electricity Board for operation and maintenance from 1st April 1963. Stage-I of the project costs Rs. 38·28 crores.

Stage II of the Project which is estimated to cost Rs. 18·16 crores provides for installation of four additional generating units of 75 MW capacity each and laying of 220 KV Transmission lines to Bombay. All the four generating units under Stage II have already been commissioned and handed over to the Maharashtra State Electricity Board for operation and maintenance. All the work under Stage II of the Project except laying of Transmission lines to Bombay is practically completed. The work on the transmission lines is also at an advanced stage of construction.

An expenditure of about Rs. 54·85 crores has been incurred on Stages I and II of the Project till the end of September 1968.

Stage III of the project contemplates further generation of power on the tail-race waters of Stages I & II by constructing a system of balancing reservoirs, Head-race and tail-race tunnel pressure shafts and an underground power house. The Project envisages installation of four generators of 80 MW capacity each for generation of 320 MW of 20 per cent load factor. This station is envisaged to run as a peaking station to meet the demand of power at its peak. The work on this Project is in full swing. An expenditure of Rs. 6·94 crores has been incurred on Stage III of the Project till the end of Sept. '68.

TATA PROJECTS

The hydro-electric undertakings in the State are the three schemes developed and brought into operation by Tata Sons, Ltd., and continued under their management until 1929, when they were transferred to the management of the Tata Hydro-Electric Agencies, Ltd., in which Messrs. Tata Sons retain a majority interest. These undertakings are :—

- The Tata Hydro-Electric Power Supply Company, Ltd. Supply started in 1915.
- The Andhra Valley Power Supply Company, Ltd. Supply started in 1922.
- The Tata Power Supply Company, Ltd. started in 1927.

The three Hydro-Electric Companies are interconnected with Chola Steam Station of the Central Railway and the newly commissioned Koyna Hydro generating station of Maharashtra State which feeds bulk power to the Tata system at Trombay and Kalwa over 220 kV transmission lines. Together they are operated as a Hydro-Thermal system under the co-ordinated control of the Hydro Companies.

The three Hydro Companies have constructed a modern Steam Thermal Station of 338 MW capacity at Trombay which is also interconnected to the system.

The Tata Hydro-Electric System serves an area in Maharashtra State of more than 2,072 sq. kilometres.

Electric service is rendered to the textile mills and other industries of Bombay and the suburban areas, to local authorities, and, in bulk for retail distribution, to the electrical undertakings including the State Electricity Board, supplying Greater Bombay and ten other localities within the area.

The transmission network of the Tata system consists of 1,029 circuit kilometres of 1,00,000-volt overhead lines and 33 circuit kilometres of 100 KV gas filled underground cables and the distribution network of 386 circuit kilometres of 22,000-volt overhead as well as 238 circuit kilometres of 22,000-volt and 193 circuit kilometres of 6,600-volt underground cables. There are also 44 circuit kilometres of 6,600-volt overhead lines.

Substantial additions to the transmission and distribution network are expected to be made during the next few years.

During 1967-68 the peak demand on the Tata Rly. System reached a figure of 780 MW and that on the Tata-Railway-Koyna system was 955 MW.

The sales by Tatas during 1967-68 was 4,236 million units and the purchase from Koyna to supplement Hydro system during the year was 1,825 million units.

NOTE : Because of security reasons, we have been asked not to publish any information relating to location of electricity generating plants.

HOUSING

Housing schemes are coordinated by the Urban Development, Public Health and Housing Department of the Government. The actual building work and ancillary functions are discharged by the Housing Boards. Finance comes partly from the Government of India.

There are two Boards now, the Maharashtra Housing Board for the western Maharashtra and Marathwada areas and the Vidarbha Housing Board for Vidarbha.

Subsidised Industrial Housing Scheme : This scheme is meant for industrial workers whose income does not exceed Rs. 350 per month. The scheme is executed through the Maharashtra Housing Board and Vidarbha Housing Board, Employers and Co-operative Societies of Industrial workers. The Housing Boards are provided with 100 per cent financial assistance. The financial assistance is given to the employers at the rate of 50 per cent loan and 25 per cent subsidy and to the Co-operative Societies at the rate of 65 per cent loan and 25 per cent subsidy. In addition, employers can also give their 25 per cent share of contribution to the Housing Boards for construction of tenements for their employees. The rents charged are subsidised rents as fixed by the Government of India. The total number of tenements completed, agency-wise till March 31, 1968 is as follows : Maharashtra Housing Board 26,465 ; Vidarbha Housing Board 3,704 ; Employers 5,049 ; Co-operative Housing Societies 462 ; Total 35,680.

Slum Clearance Scheme : This scheme provides for construction of tenements and provision of plots for slum dwellers whose income does not exceed Rs. 250 per month. The scheme is executed through the agency of local bodies and the Maharashtra Housing Board. The rents charged are subsidised rents as fixed by the Government of India. The total number of tenements constructed by the various agencies till the end of March 1968 is as follows : Maharashtra Housing Board 13,434 ; Bombay Municipal Corporation 4,315 ; Poona Municipal Corporation 734 ; Nagpur Municipal Corporation 332 (plots) ; Nagpur Improvement Trust 50 tenements and 650 (plots) ; Dhulia Municipality 85 ; Total 18,608 tenements and 982 plots.

Low Income Group Housing Scheme : This scheme is meant for persons whose total annual income does not exceed Rs. 7,200. The scheme is in operation in the municipal areas of the State. Loans equal to 80 per cent of the cost of construction subject to a maximum of Rs. 12,500 per tenement are granted under the scheme to individuals, institutions, local bodies etc. The total number of tenements completed through the various agencies till the end of March 1968 is as follows : Maharashtra Housing Board 8,035 ; Vidarbha Housing Board 243 ; Individual 500 ; Local Bodies 1,565 ; Co-operative Societies 3,293 ; Institutions 85 ; Total 13,721.

Economically Weaker Sections Scheme : This scheme provides for construction of tenements for persons whose monthly income does not exceed Rs. 350 per month. The scheme is executed through the agencies of the Vidarbha Housing Board and the Maharashtra Housing Board, which are given 100 per cent financial assistance. Under the integrated Subsidised Housing Scheme for industrial workers and economically weaker sections the subsidy portion of central assistance has been raised to 50 per cent from 25 per cent and the rents to be charged would be subsidised rents as fixed by the Government of India. This is applicable only to projects sanctioned after the 1st of April 1966. The total number of tenements constructed by the various agencies till the end of March 1968 is as follows : Maharashtra Housing Board 790, Vidarbha Housing Board 80.

Sweepers Housing Scheme : This is meant for providing residential houses to the sweeper employees of the various local bodies in the State. The scheme is now executed through the agency of local bodies and recognised social service agencies, which are given financial assistance by way of 50 per cent loan and 50 per cent subsidy based on the approved cost. The total number of tenements constructed under the scheme till the end of March 1968, is 287.

Middle Income Group Housing Scheme : This scheme is meant for persons whose monthly income is between Rs. 601 and Rs. 1,250. The scheme is implemented through the Maharashtra Housing Board and Vidarbha Housing Board. Funds required by the Boards are made available to them from the loans drawn from the Life Insurance Corporation of India by the Government. The tenements constructed are given on rental and hire-purchase basis. The total number of tenements constructed till the end of March 1968 by the two Boards is 1,776.

Land Acquisition and Development Scheme : The scheme is executed through the agencies of the Maharashtra Housing Board, the Vidarbha Housing Board and the Nagpur Improvement Trust, which are given financial assistance to the extent of 100 per cent. The Maharashtra Housing Board has been allowed to constitute "Revolving Fund" out of the amount of Rs. 110 lakhs given to it under the Scheme. Since 1962-63, assistance for this scheme is given to the two agencies from the loans drawn by the Government from the Life Insurance Corporation of India. The area acquired and notified for acquisition respectively in acre till the end of March 1968 by the three agencies is given below : Maharashtra Housing Board 782 ; 2,023 ; Nagpur Improvement Trust 91.82 ; nil ; Vidarbha Housing Board 34.75 ; nil.

The Maharashtra Housing Board has also undertaken the reclamation of 117 acres of creek-land at Mahim causeway near Bandra in Bombay.

ROAD TRANSPORT

The position of Maharashtra State Transport for 1966-67 is given below: No. of passengers carried (in lakhs): 3,727.59; Capital invested (Rs. in lakhs): 3016.68. Total gross revenue (Rs. in lakhs): 3,140.74; Total revenue expenditure (Rs. in lakhs): 3,133.89.

The operational data of Maharashtra State Road Transport Corporation as of March 1967:

No. of passenger vehicles: 4,181; No. of goods vehicles: 70; No. of routes operated: 3,591; Route kilometres: 2,16,298; Major workshops: One central, 13 divisional and 92 depots; No. of persons employed: 28,906; No. of nationalised city services: 21; No. of Municipalised city bus services: four; Rate per passenger for 6.4 kilometres (4 miles): 20 P.; Total bus kilometres operated: 2,589.61 lakhs; No. of bus stations (permanent and temporary): 243; No. of refreshment rooms: 529; No. of cloak-rooms: 84; Pick-up stands 670.

At the end of 1967-68 there were 4,005 routes operating in the State as against 3,591 at the end of 1966-67. The aggregate route distance at the end of 1967-68 was 2.38 lakh kilometres as against 2.16 lakh kilometres at the end of the earlier year. The average number of passengers travelled per day increased to 10.91 lakhs during 1967-68 from 10.21 lakhs during 1966-67. The average daily earnings of the Corporation increased to Rs. 10.25 lakhs in 1967-68 from 8.26 lakhs during the year 1966-67.

MILK SCHEME—1968

Staff employed: Govt. Regular 4,810; Part-time 3,360; daily rated 2,000.

Area of Govt. Land: 4,466.64 hectares (Aarey 1,282.35 hec.; Palghar 1,318.74 hec.; Dabchhari Milk project 1,654.66 hec.; Worli Dairy 7.89 hec.; cultivated under irrigated fodders at Aarey for para-grass 203.00 hec.).

Daily quantity of milk procured: Aarey 108,332 litres; Kaira District Milk Producers' Union, Anand (Gujarat State) 62,219 litres; Co-operative Societies (Greater Bombay) 13,527 litres; Mofussil Schemes 138,437 litres.

Distribution of Milk (per day in litres):

	Type				
Whole Milk	289,571
Toned Milk	56,258
Double Toned Milk to Municipal Schools	33,018
Cow Milk	671

Number of distribution centres: Part-time centres: 1,617; Full-time centres: 18; Mobile milk-bar: 1; Total number of consumers taking milk from scheme: Families: 280,000; Hospitals and Institutions (bulk Supply): 506.

Sale price of milk per litre: Whole Milk Rs. 1.70; Cow Milk Rs. 1.70; Toned Milk Re. 0.90.

Daily average sale of milk products: Cheese 21.690 Kgs.; Butter 27 packets of 100 gram; Ice-cream 25 cups of 4 oz.; Ghee 83.445 kgs. (Butter and ice-cream are prepared at the students dairy, Aarey for training the students of Dairy Science Institute).

Transport: Milk distribution vehicles 195; Milk procurement vehicles 59; Staff Vehicles 49; Vehicles for other work 51.

Consumption of Electricity (Weekly): 35,000 units (Aarey); 86,240 units (Worli).

† Information for Vidarbha & Marathwada region is not available.

Consumption of Fuel Furnace Oil (Weekly): 20,000 litres (Aarey); 42,000 litres (Worli).

Bottles replaced (Weekly): (500 ml.) 14,000 (Aarey); 21,000 (Worli) (200 ml.) 2,800 (Aarey); 4,200 (Worli).

Detergents (Weekly): 2,297 kgs. (Aarey); 5,000 kgs. (Worli).

The Aarey Milk Colony

Started functioning 13th March 1949; Investments by Govt. Rs. 40 million; by Cattle owners in Cattle Rs. 30 million.

Number of licensee cattle owners 215; Number of Dairy Farm units 30.

Number of animals at Aarey: Buffaloes (milch) 16,077; dry 225; bulls 144; young stock 3,000; Stock in Young Stock Farm of Govt. 358. Cows (milch) 16 (with licensees), 189 with Govt.; dry 94; bulls 4; young stock 172; Stock in Young Stock Farm of Govt. 152.

Number of animals in districts undergoing salvage: Buffaloes 15,108; at Palghar, 1,450 buffaloes and 157 cows.

Average daily milk production per milch animal at Aarey: Buffalo's 6.90 litres; Cow's 4.2 litres.

Total daily tonnage of feed and fodder: Cattle feed 80.24; hay and fodder 112.34.

Pasteurisation capacity per hour 18,000 litres.

Bottling capacity per hour 40,000 bottles.

Number of containers in circulation: Distribution cans 199, bottles daily 3,22,346; crates 20,000.

Water consumption daily: 4,50,000 gallons.

The Worli Dairy

Started: Nov. 7, 1961; Investment on land, buildings etc.: Rs. 1,09,68,000; Value of machinery purchased by State Govt. Rs. 38,75,000; Value of machinery supplied by UNICEF Rs. 75,16,000.

Pasteurising Capacity: 40,000 litres per hour; *Bottling capacity:* 50,000 bottles per hour.

Number of containers in circulation: Distribution cans 282; bottles daily 5,82,532; crates 28,957.

Water consumption daily: 6,00,000 gallons.

Dapchhari Milk Project

Govt. Investments (estimated): Rs. 50.14 million.

Number of animals (a) milch cattle with family of farmers 10,000; with licensees 10,000; with research centre 1,000; (b) dry cattle 10,000; (c) young stock 10,000.

The project will be completed in another five years and will supply milk to the extent of 1,25,000 litres per day.

LABOUR†

Particulars about labour in Maharashtra State are given below:

Total number of registered factories as on Dec. 31, 1966: 10,119.

Number of Works Committees functioning as on 31st Dec. 1967: 286.

Average daily number of workers employed in factories as on Dec. 31, 1966: 8,79,341.

Number of towns covered as on Jan. 1, 1968 by the Bombay Shops & Establishments Act, 1948: 123.

Number of industries covered by the Bombay Industrial Relations Act, 1946 as on Dec. 31, 1967: 10 industries in Western Maharashtra. Bombay Industrial Relations Act is also made applicable to all industries in Vidarbha area except saw mills and ten other industries such as generations and supply of electrical energy, paper & paper products, building and road construction, Dairy and dairy

Products, Rice, Flour or dal mills, industries carried on by Municipal Council etc. and to Cotton Textile and Sugar Industries in Marathwada Area.

Trade Unions (December 31, 1967): Number of workers covered by the Bombay Industrial Relations Act, 1946 in Western Maharashtra: 3,55,249; Number of registered trade unions: 2,523; Total membership of registered trade unions: 12,05,645*; Number of regd. trade unions affiliated to I.N.T.U.C.: 122*; Membership of unions affiliated to I.N.T.U.C.: 90,163*; Number of regd. trade unions affiliated to A.I.T.U.C.: 63; Membership of Unions affiliated to A.I.T.U.C.: 41,729; Number of regd. trade unions affiliated to H.M.S.: 61*; Membership of unions affiliated to H.M.S. 1,98,866.

Industrial Disputes in 1967: No. of strikes 672; No. of workers directly involved 2,50,665; No. of workers indirectly involved 4,125; No. of man-days lost 39,476.

The Maharashtra Labour Welfare Board

Jambori Maidan, Worli, Bombay 18 (W.B.)

The number of welfare centres under the control of the Maharashtra Labour Welfare Board are 76. In addition, there are eight sub-centres carrying out activities on a restricted scale. Activities of these centres include recreation through entertainment, games and sports, health programme through first aid and health education, community and social education, subsidiary occupations and handicraft for women, nursery schools and scouts and guides for children, creches for toddlers, Tailoring Classes, etc.

Along with the programme of mass recreation, health and education, there has also been an emphasis on skilled recreation with an educative bias.

Attendance for 76 welfare centres and eight sub-centres in the State during 1967-68 was 4,30,19,229 with a regular membership of 1,77,477.

OFFICIAL LANGUAGE

Maharashtra Official Language Act, 1964 has been passed in the State Legislature and Directorate of Languages has nearly finalised the initial preparations like training of typists and stenographers, preparing administrative lexicon and other help books, etc. needed for the change-over from English to Marathi.

DECENTRALISATION OF ADMINISTRATION

In the State all villages have been brought within the fold of Panchayati Raj. Out of the total number of 38,851 villages, 38,259 villages have been covered by establishment of 22,117 Gram Panchayats. In addition 3,480 Nyaya Panchayats had been notified. Elections to these Nyaya Panchayats have taken place.

EMPLOYEES STATE INSURANCE SCHEME

The number of workers covered in Maharashtra Region centre-wise as on 31st March 1968, is: Greater Bombay 709,150, Poona including Chinchwad and Pimpri 46,600, Sholapur (including Sangli) 27,250, Kolhapur 9,000, Nagpur including Akola, Hinganghat and Nanded 36,500. There are 2 Hospitals viz. Mahatma Gandhi Memorial and Werli in Bombay with 892 general and 120 TB beds commissioned in those hospitals respectively. The number of beds in Maharashtra including reserved beds is 1,780. There are 17 Diagnostic Centres, 15 Ambulance Units, 1 Mobile Dispensary and 22 State Insurance Dispensaries in Maharashtra. There are in all 1,897 Panel Doctors including 612 Ayurvedic and five Unani Practitioners. For making cash payment to the insured persons 44 Local Offices and 31 Pay Offices have been set up.

* Figures are as on Dec. 31, 1966.

IRRIGATION

The total area irrigated through all irrigational sources in Maharashtra State in 1965-66 was 12,298 hundred hectares (net) and 14,140 hundred hectares (gross).

Below are given particulars about projects in operation.

Bhatghar Dam and Nira Canals:—At Bhatghar, Poona Dt., completed in 1938, irrigates 1,55,582 acres in Poona, Sholapur and Satara Dist. The cost of the scheme is Rs. 7.20 crores.

Bhandardara Dam and Pravara Canals System:—At Bhandardara in Ahmednagar Dist., completed in 1926, irrigates 65,912 acres in Ahmednagar. Cost 1.62 crores

Darna Dam and Godavari Canals System:—At Darna in Nasik Dist., completed in 1916, irrigates 69,117 acres in Ahmednagar and Nasik Dist. Cost Rs. 3.51 crores.

Chankapur Tank and Girna Canals:—At Chankapur in Dist. Nasik, completed in 1910, irrigates 10,348 acres in Nasik. Cost Rs. 21 lakhs.

Gangapur Dam:—At Gangapur in Nasik Dist. Stage I, physically completed in 1957, would irrigate 21,500 acres in Nasik and 20,000 acres in Ahmednagar Dist. Cost Rs. 3.95 crores. Stage II is completed during the current year. It would irrigate 19,000 acres in Nasik. Cost Rs. 111.55 lakhs. An expenditure of Rs. 5.23 crores has been incurred till March 1966 on Gangapur Stage I and II.

MAJOR AND MEDIUM PROJECTS

In the Third Plan, in all 27 new major and medium irrigation projects were included in addition to the 49 spill over schemes, for a total outlay of Rs. 69.06 crores which included flood protection works, extension and improvement, survey and investigation of major and medium irrigation projects etc. Against this provision expenditure of the order of Rs. 65.83 crores has been incurred during the Third Plan period. Out of the schemes which were under execution in the Third Plan, as many as 46 were physically completed and have started yielding benefits.

MINOR AND MEDIUM PROJECTS

The Third Five Year Plan expenditure for both State and Local Sector was Rs. 10.95 crores against a Plan allocation of Rs. 1,361.75 lakhs. Out of the schemes which were under execution in the Third Plan, in all 68 schemes were completed in the State Sector creating an additional irrigation potential of approximately 1,08,000 acres.

During the subsequent three annual Plans expenditure incurred and irrigation potential achieved are as under:—

Annual Plan Year	Expenditure			
	Major and Medium Project Rs. in lakhs	Potential (Additional) '000 acres	Minor Irrigation Works (S.S.) (Irrigating more than 250 acres) (Rs. in lakhs)	Potential (Additional) '000 acres
1966-67 ..	1,432.69	96.35	384.39	14
1967-68 ..	1,304.55	56.79	375.72	21
1968-69 ..	1,956.28	187.59 (Estimated)	525.76	34 (Anticipated)

PARTICULARS ABOUT SOME OF THE VERY IMPORTANT PROJECTS UNDER CONSTRUCTION

INDUSTRIES

Engineering :—In the field of engineering industry, there have been several notable developments particularly in the Bombay region. Some of these are machine tools like lathes, shaping machines, pillar drills, power hammers, metal cutting saws, steel and malleable iron castings, welding electrodes, electrical stampings, link chains, melting crucibles, umbrella ribs, steel furniture, safes and cash boxes, steel balls and copper roller engraving for textile industry.

Another feature is the beginning made in the manufacture of modern appliances like typewriters, refrigerators, wireless receiving sets, wooden and plastic cabinets and household electrical gadgets. Manufacture of modern equipment for agricultural plant protection, pressure stoves and lamps, stainless steel-pressed wares and equipment, industrial machinery for textile and chemical industries and fabrication of heavy structurals like transmission tower and pipe line, cranes, etc. has also developed in recent years.

The engineering industries located at Kirloskarwadi, Poona and Satara are known for their agricultural implements, engines and other products. There are about 84 units in the Poona division itself, manufacturing diesel engines, oil-engines, sugar-mill machinery, jeep trailers and tractors, non-ferrous utensils, agricultural implements, power looms, etc. In electrical engineering, the manufacture of electrical motors, transformers, cables for transmission and switch gears is worthy of mention.

Sugar :—Maharashtra is one of the major sugar-producing States in the country, having 35 sugar factories with a crushing capacity of 49,400 tonnes per day. They are located in the districts of Ahmednagar (13), Kolhapur (6), Poona (4), Satara (3), Sholapur (3), Nasik (3), Sangli (1), Osmanabad (1) and Aurangabad (1).

One of the important features of this industry is that 24 are in the cooperative sector. Letters of intent have been granted to three sugar mills in co-operative sector to be established two in Sangli and one in Satara districts.

Industrial Alcohol :—Allied to the sugar industry is the industrial alcohol industry, which can be developed from the molasses available from sugar factories. Out of about 152.4 million litres of alcohol made in the country, 33.47 million litres are made in the 8 distilleries located in the State. Proposals for setting up three new distilleries aggregating a total capacity of 13.5 lakh litres have been approved.

Chemicals :—The chemical industry in Maharashtra has made galloping progress.

Bombay and Thana are the main centres of dyestuffs industry manufacturing a wide range of products. Ceramic and glass, gases, oils and soaps, paints, pigments and varnishes, food products, rubber goods and other chemical industries also follow the same pattern.

The Automobile Industry :—Bombay is progressively undertaking the manufacture of cars, utility vehicles and scooters in three large assembly plants. The ancillary industry manufacturing component parts is also steadily developing under the patronage of the automobile industry. The annual licensed capacity for cars is 3,500. Scooters and three wheelers 28,000, others (Jeeps, trucks and tractors) 42,540. The Bicycle Industry is also making headway, having an annual licensed capacity of 2,30,000 bicycles.

Paper Mills :—The paper industry has been delicensed in the State. During 1967 according to factory Act there were three pulp mills, 18 paper mills and 18 paper board mills.

Oil Mills :—Groundnut being one of the important cash crops in Nagpur and Aurangabad divisions, there are several oil mills located in these regions. During 1968 in Aurangabad division itself there were 65 oil mills. In Nagpur division, there are about 65 oil mills. In Poona region the number of oil mills is 64. In Bombay region the highest number of oil mills is in Jalgaon, followed by Bombay city and Dhulia. The total number of oil mills in Bombay Division is 140. In addition most of the ginning and pressing factories in the cotton growing tracts which grow groundnuts also have oil mills for off season working.

Ginning and pressing is an important processing industry serving the cotton growing areas. There were 467 such factories all over the State during 1967 a large number of them, having been located in Nagpur division. A little over 85 ginning and pressing units are spread over the entire cotton-producing area in Aurangabad division. In Bombay division out of 114 ginning and pressing factories 24 are located in Dhulia district and 56 in Jalgaon district while there are 52 such factories in Poona division. Nagpur division is having 216 factories.

Petrochemical Industry :—The organic chemical industry in India has so far been based upon the fermentation of alcohol, acetylene from calcium carbide and benzene and allied products from coal-tar. With the setting

up of petroleum refineries in the country, there is scope for utilising petroleum naphtha for production of intermediates required for the organic chemical industry. One petro-chemical complex with a total capacity of 45,220 tonnes has come up near Bombay in the Trans-Thana-Creek area. In this complex several organic products such as ethylene oxide, diacetone alcohol, P.V.C. etc., will be produced with petroleum naphtha as the starting material.

Textiles:—During 1967 the total spindle and loom capacity of the state was 26·7 per cent and 22·2 per cent respectively. The total number of mills in the State was 95 (18 spinning and 77 composite) with a capacity of 45,49,427 spindles and 7,835 looms. Of these mills 59 mills are in Bombay city and 36 are in rest of the State.

In addition, there are also 1·6 lakh looms in the hand-loom sector. The total number of workers engaged in textile industry is 2,31,781 of which 182,565 are engaged in Bombay city and 49,216 in rest of Maharashtra.

Maharashtra occupies an important place in the field of growing of cotton in the country. Of the total production in the country, about 25 per cent is produced in the State, amounting to 14 lakhs of bales. The quality of cotton is mostly short and medium staple. Recently growth of long staple cotton has picked up in certain irrigated tracts in the district of Ahmednagar.

The following figures show the industry-wise productive capital, output and value added respectively for the year 1965 in Maharashtra State (Figures in lakh rupees): Textiles 16,422, 41,363, 11,983; Food industries (except beverages, sugar factories and refineries) 3,195, 17,816, 1,762; General and electrical engineering 12,473, 18,968, 5,982; Petroleum 6,236, 4,641, 995; Transport and transport equipment 8,035, 11,630, 3,508; Sugar factories and refineries 5,115, 5,787, 1,161; Rubber products 1,591, 3,311, 947; Basic industrial chemicals, paints, varnishes, lacquers and miscellaneous chemical products 18,655, 25,350, 7,915; Other industries 39,648, 42,191, 11,946; All industries 1,11,370, 1,71,057, 46,199.

During 1966, the total no. of working factories was 9,042 with an average daily employment of 8,79,301 workers.

Details about strikes, workers involved, and man-days lost for 1966 (actual) and 1967 (provisional) respectively are: 1966 (781; 5,14,391; 35,41,947); 1967 (710; 2,49,740; 22,05,481).

AGRICULTURE

The crop-wise area for the years 1964-65 and 1965-66 respectively are (Fig. in '000 hectares): Rice 1,365, 1,272; Wheat 910, 905; Jowar 6,037, 6,038; Bajri 1,676, 1,576; Groundnut 1,071, 1,053; Sugarcane 144, 161; Cotton (Lint) 2,822, 2,663. The following figures are for 1963-64 and 1964-65: Total cereals 10,556, 10,444; Total Pulses 2,381, 2,333; Tobacco 18, 17; Ragi 225, 222; Maize 28, 29; Barley 5, 4; Tur 566, 581; Gram 376, 367; Potatoes 15, 15; Chillies 168, 174; Sesamum 126, 125; Castor seed 4, 4; Rape, Mustard, Linseed 213, 211.

Area in '000 hectares for 1966-67: Rice 13,46; Wheat 9,17; Jowar 61,53; Bajri 17,22; Tur 5,20; Gram 3,46; Sugarcane 1,54; Cotton 26,00; Groundnut 10,50.

Statement showing the area under certain groups of the crops (figures in '00 hectares) as in 1963-64: Fruits & Vegetables 1,623; Condiments & Spices 2,066; Oil Seeds 18,880; Drugs & Narcotics 208; Fodder Crops 9,257; Total non-food crops 57,286.

Sugarcane is grown in all the districts except the Konkan districts, the major cane growing districts being Ahmednagar, Kolhapur, Poona, Nasik, Satara, Sangli, Sholapur, Osmanabad and Aurangabad. These nine districts have

about 1·25 lakh hectares under sugarcane yielding 10·54 lakh M. tonnes of sugarcane (in terms of gur) in 1963-64. Estimated production of sugarcane in 1963-64 was 11·01 lakh tonnes.

The Marathwada districts have nearly 6·40 lakh hectares under oilseeds, the corresponding figures for Vidarbha districts being 3·51 lakh hectares. The western Maharashtra including Jalgaon has about 8·77 lakh hectares under oilseeds.

As regards cotton, the area and production in Marathwada, Vidarbha and Western region including Jalgaon is as follows: Marathwada: 7·45 lakh hectares, 0·50 lakh tonnes; Vidarbha: 15·50 lakh hectares and 1·35 lakh tonnes; Western region: 5·07 lakh hectares and 0·69 lakh tonnes.

Although the Konkan districts are lean in the production of food crops, they excel in horticultural wealth. Ratnagiri district had 10,592 acres under mangoes in 1963-64. Similarly, the district has 10,246 acres under cashewnut. Thana district is the home of bananas, with an acreage of 2,576. Nagpur oranges are well-known. They are grown in Nagpur, Amravati and Wardha Districts, which have about 28,000 acres under them. In Jalgaon district also the area under bananas is large viz. about 31,800 acres.

Rice is abundantly grown in the coastal districts of Thana, Kolaba, Ratnagiri and also in Chanda and Bhandara. It accounts for one sixth of the food grains grown in the state. Wheat accounts for a little more than one fifteenth. Millets are grown abundantly in the Deccan, Vidarbha and Marathwada districts. Jowar is the major cereals and accounts for half the production.

LAND REFORMS

For the purposes of tenancy reform, Maharashtra State falls into the following main categories:—

- (i) The former Bombay areas consisting of 13 districts which are governed by the Bombay Tenancy and Agricultural Lands Act, 1948;
- (ii) Vidarbha areas consisting of 4 districts of former Central Province and 4 Berar districts, governed by the Bombay Tenancy and Agricultural Lands (Vidarbha Region) Act, 1958;
- (iii) The Marathwada area consisting of 5 districts governed by the Hyderabad Tenancy and Agricultural Lands Act, 1950.

The main provisions of these laws are more or less similar and they can broadly be grouped under the following five topics:—

- (i) Security of tenure for tenants, (ii) Regulation of rent, (iii) Resumption for personal cultivation, (iv) Rights of ownership for tenants, (v) Land management.

Details about "Land Reforms" were given in the previous editions of the Directory.

The programme of consolidation of small and uneconomic holdings was completed in 3,184 villages by the end of the Third Plan, covering an area of nearly 54·43 lakh acres. In the Western Maharashtra about 6,82,376 tenants out of 16 lakh tenants have till March 1967 become owners of 14·45 lakh acres of land as a result of legislation for compulsory transfer of ownership from land lord to tenant.

MINERALS

The Maharashtra possesses many useful mineral deposits in the north-eastern and south western parts, the remaining areas being covered mostly by Deccan Traps. The rich deposits of iron ore, mostly confined to Ratnagiri and Chanda districts, large deposits of manganese ore, both of high and low grades, occurring in Vidarbha, particularly in Nagpur and Bhandara districts, extensive deposits of

bauxite especially in Kolhapur, Ratnagiri, Kolaba and Thana and good reserves of coal in Vidarbha constitute the main mineral wealth of Maharashtra.

In addition to these major minerals, there also occur other minerals like ilmenite, chromite, dolomite, tungsten ore, mica, silica, limestone, clay, etc.

Iron Ore :—Very rich deposits of iron ore are located in various parts of Maharashtra, particularly in Ratnagiri district and in Chanda district of Vidarbha region. The reserves of Ratnagiri are estimated to be of the order of 200 to 250 million tonnes with 25 million tonnes of 58 to 62 per cent iron in Redi area alone. Recently large deposits of iron ore have been discovered at Surjagarh, Wadvi and from other localities in Sironcha tehsil, Chanda district.

Manganese :—The Vidarbha region has very large deposits of manganese ore, both of high and low grade. Most of the areas bearing high grade ore have already been leased out. For the present, almost the entire quantity of manganese ore produced is exported in raw condition. However, recently, two ferro-manganese plants which utilize a sizeable quantity of the ore have been set up one each in Nagpur and Bhandara districts. There is a heavy separation plant at Dongri Buzurg for beneficiating low grade ores.

In Bombay division also, the manganese ore appears to be occurring almost side by side with the three iron-ore belts running parallel in Ratnagiri district.

Bauxite :—Kolhapur district has rich deposits of bauxite. More than 34 million tonnes of bauxite exist in this zone. They occur at Udgiri, Dhangerwadi, Range-wadi, Radhanagari, Waki, Gargoti, Panhala, Ajra and Vishalgadh all in Kolhapur district.

In the Coastal region, bauxite occurs in Ratnagiri, Thana and Kolaba districts. The deposits of Ratnagiri lie in the up-ghat region at Amboli. The ore occurs at Tungar hills in Thana district and in the Borivli, Jogeshwari and Goregaon area. In Kolaba district, bauxite deposits of good quality have been reported at Dohane, Ambegaon and Wakalghar in Murud taluka and Wave and Shinona in the Shriwardhan taluka. The known total reserves of bauxite of all grades in the coastal districts are 12.8 million tonnes, out of which 5.9 million tonnes are of high grade. The high grade bauxite reserves in Satara district are 4.4 million tonnes and total all grade reserves are 7 million tonnes.

Coal :—Vidarbha is the only region in the whole of Maharashtra where coal is found. Coal occurs in four detached basins viz. Kamptee, Umrer and Bokhara in Nagpur district and Wardha Valley coal field in Chanda and Yeotmal districts. At present three mines, one each in Kamptee, Sillewara and Umrer in Nagpur district and six mines in Chanda district are working.

The estimated reserves of coal in Kamptee and Umrer are 700 and 70 million tonnes, respectively. The reserves of Wardha valley are Chanda—136 million tonnes, Ballarpur—2,000 million tonnes, Sasti-Rajura—100 million tonnes, Mazri—50 million tonnes, Warora—60 million tonnes, Gughus—Telwasa—1,500 million tonnes and Rajur (or Wun)—240 million tonnes.

In Nagpur district the estimated total reserves are placed at 387 million tonnes.

On the basis of proved deposits of coal at Umrer and Sillewara an open-cast mine of one million tons capacity is already in production at Umrer by the National Coal Development Corporation and production from Sillewara is also expected soon. The coal produced from both the areas would be consumed mostly by the Khaparkheda thermal power station.

The total coal reserves in the Vidarbha region are of the order of 5,000 million tonnes.

Limestone :—The Marathwada region has limited mineral resources, which consist chiefly of building stones, semi-precious stones, zeolites and material for lapidary industry. Limestone deposits have, however, been discovered south-west of Mohada in the Kinwat Taluka of Nanded district. The workable reserves are provisionally estimated at 0.71 million tonnes. The deposits are of poor quality.

Important deposits of limestone in Nagpur Division are located in Rajur, Mukutban, Sindola and Chanakha—Bhimkund in Yeotmal district and Warora and Rajura in Chanda district. As a result of investigations carried out by the State Directorate of Geology and Mining about 382 million tonnes of limestone has been found in different areas of Yeotmal district, out of which 336 million tonnes are of cement grade. The estimated reserves of Yeotmal District are of the order of 5,000 million tonnes.

In Poona Division, limestone has been located at Kallur, Nandur, and Khandarwadi in Ahmednagar district. Recent surveys reveal good deposits of limestone in the Miraj taluka of Sangli district.

Reserves in Ahmednagar and Sangli districts are estimated at 0.5 and 1.5 million tonnes respectively.

In Sangoda limestone belt, Rajma tehsil of Chanda Dt., a probable reserve of 450 million tonnes has been estimated by the State Dept. of Geology and mining.

Dolomite :—Extensive deposits of dolomite and dolomitic limestone occur in Yeotmal, Chanda and Nagpur districts of Vidarbha region. A reserve of 50 million tonnes of flux grade dolomite has been proved in Wani tehsil, Yeotmal district. The reserves of dolomitic marbles in Nagpur district are estimated at 186 million tonnes. The dolomite of Nagpur and Yeotmal districts is used as flux by the ferro-manganese plants situated in Kanhan and Tumsar.

The distribution of some other minerals is :—

Ilmenite :—Deposits of ilmenite sand (ilmenite content—70 to 76 per cent) occur sporadically along a 40 kilometre long coastal belt from Purnagarh to Malgund and beyond in Ratnagiri district. Probable reserves at some important localities like Rajwade, Bhatia, Ratnagiri, Purnagarh, Gaonkhedi and Malgund are 0.24 million tonnes. These are not worked at present.

Chromite :—Ratnagiri District (Kankavali, Vagda), estimates 71,000 tonnes, and Bhandara district (Pauni), estimates 487,000 tonnes.

Silica :—Ratnagiri District: estimated reserves over 50 million tonnes. The silica sand is useful for foundry and chemical industries like Sodium Silicate.

Clay :—Ratnagiri District (Talegaon, Malvan, Vengurla, Kudal, Sawantwadi); Thana District (Ghokhara Mouza near Bassein Road); Nagpur District (Bozargaon, Shemda, Khapri); Amravati District (Belkher, Kharaili, Pandhari); Chanda District (Kothari, Isapur, Ballarshah, Junona, Bhandak). Some leased for pottery works at Nagpur, Jabalpur and Chanda.

Kyanite, Sillimanite and Corundum :—These minerals occur at Pohara, Gobarwahi and other places in Bhandara District.

Tungsten :—Wolframite with occasional association of scheelite is reported from Agargaon in Nagpur District.

In 1967, the total value of mineral production in Maharashtra was Rs. 86.80 million as against Rs. 73.63 million in 1966. The State ranks seventh in mineral production in the country.

The table below gives production of various minerals during 1966 & 1967 and the value.

Minerals	1966		1967	
	Quantity (Tonnes)	Value (Rs. '000)	Quantity (Tonnes)	Value (Rs. '000)

ADMINISTRATIVE PERSONNEL

(See under States Administrative Personnel).

GREATER BOMBAY

The area of Greater Bombay is 186 sq. miles and the population 4,152,056 (1961 Census).

The area of Bombay City is 26 sq. miles and the area of the Bombay Suburban District is 160 sq. miles. For population see under "Population".

The northern boundary runs from the north of Dahisar village in the west, in the centre between the milestones 21 and 22 on the Agra Road.

The municipal area of Greater Bombay described above is also the area covered by Bombay City and the Bombay Suburban District from the point of view of revenue division.

The Collector for Bombay City is also the Collector for the Bombay Suburban District. Bombay City Collectorate is directly under the Government and is governed in accordance with the provisions of the Maharashtra Land Revenue Code, 1966.

The Bombay Suburban District has besides the Collector, one Additional Collector, one District Deputy Collector, one Additional District Deputy Collector and three Mamlatdars one for each of the Talukas. Andheri (also called South Salsette) with headquarters in Andheri, Borivli with headquarters in Borivli and Kurla with headquarters at Mulund (with effect from Aug. 16, 1962). The headquarters of the Additional District Deputy Collector is at Andheri.

There are 35 Presidency Magistrates Courts out of which two are created for the trial of railway cases and one for the trial of children act cases. Besides there are 12 courts of Honorary Presidency Magistrates, 10 Police Divisions and 39 police stations in Gr. Bombay.

COMMERCE AND INDUSTRY

Commercially and industrially Bombay is the second, if not the first city in India. It is the principal centre of the cotton textile industry (56 cotton mills with 58,547 looms and 31,06,502 spindles). Its share in looms and spindles is 32.45 per cent and 24.06 per cent respectively of the total in the country. There are over 566 textile factories including silk, woollen and hosiery; over 986 engineering

undertakings; over 146 establishments manufacturing articles of food, drink and tobacco; over 256 establishments producing chemicals, etc.; 19 hides and skins processing concerns, and over 2,000 factories of a miscellaneous character.

The Reserve Bank of India, the central banking and currency authority has its Central Office in Bombay and 30 Indian Scheduled Commercial Banks operate in Bombay. Of the Indian Scheduled Commercial Banks four have their registered offices here. There are 14 foreign Scheduled Commercial Banks. Of these, eight have their principal offices located in Bombay.

Being the best natural harbour in India, the trade carried through Bombay is about 46 per cent of the total trade of India. The principal items of import are bricks, cement, sand, etc.; China clay; coal; cotton; glassware; grain; hardware; iron and steel; kerosene; fuel oil; motor vehicle parts; machinery; boilers and railway materials; oilman stores; oils; vegetables, etc.; paper; piece-goods; petrol; sugar; timber; twist and yarn; Government and naval and military stores.

The main exports are cola; cotton; flour; groundnuts; hemp; hides and skins; kerosene and fuel oils; manganese ore; myrobalans; oil-cake; piece-goods; seeds; spices; sugar; wool packages; twist and yarn; Government and naval and military stores.

The total returns to the Central Government from Greater Bombay in customs revenue for the year 1966-67 is about 43.72 per cent of the total revenue from the seaborne and airborne trade of India. The income-tax return to the Central Government from Greater Bombay is about 33.2 per cent of the total income from the country. The Corporation Tax amounts to about 49.5 per cent of the total collections in Gr. Bombay.

COMMUNICATIONS

From the communications point of view Bombay holds a unique position. There are numerous air routes connecting Bombay with the rest of the country, and it is also directly linked with foreign countries aurally. The head

offices of two chief railway systems, the Central and Western Railways are in Bombay which is rail linked with Calcutta, Delhi, Nagpur and Madras. It is the second biggest port and the chief sea communications centre of India. Greater Bombay's transport requirements are met by the local services of the two railways, Central and Western, besides the bus services of the municipalised Bombay Electric Supply and Transport Undertaking.

HOUSING

Statement showing the number of tenements constructed and completed by the Maharashtra Housing Board from April 1, 1947 to Dec. 31, 1967 in the Greater Bombay

area, under the respective groups : Old industrial housing scheme 2,608 ; scheme for B.S.O.R. 500 ; old low income group housing scheme 2,075 ; military hutments 1,575 ; subsidised industrial housing scheme 25,094 ; rehabilitation scheme 19,715 ; new low income group housing scheme 7,769 ; slum clearance scheme 13,461 ; housing scheme for dishoused persons 200 ; middle income group housing scheme 1,568 ; economically weaker section housing scheme 740 ; Deposit Contribution Scheme 200 ; Total 75,865 ; acquisition and development of lands 515 acres ; Juhu-Vile Parle development scheme 426 acres ; Total 941 acres ; Total expenditure incurred during the above period for the whole State Rs. 4,128.70 lakhs. (This is exclusive of Vidarbha region).

THE GREATER BOMBAY CORPORATION

To improve the tempo of civic amenities and to add substantially to the convenience of the public, the administration was divided ward-wise from 1964-65.

The municipal area of Greater Bombay is now divided into 17 administrative wards. These are A, B, C, D, E, F (North) ; F (South) ; G (North) ; G (South) ; H ; K ; L ; M ; N ; T ; P ; R.

For election purposes the municipal area of Greater Bombay is divided into 140 electoral wards—numbered 1 to 140.

The municipal government of Greater Bombay vests in the Municipal Corporation, composed of 131 representatives elected on adult franchise.

The Corporation has four statutory committees, the Standing Committee, the Improvements Committee, the Bombay Electric Supply and Transport Committee and the Education Committee.

The executive power in regard to general municipal administration vests in the Municipal Commissioner. The administration of the B.E.S.T. Undertaking, however, vests in the General Manager, B.E.S.T.

The Corporation is required to meet at least once a month. In actual practice it meets twice a week and oftener if necessary. Meetings of the Corporation are presided over by the Mayor who also convenes the meetings. The Mayor's term of office is one year and he is elected at the first meeting in April.

As per provisions of the Bombay Municipal Act relating to elections amended under provisions of Maharashtra Act No. VIII of 1965, the Municipal General Election was held early in 1968 on the basis of single member constituencies consisting of 140 wards. The term of the constitution was raised from 4 to 5 years.

The four most important officers of the Corporation are the Municipal Commissioner, the General Manager of the Undertaking, the Municipal Secretary and the Municipal Chief Auditor.

EDUCATION AND MEDICAL RELIEF

Primary education is free and compulsory in the Lower Primary standards of Municipal Schools all over Greater Bombay. It is the special responsibility of the Corporation.

But only about 88 children out of 100 receive an education.

From 1958 the benefit of free education was extended to the upper primary classes too.

There were 1,012 Municipal Schools and Classes conducted by the Education Committee and 554 Aided or Recognised Schools. The total number of pupils in all Primary Schools was about 6,33,964 out of whom 4,81,211 were in Municipal Schools and the rest in other Schools. The Corporation spent about Rs. 7,66,76,426 on primary and secondary and vocational education including office in 1966-67. Of this Government contributed Rs. 80,82,480. There was a net increase of 6,743 pupils in Municipal Schools during the year.

Education cess collected during 1966-67 was Rs. 94,45,061.

With the sanction of the State Government the Corporation has started 27 secondary schools. Instruction is imparted through Marathi, Gujarati, Urdu, Hindi and Kannada.

The Municipality maintains the Victoria and Albert Museum at Victoria Gardens and 22 libraries and free reading rooms.

Medical Relief : The Municipality runs one large hospital for infectious diseases (except tuberculosis, venereal disease and leprosy) at Sane Guruji Road and three other large general hospitals in the City proper (K.E.M. ; Nair and the Lokamanya Tilak Hospital, previously known as the Sion Hospital) and a group of hospitals for the treatment of tuberculosis at Sewri, an isolation centre at Dadar and four clinics and an ear, nose, throat hospital at Napier Road. Altogether 1,288 beds are reserved for T.B. patients. In the Suburbs there are four general hospitals and 1 T.B. Clinic and 400 beds reserved for T.B. patients. Medical treatment is administered also through 59 general dispensaries, 2 Ayurvedic dispensaries, 1 Unani, 6 women's and children's clinics, 11 Mobile Hospital Units, and 15 Maternity Homes and 27 maternity and child welfare centres. The five general hospitals have maternity wards where maternity cases are treated free of charge. There are 35 family planning centres in Greater Bombay. Anti-rabies treatment is given free of charge at the K.E.M., Nair and Lokamanya hospitals as well as the Bhabha Hospital at Bandra, the Municipal General Hospital at Ghatkopar (at Rajawadi) ; K. B. Bhabha Hospital, Kurla and Smt. M. T. Agarwal Municipal General Hospital, Mulund.

WATER SUPPLY

The water supply of the City is drawn from four lakes : Tansa, Vaitarna, Vihar, Tulsi and Ulhas river. The Tansa lake combined with Vaitarna has a maximum supply capacity and it is the main source of water supply. It is situated about 66 miles north-east of Bombay. The Vihar lake can supply 20 million gallons a day exclusively to

the north-east part of the City and also partly to Chembur and Kurla. It is situated about 18 miles north of Bombay. The Tulsi Lake which is to the north-west of Vihar Lake supplies 3 million gallons a day.

Under Section 140 of the Bombay Municipal Corporation Act the Corporation can levy water tax on buildings, lands and premises in the City. The tax is fixed as a certain percentage of the rateable value of the building, land or premises. The supply of water to any premises can be cut off in default of payment of water tax or any sum due for water or hire of meter or expenses of work done.

If the Municipal Commissioner finds that any premises are not provided with an adequate supply of pure water he has the power under Section 271(2) to compel the person who pays the property tax to obtain an adequate supply from Municipal Water Works and carry out all such works as is necessary for a proper distribution of water.

For purposes of distribution Bombay is divided into five divisions, viz., area getting supply from (a) Malabar Hill Reservoir, (b) Bhandarwada Hill Reservoir, (c) Worli Hill Reservoir, (d) Gollanji Hill Reservoir and (e) directly from trunk mains.

Total water supplied to Greater Bombay per day during the previous year was about 208.36 million gallons. In the year 1965-66 there was a failure of the monsoon creating an emergency. The water level in all the lakes had dropped down to a dangerous low level. The State Govt. was contemplating evacuation to save the tragic situation. But, fortunately the monsoon made its appearance at the very last moment saving the situation.

In view of the overall shortage of water being experienced in Greater Bombay area in recent years, quotas have been fixed to limit the consumption of industries requiring more than 32,996 gallons of water per month.

The schemes envisaged to augment the present water supply are : Rs. 5.25 crores Dahisar river dam, which is expected to yield 6 million gallons of water per day and construction of a dam on the Upper Vaitarna river. Other schemes envisaged are Bhatsai and Kalu river schemes. The Govt. of Maharashtra permitted the Municipal Corporation to draw surplus water from Ulhas river.

The Municipal Corporation will have to make arrangements to convey the additional supply (full supply estimated at 120 million gallon per day) by laying an additional pipe line from Tansa to Bombay. The work of driving a tunnel from Mulund to Kandivali is already in progress. The Corporation will also have to construct additional service reservoirs and distributory mains in Greater Bombay area for proper distribution of water. All the works are likely to cost about Rs. 42.2 crores.

Regular bacteriological and chemical analysis of water is carried out by the Municipal Analyst.

PUBLIC HEALTH DEPARTMENT

The Department is divided into several branches such as environmental sanitation, food sanitation and food adulteration, vital statistics, regulation of places for disposal of the dead, prevention and control of communicable diseases, maternity and child hygiene, family planning, medical relief and health propaganda.

The vaccination staff includes a Superintendent, a Head Vaccinator, a number of vaccinators including a Lady Vaccinator. There are 84 public vaccination stations 7 of which work daily at : 1. The Central Vaccine Depot, Parel. 2. The Sanitary Institute Building, Princess Street. 3. Municipal Suburban Offices, Waterfield Road, Bandra.

4. Andheri Maternity Home, Andheri. 5. Seth N. L. High School, Malad. 6. Kasturba Hospital, Sane Guruji Road. 7. Ferry wharf (closed from June 1, to Sept. 30). The remaining centres work on one day every week by rotation for about 2½ hours. Vaccinations are also done at the Municipal general hospitals.

Hygiene includes maternity and child welfare, family planning and school health.

There are 27 maternity and child welfare centres in Greater Bombay and five maternity wards in general hospitals, each in charge of a Lady Medical Officer. A number of Health Visitors do the follow-up work and ensure domiciliary care under the direction of the Lady Medical Officers. A small maternity unit is conducted at Dharavi. Expectant mothers are encouraged to attend ante-natal clinics, of which there are 27 in number. Maternity Homes in the City are at Cadell Road, Victoria Road, Bellasis Road, Khetwadi, Imamwada Road and Naigaum. And child welfare clinics are conducted (besides the Maternity Homes) at Fergusson Road Dispensary, Dadar Main Road Dispensary, Ambewadi Dispensary at Parel Tank Road, District Dispensary at Souter Street, Tardeo Flats Dispensary, District Dispensary at Charni Road, District Dispensary at Panjrapole, Palton Road Stables Dispensary. Four child health centres, two well-baby centres and three paediatric centres are conducted at Maternity homes.

There are 35 family welfare planning clinics conducted at Municipal maternity homes and hospitals where instruction and advice in the spacing of births are given. Operative procedures are done at the larger Municipal hospitals as well as at Naigaum Maternity Home on a voluntary basis only. In addition six information-cum-distribution centres with vasectomy operations were started in co-operation with the Central and Western Railways. Two more such centres are conducted at Nana Chowk and Worli.

School Health Work is limited to Municipal Schools only and is under a Medical Officer. Children found to have defects are taken for treatment in school buses to the school clinic at K.E.M. Hospital. Dental care is given at the Dental Clinic at the Bai Yamunabai L. Nair Hospital. All children in municipal schools are given free milk on working days.

The Public Health Laboratory which is under the charge of a Municipal Analyst conducts routine and special examinations of water, sewage, food, urine, blood and sputa of patients at Municipal Institutions. There is also a Health Museum maintained for the education of citizens.

Conservancy includes cleansing of streets, etc., removal and disposal of refuse, destruction of rats and dogs, veterinary service, removal of carcasses, disinfection, ambulance and so on.

Medical Relief is given at the following hospitals :

K.E.M., Nair, Lokmanya Tilak Hospital, R.P.T.B. and Kasturba Hospital, at 59 Municipal General Dispensaries, 11 Mobile Hospital units and one Eye Hospital and Dispensary.

WELFARE WORK

To stimulate civic awareness and promote closer contact with the public, the Corporation has been running an illustrated English monthly called 'The Bombay Civic Journal' from March 1954. It deals with the activities and problems not only of the Bombay Municipality, but also of other local bodies all over the country and seeks to foster 'an objective discussion of civic issues and the larger questions relating to local self-government from the national angle'.

Another new development has been the starting of a Public Relations Department in February 1956. This department, besides doing educative publicity through films, posters, pamphlets, press notes etc., has also been issuing useful booklets for the guidance of citizens.

Other activities include the production of films for health education, the introduction of various modern devices for traffic movement, starting of a unit for research in primary education, the opening of a municipal bank, the building of two open-air theatres for the recreation of citizens, holding of civic exhibitions, organisation of health and cleanliness weeks, conducting of seminars, establishment of an electric crematorium, construction of sub-ways, two fly-overs and the starting of a department of preventive and social medicine at the Topiwala National Medical College and a convalescent home at the K.E.M. Hospital and maintenance of a swimming pool.

AHMEDNAGAR DISTRICT*

Headquarters : Ahmednagar.

The language spoken is Marathi.

The staple food grains are jawar and bajra. Wheat and gram are grown in the vicinity of the rivers and rice in the westernmost Akola Taluka including other irrigated areas. Vari and ragi are cultivated in soils which are suited to coarser grain. The pulses are tur, mung, math and kulith. Among the cash crops may be mentioned cotton, hemp, safflower, sesamum, linseed, sugarcane, tobacco, kardi, pan, groundnut, tomatoes, bananas and potatoes. Recently sisal fibre crop plantations are undertaken on an extensive scale.

The chief historical places of interest to visitors are the Ahmednagar Fort, the tomb of Mughal Emperor Aurangzeb

(on the outskirts of the town), the temple of Dnyaneshwar, the residential palaces of the Shindyas and the Peshawas at Jamgaon and Kopergaon respectively.

Among industries sugar is now one of the most important. There are twelve sugar factories in the District. Gurmaking, handloom weaving, iron foundries and bidi making are the other important industries.

There are ten irrigation tanks in the District.

There is a Holiday home at Bhandardara, a summer resort and hill station.

Apart from Colleges, there are about 98 Secondary High Schools in the district out of which three high schools are exclusively for girls.

AKOLA DISTRICT*

Headquarters : Akola.

The greater part of it is fertile alluvial land but the Satpura plateau rises abruptly on its northern border with the ancient fort of Narnala nestling on one of the hills and commanding the whole Poorna plain. The

average rainfall is 30 inches and the temperature in summer rises in certain places to 118 degrees during the day.

The District is mainly agricultural but there are cloth mills, a number of cotton ginning and pressing factories and oil mills.

For the area and population of the districts, see article *Population*.

AMRAVATI DISTRICT*

Headquarters : Amravati. Amravati is a plain about 800 feet above sea-level.

The language spoken is Marathi.

The staple foodgrain is jawar. Other foodgrains are wheat and pulses. Cash crops include cotton and oilseeds, of which cotton is the more important.

AURANGABAD DISTRICT*

Headquarters : Aurangabad.

The most important cave temples in India — at Ellora and Ajanta — are found in this District. The great fort of Daulatabad is an extraordinary structure; the village of Khuldabad has the tombs of the Emperor Aurangzeb and of Asaf Jah, the founder of the former ruling dynasty.

BHANDARA DISTRICT*

Headquarters : Bhandara.

The chief language is Marathi but Hindi is also spoken by a considerable section of the population.

The principal food crops are rice, jawar, wheat, gram, linseed and pulses. Ginger, oranges and plantains are also

grown and sent to Nagpur. Mineral deposits include those of manganese, iron and a little gold.

The chief industries are weaving, making of brass vessels and stone jars, of soft grass matting for bedding, and of bamboo baskets.

BHIR DISTRICT*

Headquarters : Bhir.

There are forts and buildings at Bhir which are of archaeological interest. Amba has a temple dedicated to Jogai. The temple of Baijnath at Parli is a celebrated place of Hindu pilgrimage.

The soil is mostly black cotton. On this are grown cotton, white jawar, gram, gingelly and wheat, while on the masab and kharab soils are grown white bajra, yellow jawar, pulses and oilseeds. Cotton and linseed are produced extensively in the District. The staple food crops are jawar and bajra. Wheat and rice are next in importance.

BULDANA DISTRICT*

Headquarters : Buldana.

The language spoken is Marathi.

Jawar is the chief food crop, though wheat is also grown. The most profitable cash crop is cotton with oilseeds

coming next.

The principal industry is the preparation of cotton for the market. Exports consist of raw cotton, oilseeds, grain and pulses, and the imports include grain and pulses, coal and coke, sugar and salt.

* For area and population of the districts see main article *Population*.

CHANDA DISTRICT*

Headquarters : Chanda.

The languages spoken are Marathi, Hindi, Telugu and Gondi.

Except in the open country on the west and north, the whole District is thickly wooded.

The forest vegetation in the District is of a mixed character. Teak is fairly general but is not anywhere very plentiful. The principal trees are Saj, Bijasal, Rohan, Kaddan, Haldu, Semal, Mahua, Dhaura, Tendu, Garari and Palas. The forests are well distributed, and very few

villages are more than three miles from some part of them.

The annual rainfall averages about 51 inches at Chanda Town and 46 at Warora.

Rice which is the most important crop is grown in the centre and east of the District. Jawar is the chief crop in Sironcha and the Warora Tahsils, while linseed, gram and wheat are grown principally in the black-soil lands of the Chanda Haveli and those adjoining the Wardha river. Cotton is also an important cash crop.

Coal-mines occur and there are match factories, ceramic industries and paper manufacture.

DHULIA DISTRICT*

Headquarters : Dhulia.

The languages spoken are Marathi, Gujarati and Bhil.

The main crops of this District are cotton, wheat, bajra, jawar and groundnut. Sugar-cane and chillies form the main irrigated crops. There are two types of irrigation in this District: (1) Well irrigation and (2) Bandhara irrigation.

There is a Government Agricultural Institute, where Gram Sewaks are trained.

INDUSTRIES

Dhulia is the biggest cotton centre in the Dhulia District and has a well regulated Cotton Market. There is also another regulated Cotton Market at Dondaiche in the Sindkheda Taluka. There are spinning and weaving factories as well as cotton ginning and pressing factories.

Dhulia has also been lately developing into a groundnut oil industry centre. There are about 42 oil mills, including 14 at Dhulia, which together produce about 2,000 tons of groundnut cake. There are also saw mills.

The newly built hill station of Toranmal, is situated on the Satpura range plateau at an altitude of 4,200 feet. The climate is very salubrious.

JALGAON DISTRICT*

Headquarters : Jalgaon.

Jalgaon District, with Jalgaon as capital, is one of the northernmost Districts in Maharashtra.

AGRICULTURE

The most important crops are cotton, groundnuts, jawar, bajri, gram, millet, linseed and sesamum. The most important garden crops are chillies, coriander, melons, watermelons, betel leaf, bananas, mosambis, santra and sugarcane. Cotton and groundnut are even more important. There is a large export trade in groundnut oil and hydrogenated oil or vanaspati.

Jalgaon is the biggest town and District headquarters, a great trade centre, and also an educational centre. The town is 37 miles from Ajanta Caves.

The rainfall (mean annual is 28.27 inches) is usually both general and regular, which fact in itself discourages irrigation, except for two weirs, at Jaunda (Chalisgaon taluka) and Dahigaon (Erandol taluka) on Girna River project, irrigating about twenty thousand acres of land.

The main industry is based on agriculture. There are several oil mills in the District, besides several bullock driven presses. There is a silk mill in the District. There is also a factory, which manufactures crackers and fireworks.

There are in the whole District three spinning and weaving factories, about 100 cotton ginning and pressing works, about ten dyeing factories, three big railway workshops (at Bhusawal) all employing more than 26,000 people.

KOLABA DISTRICT*

Headquarters : Alibag.

Notable places in the District are Raigarh near Mahad, once the capital of the great Shivaji and Kanakeshwara near Alibag, which is now a holiday resort being situated on a hill. Elephanta in Kolaba is famous for caves. Alibag has the world famous magnetic observatory. The historical sea-fort Kolaba, at Alibag, was the naval capital of Shivaji.

AGRICULTURE, POWER

On the flat lands of the District rice is grown, and the sea-front is fringed by a belt of coconut and arecanut

palms. There is large-scale plantation of mango grafts. There is a thriving fishing industry. The District has three Power Houses. Uran and Pen are big salt-producing centres. Panvel and Khapoli have assumed importance for their industrial growth in recent years.

MATHERAN (HILL STATION)

Matheran is a hill station and sanitarium, about three hours' journey from Bombay and Poona. Visitors are conveyed up the hill from Neral (Central Rly). The town is about 2,500 feet above sea-level, and is a favourite hot weather resort.

* For the area and population of the districts see article *Population*.

KOLHAPUR DISTRICT*

Headquarters : Kolhapur.

The language spoken is mostly Marathi, though Kannada is also spoken in a few parts. Kolhapur city, the headquarters, is a great trading centre for jaggery.

The chief agricultural products are jawar, rice, cotton, nagli, bajra, wheat, tobacco, sugarcane and ground-nut.

Besides cotton mills, there are ginning and pressing factories. There are also ginning and powdering mills, groundnut crushing and oil mills, a sugar mill, cinema-film producing companies and soap factories and repair workshops.

SHIVAJI UNIVERSITY

NAGPUR DISTRICT*

Headquarters : Nagpur.

The language spoken is Marathi.

The richest part of the District is the western half of the Katol Tehsil. It possesses a soil profusely fertile and teems with the richest garden cultivation. From Pikapar Hills in the Katol Tehsil the plains extend to the eastern border. Its surface is scarcely ever level, but it is closely cultivated, abounds in mango groves and trees of all sorts, and towards the east is studded with small tanks which form a feature of the landscape. The elevation of the plain country is from 900 to 1,000 feet above sea-level.

The forests are mainly situated in a large block on the Satpura Hills to the north-east, while isolated patches are dotted on the hills, extending along the south-western border.

The annual rainfall averages about 47·5 inches.

Cotton and jawar are the chief produce of the District which is also famous for its oranges. There are some manganese mines and limestone quarries in the District and coal-mines at Kamptee.

There are five textile mills in Nagpur City, 2 steel Rolling Mills, a number of oil mills, a pottery concern, saw mills, a rubber factory, a thriving frame making

industry, a large fruit canning industry and a large number of handloom factories. Nagpur saris are in great demand in all parts of the country.

The District is on the whole dry and healthy. The annual temperature varies between 100° and 60°. The average rainfall is about 35 inches.

There are tombs of Muslim saints and Nanded has the

Gurudwara of the Hyderabad Sikhs where Guru Govind was buried.

Rabi crop consists of jawar, gram, wheat, oilseeds. The Kharif crop consists of bajra, linseed, cotton and maize. The staple food crop is jawar and the main cash crop cotton.

NASIK DISTRICT*

Headquarters : Nasik.

Nasik District is a historic place in Maharashtra and the city one of the oldest in the Deccan and a place of pilgrimage. The language spoken is Marathi.

With the exception of a few villages in the west the whole District lies on a tableland at an elevation of 1,300 to 2,100 feet above sea-level.

The main food crops are rice, wheat and bajra.

* For area and population of the districts see main article *Population*.

OSMANABAD DISTRICT *

Headquarters : Osmanabad.

The average annual rainfall is about 32 inches.

Six places of archaeological interest are the fort of Naldrug, the Jumma Masjid in Owsa Taluka, the caves around the town of Osmanabad, the two caves at Hasan-

gaon, the old fortress at Parendah. Tuljapur is a place of Hindu pilgrimage.

The staple food grain is jawar. Wheat, rice and bajra are next in importance. Cotton is grown everywhere, while sugarcane is sometimes grown with well irrigation.

PARBHANI DISTRICT *

Headquarters : Parbhani.

The climate is healthy from February to May but it is feverish during the monsoon and the cold weather. The annual range of temperature is from 105° to 60°. The average annual rainfall is about 35 inches.

Structures of note in the District are the temple of Nagnath at Aundh, the Jain temple of Parsnath near

Jintur, the temple near Bamu and the shrine of Ramzan Shah.

The soil is partly black cotton and partly masab and kharab. On the black soil are grown white jawar, wheat, gram, tuar, while on the kharab soils are grown jawar, bajra, indigo, sesamum, oilseeds and pulses. The staple food crops are jawar, wheat and bajra. Cotton is grown throughout the District. About one-twentieth of the land is under forest.

POONA DISTRICT *

Headquarters : Poona.

The language spoken is Marathi.

The rainfall varies considerably in different parts of the District. In the western parts it is heavy and regular, in the central belt moderate, and in the east very irregular. The main crops are paddy and jawar. But the District is a deficit area in the matter of food grains. The District has an exportable surplus of jaggery and sugar.

It is the headquarters of the Southern Command and also of the Poona Sub-Area. The National Defence Academy is located in Khadakvasla. Some of the other military establishments around Poona are: the Ordnance Depot and the Arsenal at Kirkee and the Vehicles Depot at Dehu Road. The Indian Navy Mechanical Training establishment I.N.S. "Shivaji" is located at Lonavla, and the newly established Naval Engineering College, first of its kind in India, in the precincts of I.N.S. "Shivaji". Ammunition Factory, High Explosives Factory and 512 Command Workshop are all at Poona.

Armed Forces Medical College for post-graduate training in military medical science is also located in Poona. A Medical College for degree course run by the Army, which is perhaps the only one of its kind in the world from the point of view that the Army is running it, is located in Poona.

Yet other institutions are the Institute of Armament Studies and the Artificial Limbs Centre, the only one of its kind not only in India but also in South and West Asia and the fourth largest in the world. A gliding centre is also located near Poona. The National Cadet Corps Academy on Purandhar Fort, 30 miles South-East of Poona. College of Military Engg.

Other important institutions of All-India character located in Poona are given below :

Meteorological Office ; Central Water and Power Research Station ; National Chemical Laboratory ; Overseas Communications' Beam Wireless Station at Dighi ; Headquarters of the Servants of India Society ; Bhandarkar Oriental Research Institute ; Penicillin Factory, Pimpri ; Virus Research Centre, the only one of its kind in India ; The Film Institute of India.

Besides the two industrial estates at Hadapsar and Pimpri, the whole belt along the Bombay-Poona Road

from Kirkee, Dapodi, Pimpri, Chinchwad upto Lonavla is fast attracting industries of various types.

There are 4 sugar factories in the Dist. and 1 sugar manufacturing machinery factory at Pimpri.

The district can also boast of important places of historical and archaeological interests. Shivneri fort, birth place of the great Maratha Hero, Chhatrapati Shivaji, the famous Karla & Bhaja caves which constitute a fine example of Buddhist architecture of 1st Century B.C., Samadhis of Kasturba Gandhi and Mahadevbhai Desai are located in the district.

LONAVLA

This hill station is situated at the top of the Bhore Ghat incline about 2,030 feet above sea-level.

The Govt. of Maharashtra has started a holiday camp at Karla at a distance of about 1½ miles from Malawali Railway Station.

The following are some of the Forts and places of interest :—

Fort of Lohgadh, Fort of Visapur, Fort of Rajmachi which stands on the top of the Sahyadri Range and commands a grand view of Matheran, Konkan and even part of Bombay, Duke's Nose, Tungarli Municipal Lake.

The temperature varies from 65 in the cold weather to 85 in the hottest month. The rainfall varies from 160 to 250.

KHANDALA

Khandala, a health resort, 78 miles from Bombay by rail and 71 by road lies in Mawal Taluka. It is situated at the top of the Bhor Ghat at an elevation of about 2,000 feet above sea-level, and has an agreeable and bracing climate all through the year.

Among places worth a visit in and around the town are Tata Electric Supply Company's reservoir called Forbay Dam, Byramjee's Point, the Duke's Nose, Tiger's Leap, all of which provide magnificent views of the surrounding country. About nine miles from Khandala are the Karla caves considered to be the oldest specimen of Buddhist caves in India. In Walwan lake which is about four miles from Khandala good mahashir fishing is available. At Khandala "Rajmachi Park" is one of the most beautiful spots.

Chancellor: Governor of Maharashtra; *Vice-Chancellor*: Dr. H. V. Pataskar; *Registrar*: W. H. Golay.

BUDGET (1967-68)

Income: Rs. 1,28,04,247; *Expenditure*: Rs. 1,15,63,995.

RATNAGIRI DISTRICT*

Headquarters: Ratnagiri.

This is the backward district with peculiar circumstances. Ratnagiri is known and famous as the birth place of Lokamanya Tilak.

The main crop is Alphonso mango — the king of fruits. The chief crop is rice on banks of rivers and on plain ground on 3,15,840 acres of land yielding 1,13,300 tons. Groundnut and sugarcane crop is under experiment since two years. Second important crop in the form of industry is sea fish.

One hundred and seventy-five High Schools, 5 Colleges, one Agricultural College, 8 Training Colleges (6 males and 2 females), Polytechnic, I.T.I., N.C.C. Unit cater to the educational needs of the district.

Ratnagiri midway between Bombay and Goa is soon going to be converted into an all weather port at Mirya Bay. Jaygad and Vijaydurg are safest ports. Several others are under improvement. Sindhudurg sea fort near Malwan was constructed some 300 years back by Shivaji, of which Government is undertaking reconstruction.

This district has 15 weekly newspapers, all except one at Ratnagiri.

The southern district and Bombay are linked to Ratnagiri by sea in the fair season and by road all the year. State Transport buses are plying direct to Bombay from several places in the district.

Bhagini Mandal and Mahila Mandal are the organisations at Ratnagiri devoted to female activities. At Sawantwadi there is a NIVARA KENDRA for the relief of the distressed and uncared for ladies. Kasturba Arogya Kendra and Matru Mandir at Lanja and Devrukh respectively do good for ladies and children. Animal husbandry centres, Health and S.M.P. Centres with five Ayurvedic Dispensaries give service to animals and human beings.

Notable place in this district is Marleshwar, a place about 10 miles to the east of Devrukh in Sahyadri in the interior. Temple of God Shiva is encircled by very high hills. This place is known for purity.

The climate of the district is moderate.

SANGLI DISTRICT*

Headquarters: Sangli.

Sub-Divisions: Miraj, Khanapur.

The climate of the District is generally dry and healthy, with an average rainfall ranging from 15 to 25 inches.

The Krishna, the Verala, the Warana, and the Agarani are the four important rivers flowing through the District. The soil on the banks of these rivers is very fertile, yielding rich sugarcane crops.

The principal crops grown in the District are jowar, millets, pulses, wheat, ground-nut, turmeric, tobacco,

sugarcane and a little cotton and rice and some oil-seeds.

Sangli, which is the headquarters of the District, is an important centre of trade and commerce specially for tobacco, groundnuts, turmeric, jaggery, chillies, ghee, and cotton trade. It has ginning, weaving and spinning mills, groundnut, turmeric, iron and steel factories. The town is also known for its silver, copper and brassware and gold ornaments. Bidi making is another big industry.

Besides, Sangli is a big centre of forward-delivery transactions in groundnut-kernel.

* For area and population of the districts see main article *Population*.

SATARA DISTRICT*

Headquarters : Satara.

The language spoken is Marathi.

The chief agricultural produce are jawar and bajri. Others include ragi, wari, wheat, rice and pulses. Cash crops which are a minor item include tobacco, groundnut and sugarcane.

Forests in the Sahyadri range have considerable store of timber and fire-wood. Sandalwood and bamboo are occasionally found.

Government have undertaken the Koyna river project envisaging the construction of a gigantic Dam close to Helwak village (Patan Taluka) water from which can be used for agricultural purposes by people from Satara, Sholapur and Bijapur Districts and for generating electricity for industrial purposes.

There is a large engineering concern manufacturing farm implements, machine tools, and textile machinery at Satara Road Station. Another engineering concern has been established at Udyamnagar near Karad while the one at Karad proper has been expanded with State aid.

MAHABLESHWAR

Mahableshwar, 75 miles from Poona, is called the queen of the hill stations in Maharashtra. It is situated on one of the great slopes of the Sahyadri range at an elevation of 4,700 feet above sea-level. During the 8 months from October to May the climate is most agreeable. By day the temperature varies between 80 and 86, while the nights

are cool and pleasant. But during the monsoon the rainfall is so heavy, the average being about 250 inches a year, that the place is almost uninhabitable.

It is now possible for people of moderate means to go to the hill station for a comparatively inexpensive holiday and change in the newly opened Holiday Camp set up by the Maharashtra Govt.

The Camp is normally thrown open during the months October to May, and applications for accommodation have to be addressed to the Executive Engineer, Poona Division, Poona. Hotels are open only eight months in the year and are closed during the monsoon.

PANCHGANI

Panchgani is a well-known hill station in Satara District, situated 63 miles from Poona. It is 4,300 feet above sea-level and has a cool, salubrious and comparatively dry climate. The average rainfall is about 80 inches a year. Panchgani is thus a well-known sanatorium.

Panchgani is habitable throughout the year, and there are excellent shops for provisions and oilman stores. The town is electrified and the roads are well lighted. The town has a large and up-to-date tuberculosis sanatorium — Bel Air Sanatorium.

Panchgani is famous for its schools. They all have their own buildings with laboratories, dormitories and hospitals.

SHOLAPUR DISTRICT*

Headquarters : Sholapur.

The languages spoken are mainly Marathi and also Telugu and Kannada.

THANA DISTRICT*

Headquarters : Thana.

The languages spoken are Marathi, Gujarati and Urdu.

In the north-east the hills are covered with wood, and the valleys are but partially cultivated. The villages are seldom more than scattered groups of huts, and the population consists mainly of uncivilised aboriginal tribes, many of whom still wander from place to place as they find water or to suit their fancy.

Thana District is fast developing into a prominent industrial area. Hundreds of acres of land are being converted into sites for factories. Scores of factories have already been set up particularly along the railway track and the Bombay-Agra and Bombay-Poona Roads.

Bhiwandi, a Taluka town nine miles from Thana situated on the Bombay-Agra Road is noted for handloom and powerloom fabrics. The town is mostly inhabited by Momins and in some parts of the town every house has a spinning wheel. Bhiwandi Taluka is also famous for its timber and charcoal trade.

Kalyan, the biggest and the most thickly populated town in the District, is 34 miles from Bombay and is a junction on the Central Railway's north-east and south-east sections. "Ulhasnagar" the largest refugee township

in Maharashtra is situated in Thana District, two miles from Kalyan near the Ulhas River. The township is designed to accommodate 90,000 people.

The main produce of the District is rice which is of superior Kolamb variety.

Dahanu and Bassein Talukas are specially famous for fruit garden and the bulk of Bombay's fruit supply comes from these areas.

At Thana, Bhayandar and Belapur there are extensive salt works.

The chief articles of export from Thana District are paddy, rice, vegetables, salt, betel-leaves, plantains, bricks, grass, firewood, charcoal, lime, fish (fresh or dried), timber, coconuts, mangoes, flowers, saris, handloom fabrics, woollen cloth and milk.

Tansa and Vihar lakes and the Vaitarna river which are the main sources of Bombay's water supply are situated in Thana District and are connected with Bombay by a special trolley line.

The Fort, the Portuguese Cathedral, a few carved and inscribed stones, and several reservoirs are now the only signs that Thana was once an important city. Bassein, on the Western Railway, contains the famous ruins of the ancient Portuguese dominion in Salsette.

* For area and population of the districts see main article *Population*.

WARDHA DISTRICT *

Headquarters : Wardha.

The languages spoken are Marathi and Hindustani.

Wardha is noteworthy in that it has been the seat of a number of Gandhian institutions concerned with village uplift and the ideals of self-sufficiency and self-service.

Wardha has black cotton soil and the most important cash crops grown are jawar and cotton. Though there are rivers like Wainganga, agriculture depends on rain. There is thus an elaborate programme today for sinking new wells and deepening old ones. There are pressing and ginning mills in the District and also textile mills.

YEOTMAL DISTRICT *

Headquarters : Yeotmal.

The language spoken is Marathi.

The staple foodgrain is jawar; other foodgrains are wheat and pulses. As elsewhere the most profitable cash

crops are cotton and oilseeds. Forests cover a larger area than in any other District in the State and yield considerable quantity of timber and fuel. The principal industry is the preparation of cotton for the market.

MANIPUR

CAPITAL : Imphal.

Area : 8,628 sq. miles; **Population** (1966) : 9,40,876; **Density** : 109; **Sex Ratio** : 1,037 females per 1,000 males; **Literacy** : 30.04 per cent. **Strength of Legislative Assembly** : 32 including two nominated members.

Manipur bounded on the east and south by Burma and on the north and west by the Naga Hills and the Cachar District of Assam, is a highly strategic territory on the eastern frontier of India. Two land routes from Burma pass through its territory.

Seven hundred square miles of the Territory form a central valley, 2,600 feet above sea-level, which is shut in on all sides by extensive hill tracts at places over 6,000 feet, covering the rest of the Territory. The climate varies from temperate in the valley to cold in the high hills. The rainfall on the average is 65 inches in a year.

The main population is "Meiteis" inhabiting the valley with some 40 tribes and sub-tribes known by the generic names of Nagas and Kukis. Though a number of different dialects are spoken in the Territory, Manipuri and English are the official languages. The people are carefree and

healthy, with a passion for religious festivals involving community dances in which both sexes join.

The soil is fertile. Rice is the principal crop. The production of foodgrain in 1967-68 was 2,25,000 tonnes. The area under cultivation is about three lakh acres.

Handloom weaving is a popular industry throughout the Territory and Manipuri cloth of various picturesque and indigenous designs is in demand throughout India and even outside.

There are 12 colleges, 118 high and higher secondary schools, 305 middle and junior high schools, and 2,096 primary and junior basic schools. The total number of students during 1967 was 209,300 including 62,800 below six years of age.

There are 13 hospitals, 59 dispensaries, 12 primary Health Centres, 38 Sub-Centres, one T. B. Clinic, 4 Leprosy Sub-Centres, one V. D. Clinic, one Dental Clinic, one M.C.W. Centre, 11 F.W.P. Centres, one B. C. G. Programme centre and two N. M. E. P. Units.

Sugarcane : Sugarcane occupies an area of about 1.5 lakh acres in Mysore producing about 4,12,500 tons of gur.

Areca nut : The production is about 25,000 tons of nut which is nearly 27 per cent of the annual production in India.

Rubber : Plantations extend over 2,000 acres, cinchona plantations over 44 acres and eucalyptus over 20,125 acres.

Animal Husbandry (1966), (Figures in thousand): Cattle 13,129; Buffaloes 4,206; Sheep 8,805; Goats 10,561; Horses and ponies 63; Other livestock 936; Poultry 876.

The State has a network of about 600 Veterinary Institutions comprising 19 District Hospitals, 174 Taluk Dispensaries and 400 Rural Veterinary Dispensaries. The Mysore Serum Institute produces biologicals to combat and prevent contagious diseases among livestock. Two Clinical Laboratories—one at Belgaum and the other at Mangalore—are also functioning.

Bangalore Dairy Project : Aided by UNICEF, this is designed to handle 50,000 litres of milk with provision to expand the capacity to 1,50,000 litres. At present it supplies 20,000 litres to Bangalore City.

COMMUNITY DEVELOPMENT

The Community Development Programme now covers the entire rural Mysore. On Jan. 1, 1968, there were 268 delimited blocks. Of them were 122 Stage I blocks, 87 Stage II blocks and 50 Post-Stage II blocks. The population covered by these blocks was 217 lakhs in 26,400 villages.

The three-tier system of Panchayat Raj institution is being set up in the State. There are 7,450 panchayats and 174 taluk boards. At present (Nov. 1968) there are 20 District Development Councils. These advisory bodies will be replaced by elected Zilla Parishads.

The Programme of Applied Nutrition, implemented in collaboration with UNICEF, FAO and WHO is in operation in 11 blocks.

FOREST

Area : 13,575 sq. miles (18.4 per cent of the State area).

Timber is the main forest produce. Next in importance are sandalwood and bamboo.

Classifications and area : Wet evergreen and Semi-evergreen 1,315 sq. miles; Moist Deciduous 843 sq. miles; Dry Deciduous 3,020 sq. miles; Dry Thorn 8,397 sq. miles.

Species	Plantations raised as at the end of Third Plan
	(Acres)
Teak	1,61,512
Fuel and Miscellaneous species ..	2,44,687
Soft Woods	20,207
Cashew	24,797
Rubber	797
Linaloe	1,165
TOTAL	4,53,165

Net revenue from forests in 1967-68 was about Rs. 11 crores.

IRRIGATION

Percentage of irrigated area to the total crop area : 10.

The number of wells sanctioned so far total 50,000.

Tungabhadra Project

One of the important irrigation projects is Tungabhadra Project. The left bank canal has a gross command area of 10,80,000 acres, the right bank low level canal 8,60,000 acres, the right bank high level canal 5,00,000 acres. The expected expenditure on these canals by the end of March 1969 was Rs. 3,454.61 lakhs, leaving a spillover of Rs. 1,248.39 lakhs. The potential created as on June 1968 under the left and right bank canals was 5,27,547 acres and 91,433 acres respectively.

This is a joint project of Andhra Pradesh and Mysore costing Rs. 50 crores for irrigation portion. The ultimate irrigation potential for the project is 8.2 lakh acres.

The project is expected to be completed in the Fourth Plan. (For more details see under main article on Irrigation.)

Irrigation potential created and utilised (1968) in acres: Tungabhadra (left bank) 5,38,437—4,10,083; Tungabhadra (right bank) 92,353—74,297; Bhadra 2,04,900—1,64,684; Ghataprabha 95,398—48,154.

Fourth Plan : As many as ten major irrigation projects and 26 medium projects taken up during the preceding plans period will have to be carried out during the Fourth Plan. The amount required for completing the works taken up during the preceding plans would be of the order of Rs. 188.46 crores.

The important projects that will be taken up for construction during the Fourth Plan are : (1) The Tungabhadra Project High Level Canal—Stage II, (2) The Ghataprabha Project Stage III, (3) The Tunga Reservoir Project, (4) The Upper Tungabhadra Project, (5) The Yagachi Reservoir Project and (6) The Karanja Project.

The total cost of the projects to be taken up in the Fourth Plan will work to Rs. 142.98 crores.

New Irrigation Projects: Preliminary work on Upper Krishna and Malaprabha Projects has started. It is proposed to start preliminary works in respect of Chandram-palli Project in Gulbarga District and of Harangi and Hemavathi Projects in Coorg and Hassan Districts, respectively.

IRRIGATION PROJECTS—MAJOR AND MEDIUM

The State has excellent potential for development of major and medium irrigation which is estimated to be in the order of 78.2 lakh acres. Three major projects and eight medium projects were taken up for construction in the First Plan. During Second Plan period three major

projects and eleven medium projects were taken up for construction and during Third Plan period four major projects and seven medium projects were taken up for construction.

Thus at the end of the Third Five Year Plan, 36 major and medium irrigation projects were taken up at an estimated cost of Rs. 27,049.52 lakhs for construction. These projects have total Ayacut of 25,98,068 acres on full development and the total potential created at the end of Third Plan period was of the order of 9,03,167 acres and the actual utilisation was 6,88,368 acres.

The following statement gives the financial and physical achievements of some of the Major and Medium Irrigation projects in the State.

Major and Medium Irrigation Projects

Name of the Project.	Location.	When started.	When to be completed.	Area to be irrigated in Acres.	Total cost in Lakhs.	Estimated rise in output of food-grains after completion in Tons.

* Work at Narayanapur has been suspended in preference to a site at Siddapur which has again been taken up.

CO-OPERATION

The structure of co-operative credit in the State consists of three tiers: the primary, the intermediate and the apex. At the apex level, there is the Mysore State Co-operative Apex Bank which has been reconstituted as a federal body and whose jurisdiction is extended to the whole of the State. The Central Land Mortgage Bank has been reorganised and reconstituted with the entire State as its jurisdiction.

There are 19,000 Co-operative Societies with a membership of 50 lakhs. Their total working capital is Rs. 20 lakhs.

Number of Agricultural Credit Societies: 8,800; Number of District Co-operative Banks: 19; Number of Land Development Banks: 155; Number of Primary Marketing Societies: 245; Number of Housing Co-operative Societies: 639; Number of Coir Co-operative Societies: 25. No. of regulated markets: 200.

Co-operative Sugar Factories

Nine Co-operative Sugar Factories are in existence in the State of which 4 have gone into production and 5 have secured industrial licence.

Co-operative Farming

There are 310 farming societies with a membership of 8,597 and paid-up share capital of Rs. 10.09 lakhs, commanding an area of 52,869 acres.

Consumers' Co-operatives

There are at present 15 wholesale stores and 780 primary stores with an aggregate membership of 80,000 and share capital of Rs. 60 lakhs.

The Third Plan brought about sixty per cent of the agricultural population under the co-operative fold. Two thousand more service co-operatives, 50 primary land mortgage banks, 44 processing units and 900 godowns were started and 160 marketing societies organised.

ELECTRIC POWER

Hydro-Electric Projects completed recently

Name of Project.	Location.	Commencement.	Completion.	Installed capacity.	Cost in crores of Rs.
Sharavathi Valley Project ..	15 miles from Talaguppa Rly. Station near Jog (Linganamakhi).	1956	1965 (I Stage)	356,400 Kw.(a)	56 (Revised) (I Stage)
Bhadra Hydro-Electric Project.	18 miles from Bhadravathi (Lakkavalli).	1956	1962	33,200 Kw.(b)	3.8
Tungabhadra Hydro-Electric Project Right Bank.	4 miles from Hospet Rly. Station.	1953	1962	72,000 Kw.(c)	1.44 (Mysore's share)
Tungabhadra Hydro-Electric Project Left Bank.	3 miles from Munirabad Rly. Station (Mallapuram).	1955	1961	27,000 Kw.(d)	6.042

Estimated rise in output after completion is about 1,466 million units over the 1956-57 figures. (a) 891,000 Kw. ultimate capacity. (b) 40,400 Kw. ultimate capacity. (c) This is a joint venture of Andhra Pradesh and Mysore. Mysore's share is 14,400 Kws. (20 per cent of the generated power.) Two units of 9,000 Kw. installed and two more units being installed at the dam and canal power house. (d) Ultimate capacity 36,000 Kw.

Names of power stations (besides the ones completed recently) in operation, their location and installed capacity :

Name	Installed capacity (Kw.)	Location
Sivasamudram	42,000	28 miles from Maddur Rly. Stn. towards South East.
Shimshapura	17,200	28 miles from Maddur Rly. Stn. towards South East.
Jog (M.G.H.E. Works) ..	120,000	12½ miles from Talaguppa Rly. Stn. towards North.

Villages electrified :—Out of 26,608 towns and villages, 6,000 have been electrified till the end of 1966.

No. of irrigation pumps serviced : 23,600.

Diesel Stations showing within brackets the approximate installed capacity in Kw. and units generated in millions in 1967 respectively: Mercara (414; 0.705); Somwarpet (150; 0.146); Virajpet (240; 0.242); Shorapur (100; 0.065); Gourikoppal (80; 0.111); Raichur (1,240; 2.916); Gulbarga (826; 1.944); Yadgir (400; 0.537); Bailhongal (200; 0.197); Guledgud (567; 1.027); Hukeri (500; 0.975); Ilkar (200; 0.322); Chittapur (50; 0.047); Humnabad (200; 0.055); Aland (100; 0.015); Kushtagi (50; 0.001).

The following are some of the other diesel stations with the installed capacity in Kw. :—Udipi 110 Kw; Karkala 32 Kw; Mangalore 1,017 Kw.

POWER

The generating capacity increased from 186 MW to 446 MW in the Third Plan and is expected to be 967 MW in the Fourth Plan.

Sharavathi Valley Project :—The Sharavathi Valley Project now under execution is the biggest and one of the most economical projects in the State and one of the few

economical projects in India. The River Sharavathi though only 82 miles in length has a tremendous power potential amounting to about one million kilo watts. This project is being executed, four generating units each of a capacity 89,100 Kw. are functioning and six more are proposed.

Bhadra Hydro-Electric Project :—The Bhadra Hydro-Electric Project is mainly an irrigation project and the power generation here is only incidental. The installed capacity of this station is 33,200 KW comprising 2 units of 12,000 KW each in the river bed station, one unit of 2,000 KW in the left bank station and one unit of 7,200 KW in the right bank station.

Tungabhadra Hydro-Electric Project (Left Bank) :—This project contemplates installation of 3 units each of 9,000 KW and transmission of power by means of 110 KV transmission line from Munirabad to Shahabad. All three units of 9,000 KW each have been commissioned.

Kalinadi Hydro-Electric Project :—Provisions have been made for carrying out the preliminary works on the Kalinadi scheme during the IV Plan period. This project is to produce more than a million Kw of power.

Mysore State Electricity Board :—*III Five Year Plan* : The Third Five Year Plan of the Mysore State Electricity Board was a further projection of the Second Plan Schemes viz., Extension of Main and Sub-transmission lines, erection of step down stations, extension of power supply to villages and power supply to Irrigation Pumpsets etc. to distribute the power to various parts of the State from the Power Projects like Bhadra, Munirabad and Sharavathi Valley Project. The total provision for the Third Plan Projects of the Board under the head "Power" was Rs. 2,067.98 lakhs besides a provision of Rs. 1,075 lakhs for power supply to Irrigation Pumpsets under 'Minor Irrigation'. It is proposed in the Fourth Plan to construct 4,125 KW of transmission lines and sub transmission lines, erect 94 sub-stations, electrify 5,000 villages and supply power to one lakh irrigation pumpsets. The outlay for these works will be Rs. 6,200 lakhs.

Besides meeting its own demand, Mysore is now in a position to supply power to neighbouring States — Andhra Pradesh, Tamil Nadu, Kerala and Goa—on a temporary basis. Mysore has also offered power to Maharashtra.

INDUSTRIES

A watch factory set up at Bangalore in the public sector (as an adjunct to Hindustan Machine Tools) is designed to manufacture about half a million full lever watches annually. The Bangalore factory has the collaboration of the Japanese firm, Citizen Watch Company.

No. of Industrial Estates, 8. (Bangalore, Ramanagaram, Mysore, Hubli, Harihar, Belgaum, Gulbarga and Mangalore.)

No. of Sugar factories: 9; No. of Paper factories: 4; No. of Cement factories: 4; No. of textile and allied mills: 39.

A letter of intent has been granted to Indian Aluminium Co., Calcutta, to set up a plant to manufacture aluminium ingots near Belgaum with an initial capacity of 30,000 tonnes per annum. A fertilizer plant in the private sector at Mangalore is in the offing.

LABOUR

Labour Welfare Centres: Ten Labour Welfare Centres are functioning in various parts of the State to extend labour welfare activities and provide recreation to the workers.

Banking Facilities to the Industrial Workers: With a view to affording relief to the industrial workers indebted to money-lenders, a scheme to provide credit facilities at reasonable rates of interest on co-operative basis was taken up and it is now under the charge of a co-operative officer deputed by the Co-operative Department.

Apprenticeship Act: Under this scheme 2,000 candidates were receiving training in 1968.

Employment Exchanges: No. of employment exchanges: 20; No. of registration 2 lakhs; No. of Craft training Centres: 15; No. of students passed: 1,500 (1967).

There is a special employment exchange at Bangalore for the physically handicapped and another to serve the needs of University students/graduates.

Factories and Boilers: There are 3,000 factories on the registers of the Department.

The Employees' State Insurance Scheme: The Scheme is now in force in Mysore, Mangalore, Hubli, Gulbarga, Davangere, Gokak, Dandeli and Belgaum. The total number of beneficiaries so far is over 200,000 family units.

The Rural Manpower Utilisation Works: The main schemes undertaken in this programme are Minor Irrigation, Soil Conservation, Afforestation, Development, Repairs to Field Channels and Road Works.

HOUSING

Achievements of the Mysore Housing Board in the Third Plan:

Amount drawn: Rs. 80.00 lakhs; Number of houses built (General): 1,922.

Low Income Group Housing: Amount drawn: Rs. 300.00 lakhs; No. of houses built: 4,135.

Subsidised Rental Housing: Provision: Rs. 31 lakhs; No. of houses built: 314.

Middle Income Group Housing: Amount drawn: Rs. 148 lakhs; No. of houses built: 694.

The Mysore State Housing Corporation with a membership of 128 and paid-up share capital of Rs. 6.6 lakhs functions as the apex housing institution. No. of housing co-operatives: 589.

SMALL-SCALE INDUSTRIES

Important cottage industries showing their centres in Mysore State within brackets: Lacquerware (Chennapatna, Gokak, Nelamangala, Chikmagalur and Shimoga); Sandalwood carving (Sagar, Sorab, Mysore); Ivory and Inlay works (Sagar, Sorab, Mysore); Brass works (Nelamangala); Rattan work (Mysore, Chikmagalur, Shimoga and Sagar); Bidriware (Bidar); Glass Bangle making (Yeshwantpur and Ghodgeri); Mat weaving (Kengeri, Amruthur, Nagamangala, Hassan, Kumbalur, Anandapuram and Hiriur); Leather stitching (Birur, Sagar, Doddasiddavanahally, Indi, Ramdurg, Ashani, Sandatti and Karwar); Pottery (Ramanagaram, Khanapur, Madikebeedu and Krishnarajapura); Tile-making (Mangalore);

Coir Industry (Mangalore, Karwar); Agarbatti (Mysore, Bangalore); Cotton Hosiery (Shahapur).

The important centres for small-scale industries are Bangalore, Belgaum, Tumkur, Hubli, Hospet, Bhadravati and Mangalore. Among the important products that have got all-India market, the following are noteworthy: Cycle Dynamo Lamps; Centre lathes; Wood working machinery; Punch presses; Ornamental lamps; Charcoal Irons; Pooja articles of non-ferrous metals. Apart from the above, the State also produces oil-engines, pressed-metalware and components for large-scale industries located in the State.

MINERALS

Production (1967): Gold: 4,000 kgs.; Silver: 300 kgs.; Iron ore: 35,00,000 tonnes; Manganese: 7,000 tonnes; Limestone: 15,00,000 tonnes; Quartz and Silica: 50,000 tonnes; Total value of mineral production: Rs. 700 lakhs.

Total number of men employed: About 45,000.

Number of men employed in each mineral industry: Gold (30,000); Other minerals (15,000).

The following minerals have been located and their reserves assessed:—

(1) *Iron ore*.—Iron ore deposits estimated at about 500 million tons of exportable grade have been proved in the Bababudan Hill, Chikmagalur District; near Kodachadri and Kotebore, Shimoga District; near Kalche, Kodalgadde, Sunksal, etc., North Kanara District; near Karekurchi, Habbigegudda, Janehar, Tumkur District and Vajra, Lakkihalli Bheemasamudra, etc., Chitradurga District. This is in addition to the ore reserves in the Bellary-Hospet area, where a reserve of about 1,000 million tons is assessed. The latest discovery of magnetic ore, estimated at 1,000 million tons, is at Kudremukh.

(2) *High Calcium Limestone*.—Occurring between Bagalkot and Yadwad, Bijapur-Belgaum Districts have been mapped in detail and some of them have also been prospected by drilling. So far about 600 million tons of limestone are assessed. Further prospecting is under progress. The high calcium limestone deposits near Nagargali, North Kanara District and those in Hosadurga Taluk, Chitradurga District, were also mapped in detail and the reserves are assessed at 30 million tons and 50 million tons, respectively.

(3) *Fuller's Earth*.—Fuller's Earth deposits suitable for refining of mineral and vegetable oils occurring near Korvi and other villages, Chincholi Taluk, Gulbarga District, have been prospected and estimated to contain about 2 million tons.

(4) *Bauxite*.—The surveys conducted for Bauxite deposits in Belgaum District have revealed the occurrence of about 2 million tons of Bauxite.

Board of Mineral Development—Besides export of Iron Ore and Manganese Ore, the Board deals with the mining and sale within India of commodities like Chrome Ore, Clay, Graphite, Quartz, Feldspar, Soapstone, etc. The export is at present restricted to Iron Ore and Manganese Ore. The production of iron ore by the Board of two lakh tonnes is expected to go up to one million tonnes by 1970-71. The activities of the Board will be taken over by a Mineral Development Corporation.

PUBLIC HEALTH

Mysore State has 200 hospitals, with 20,000 beds, 800 dispensaries, 6,000 registered doctors, 1,700 registered nurses, 1,750 midwives, 450 primary health units, 19 national malaria eradication programme units, one national filaria control unit, 10 subsidiary leprosy units, 12 district medical laboratories and 300 family planning centres.

Ayurvedic hospitals 8, Ayurvedic dispensaries 500; Unani dispensaries 71 and Homeopathic dispensaries 10.

Some of the important schemes carried out:—National Malaria Eradication Programme; National Filaria Control Programme; National Smallpox Eradication Programme; Leprosy Control Programme; The B.C.G. Vaccination Scheme.

Medical Education:—At the commencement of the Third Plan, the total admission capacity of the four Medical Colleges in the State was 640, which has since been raised to 1,220 by providing 140 additional seats in existing colleges, and 440 seats in four new Medical Colleges. There are 4 Govt. Medical Colleges and 5 Private Medical Colleges. Post-graduate courses in various branches of medical science have been opened.

A Logopaedic Institute is proposed to be started in Mysore.

The Dental College of the State has an admission capacity of 30 students.

Laboratories: The Public Health Laboratory at Bangalore has been up-graded and 12 District Laboratories have been established in the Districts. The Vaccine Institutes at Bangalore and Belgaum have been expanded to cope with the increasing demand for smallpox vaccine.

EDUCATION

Compulsory education for the age-group 6-7 was introduced during 1961-62 and for the age-group 7-8 in 1962-63.

Secondary education in all Government and Govt. aided institutions has been made totally free from 1966-67. It is estimated that nearly five lakh pupils are covered by the scheme.

There are four universities in Mysore State: (1) Bangalore University, Bangalore; (2) Mysore University, Mysore; (3) Karnatak University, Dharwar; (4) Agricultural University, Hebbal, Bangalore. Besides, the Indian Institute of Science, an institute for advanced engineering sciences, enjoys University Status.

Colleges: Technical Colleges 49; Medical Colleges 11; Law Colleges 12; Commerce Colleges 7; Agricultural Colleges 2; Veterinary College 1; Polytechnics 27; Teachers Training Colleges 19. Arts and Science Colleges 95.

Secondary Schools 1,500; Primary Schools 32,000; Nursery Schools 500; Teachers 18,000.

There are about 34,000 schools having 45 lakhs students. The teacher-student ratio is 1: 38.

A regional college of education (Mysore) and a regional college of engineering (Surathkal) have been established. Among advanced training and research institutions are: All India Mental Health Institute (Bangalore), Gas Turbine Research Establishment (Bangalore); National Aeronautical Laboratory (Bangalore) and National Tuberculosis Institute, Bangalore.

Four Youth Vocational Training Centres have been established during 1964-65 under Central Govt. scheme aided by UNICEF. This scheme will impart vocational training to students who do not continue high school education after the VIIIth standard.

Hindi Education: The Third Plan saw the establishment of 3 Hindi Shikshak Training Colleges in the State. 4,375 Hindi Teachers' posts have been sanctioned for teaching of Hindi as a compulsory subject in senior primary schools. 240 Hindi teachers for high schools have also been sanctioned.

A Sainik school was established at Bijapur and another at Kushalnagar has been proposed.

MYSORE STATE ROAD TRANSPORT CORPORATION

Bangalore 1.

The Mysore State Road Transport Corporation has a fleet strength of 2,000 passenger vehicles and 120 departmental vehicles with a labour force of 15,000 strong. The Passenger Transport Services are operated on 1,600 routes covering a route mileage of 49,951 miles and catering to the transport needs of more than 5.27 lakh passengers every day all over the State. The Road Transport Operations of the Corporation are now spread over more than $\frac{2}{3}$ of the Mysore State.

Motor Vehicles: Stage carriers 5,000; Cars 20,000; Cabs 1,000; Goods vehicles 14,000; Motor cycles 17,000; others 9,000.

Bullock carts (1961 Census): 6,93,750.

COMMUNICATIONS

Total length of Railway: 2,800 kilometres; Broad gauge 483 kilometres; Metre gauge 2,163 kilometres; Narrow gauge 154 kilometres.

Length of roads 55,000 kms.

During the Third Plan, top priority had been given for the development of Mangalore and Karwar into all weather deep draft ports. The 123-mile Hassan-Mangalore rail link has also been included under the Central Sector of the Fourth Five-Year Plan. The 150-mile Bangalore-Salem rail link has been completed.

A 151-mile long West Coast road and ore carrying roads over a length of 379 miles are under execution.

Number of minor ports: 2; Coastline: 200 miles. Mangalore is being developed into a major port.

No. of airports: 3 (Bangalore, Belgaum and Mangalore); No. of airstrips: 4.

Post and Telegraphs: No. of Post offices 4,000; Telephone exchanges 300; Telephones 40,000; Radios 3,00,000; Telegraph offices 600.

TOURISM

No. of foreign tourists: 1963-64: 2,244; 1964-65: 2,768; 1965-66: 3,500; 1966-67: 4,000; 1967-68: 6,000.

UNIVERSITIES

BANGALORE UNIVERSITY

Bangalore 1.

Chancellor: G. S. Pathak, Governor of Mysore. *Vice-Chancellor:* Prof. V. K. Gokak, M.A. (Oxon). *Registrar:* P. Mallikarjunappa, M.Sc.

Estd.: 1964. 40 colleges located in the Bangalore City are under its jurisdiction. Jurisdiction of the University extends over the area comprising the Bangalore South Taluks of the Bangalore District but Colleges of Agriculture and Veterinary Sciences are excluded.

Total enrolment in the University and constituent colleges is 22,398, consisting of 15,534 men and 6,864 women. There are 1,166 teachers giving a Teacher-pupil ratio of 1:19.

The University provides facilities for training and research in the faculties of: (a) Humanities and Social Sciences, Education and Commerce, (b) Science, (c) Engineering and Technology, (d) Law, (e) Medicine.

There are 42 departments of study. Post-graduate facilities are available in Medicine, Surgery, Soil Mechanics and Foundation Engineering, Structural Engineering, Machine Design, Home Science, Chemistry, Education, Physics, Mathematics, Botany, Zoology, Geology, English, Kannada, Economics, Sociology and Law (Jurisprudence and Contracts).

Five-Year integrated course in Architecture and Post-Graduate Diploma Courses in different branches of specialisation in Medicine have been introduced from 1967-68.

Undergraduate training is available at Pass level in all subjects and Honours level in some subjects.

KARNATAK UNIVERSITY

Dharwar 3.

Established in Aug. 1949 — Incorporated on 1st March 1950. A teaching and affiliating University having jurisdiction over the districts of Belgaum, Bellary, Bidar, Bijapur, Dharwar, Gulbarga, North Kanara and Raichur in Mysore State.

Medium of Examination is English; Teaching departments 23; Affiliated Colleges 76; Recognised Institutions, nil; Constituent Colleges 4.

Chancellor, G. S. Pathak, Governor of Mysore; *Vice-Chancellor,* Dr. A. S. Adke; *Registrar,* S. S. Wodeyar, M.A., LL.B.

Total number of students (1966-67): 33,335; (1967-68): 39,914.

BUDGET — 1967-68 (ESTIMATES)

Income (including Govt. Grant) Rs. 1,02,28,684; Expenditure Rs. 1,08,41,331; State Govt. Grant Rs. 40,18,193.

UNIVERSITY OF AGRICULTURAL SCIENCES

XI Main, 16th Cross Road, Malleswaram, Bangalore-3.

Chancellor: G. S. Pathak, Governor of Mysore; *Vice-Chancellor:* Dr. K. C. Naik, B.A., M.Sc., Ph.D. (Bristol); *Registrar:* R. Krishnappa, M.A.

It is a residential University, with constituent colleges responsible for resident teaching, research and extension education throughout the State of Mysore.

Estimates (1968-69) (Revised) Government Grant: Rs. 2,36,35,000, Government of India Grant: Rs. 1,72,21,000, Other sources Rs. 70,47,500, Opening balance Rs. 16,488, Total Revenue Rs. 4,79,19,988, Expenditure Rs. 4,74,56,000, Closing balance Rs. 4,63,988.

UNIVERSITY OF MYSORE

Chancellor: G. S. Pathak, Governor of Mysore; *Pro-Chancellor:* K. V. Shankara Gowda, Minister for Education; *Vice-Chancellor:* Dr. K. L. Shrimali; *Registrar:* B. S. Srikantaiah.

This is a teaching and affiliating University; No. of University Colleges: 4; No. of affiliated colleges: 67; Total No. of students during 1965-66: 42,022.

Budget Estimates (1967-68): Opening Balance, Rs. 11,88,863; Govt. Grant Rs. 52,00,000; University Grants Commission Rs. 15,24,000; University Fee etc. Rs. 37,30,500; Total Revenue Rs. 1,16,43,363; Expenditure Rs. 1,15,39,180; Closing Balance Rs. 1,04,183.

NAGALAND

HEADQUARTERS: Kohima.

Area: 6,366 sq. miles.

Population: 369,200 (1961 Census).

Administrative Districts with headquarters shown within brackets: Kohima (Kohima); Mokokchung (Mokokchung); Tuensang (Tuensang).

There are 828 villages.

The economy of the state is mainly dependent on agriculture. Revenue is derived from house tax and forest produce like bamboo, cane, timber, thatch and 'Agar'.

The deficit in food production at the beginning of the 3rd Five Year Plan was estimated at 5,400 tons, the major crop being rice which accounts for 80 per cent of the total output of food. In the villages people depend mostly on their own cottage industry for cloth. Yarn is made locally though it is also imported. Towns now import mill cloth.

The main tribes in the Area are : Angami, Sema, Lhota, Ao, Rengma, Chakhesang, Sangtam, Konyak, Chang, Phom, Yimchunger, Khiamnungan, Zeliang-Kiki and Kachari.

DEVELOPMENT PROGRAMME IN THIRD PLAN

An outlay of Rs. 7.25 crores had been approved for the 3rd Five Year Plan subject to the increase in allocations from year to year based on the actual performance. By the end of the financial year 1965-66 the actual expenditure under the Plan scheme came to Rs. 1,080.57 lakhs.

Under agricultural production scheme the total foodgrains production was brought to 63,000 tonnes by the end of 1965-66. The anticipated foodgrains production by 1968-69 is 66,000 tonnes.

Forests are the main source of revenue in Nagaland. By the end of 1964-65 the out-turns of timber, timber poles and firewood were 7,45,008 cft., 6,481 nos. and 2,96,500 cft. respectively. The annual revenue during the year was Rs. 12,98,000.

Roads: National Highway (from Dimapur to Mao) 64 miles; Jeepable roads, 1,415 miles; Mule path and Bridle tracks 475 miles; Fair weather motorable road 1,373 miles; Metalled road 95 miles. In 1965-66 a sum of Rs. 143.96 lakhs was spent on roads.

Transport: Nationalised Routes 358 kms. Passenger services 743 kms; Goods services 176 kms; Taxi services

215 kms; Town Bus Services 150 kms. The expenditure during the year was Rs. 22.17 lakhs. The State Transport Service was inaugurated on 26th January, 1965.

Education: No. of Government Primary Schools 920; Middle Schools 146 (121 Govt.), High Schools 33 (30 Govt.), Colleges four (two Govt.), Polytechnical School one; Teachers' Training Institutes three; Adult Literacy Centres 141.

No. of Students in : L. P. Schools 64,000; M. E. Schools 15,000; High Schools 6,000; Colleges 385.

Health: Hospitals 32; Dispensaries 80; B.C.G. Teams 3; Small pox Teams 2; Malaria Unit 1; Primary Health Centres 6; Beds 837.

All the villages in Nagaland have been covered by the Community Development Blocks.

Sufficient fund had also been provided for other schemes such as Animal Husbandry, Fishery, Co-operative, Power, Industries, Research and Cultural Programmes, Housing, Statistics, Information and Publicity.

ADMINISTRATIVE PERSONNEL

(See under States Administrative Personnel)

ORISSA

CAPITAL: Bhubaneswar.

Area: 60,172 sq. miles or 155,845 sq. kms.

Total Population: 17,548,846 (Males 8,770,586 and Females 8,778,260) (1961 Census). See article "Population" for more details.

Administrative Divisions: The State is divided into three Revenue Divisions, namely, Central Division (Hqrs. Cuttack), Northern Division (Hqrs. Sambalpur) and Southern Division (Hqrs. Berhampur). The following are the 13 Administrative Districts with names of district headquarters in brackets.

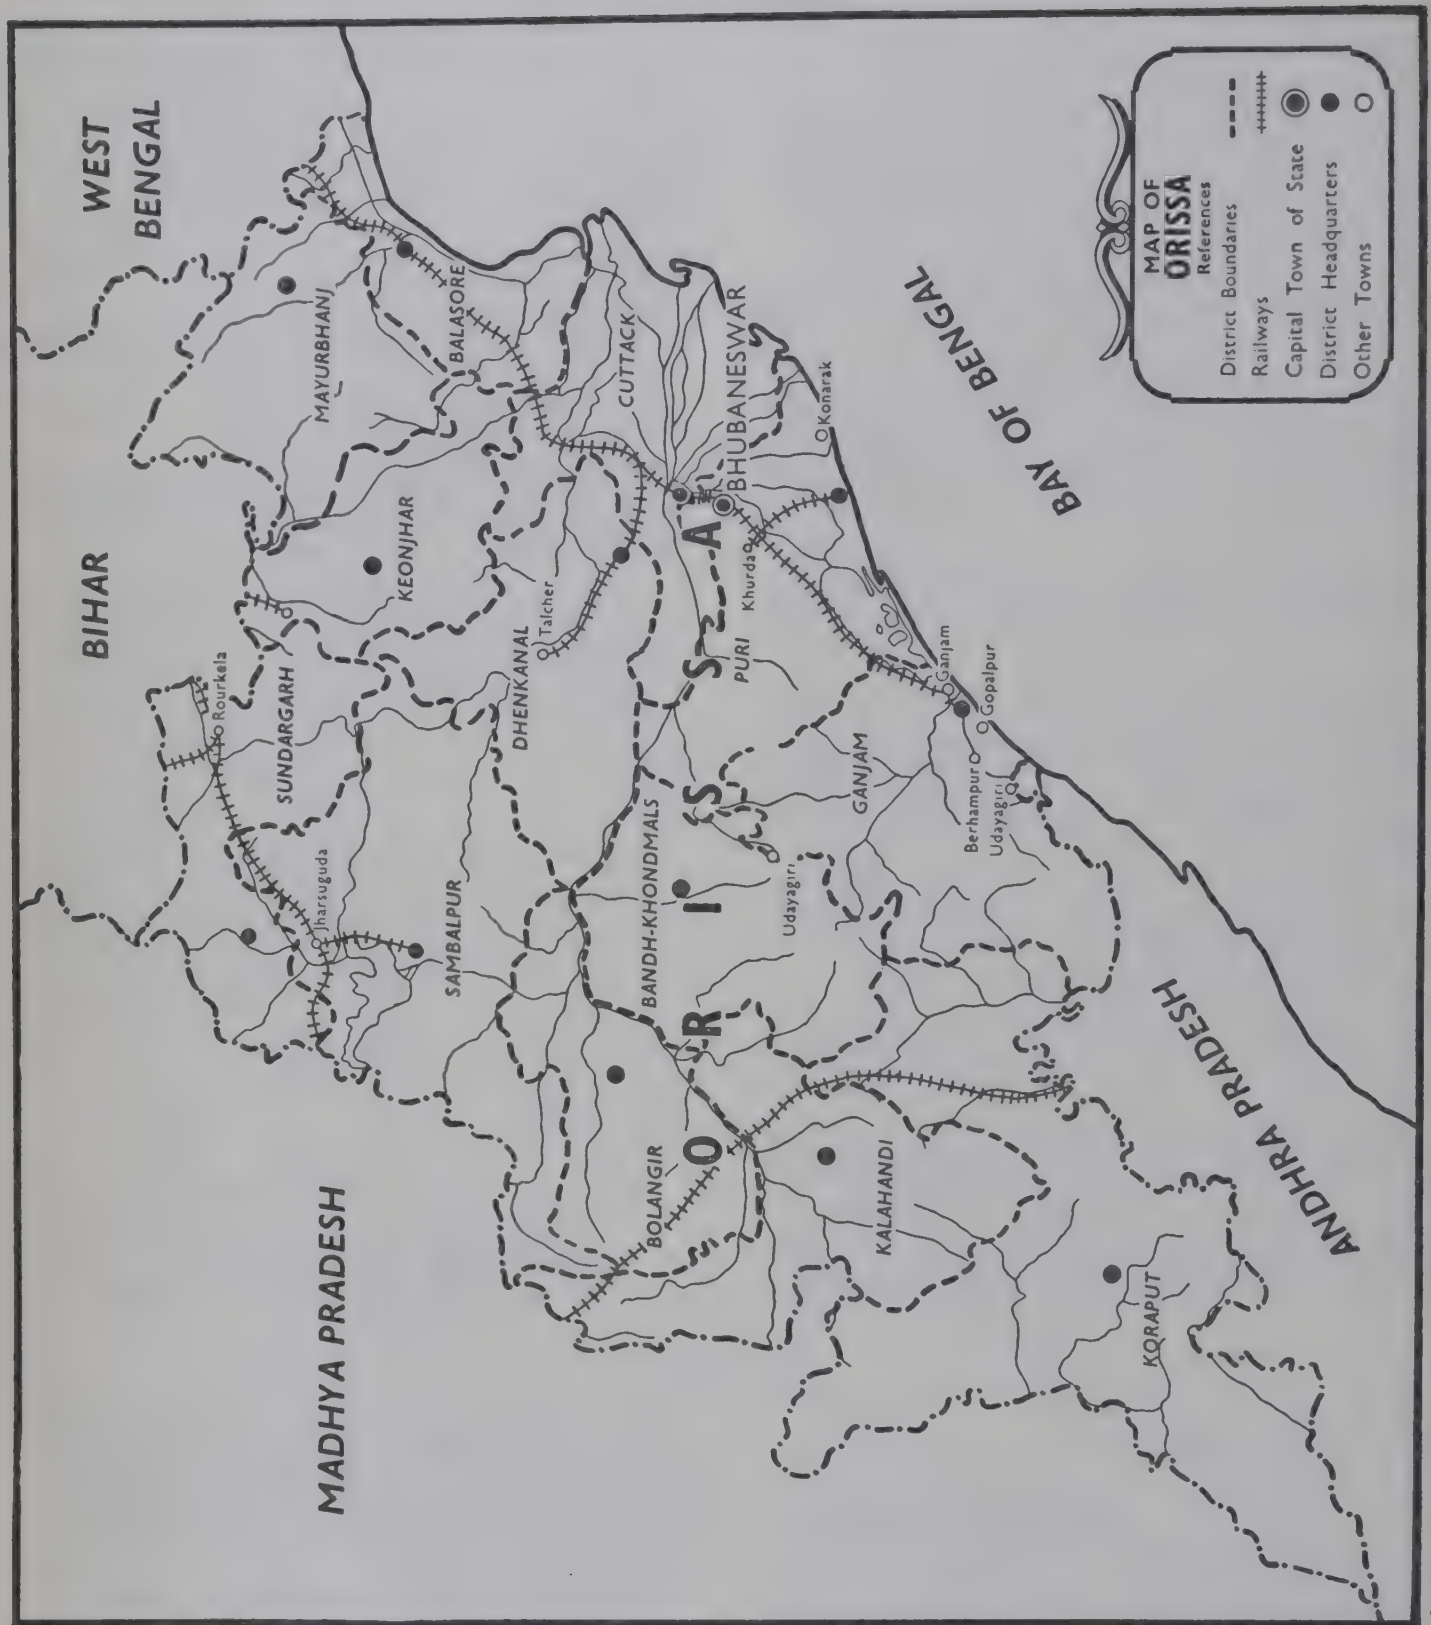

Cuttack (Cuttack); Puri (Puri); Dhenkanal (Dhenkanal); Phulbani (Phulbani); Balasore (Balasore); Sambalpur (Sambalpur); Ganjam (Chatrapur); Koraput (Koraput); Mayurbhanj (Baripada); Sundergarh (Sundergarh); Bolangir (Bolangir); Keonjhar (Keonjhar); Kalabandi (Bhawanipatna).

Number of Revenue Sub-Divisions: 52 (which are further divided into Tahsils).

Number of Municipalities: 19.

Number of Notified Area Councils: 44.

Number of villages: 52,125 (1961).

Panchayat Samities—Grampanchayats: 3,831 (after the re-organisation in 1967); Number of Panchayat Samities: 314.

Panchayat Samiti was inaugurated throughout the State on Jan. 26, 1961. Under the reorganisation scheme in 1967, the Zilla Parishads at the top of the three-tier system were abolished.

LARGE-SCALE INDUSTRY

Main large-scale industries of State.

Textiles; Cement; Refrigerators; Paper; Glass; Sugar; Iron and Steel; Potteries; Spinning Mills; Tube Mill; Refractories and pipes; Ferro-manganese; Chlorine and Caustic Soda; Low Shaft Furnace; Structural Transmission Towers; Coil and Coil Products; Aluminium Ingots; Aluminium Cables; Steel Reinforced; Cast Iron Specials; Cast Iron spun pipes; Cast Iron Castings; Paper, Ferro-silicon and Ferro-chrome.

CHIEF INDUSTRIAL UNITS

Orissa Textile Mills, Chowdwar; Kalinga Tubes, Ltd., Chowdwar; Titaghar Paper Mills, Ltd., Chowdwar; Electrolux India, Ltd., Chowdwar; Kalinga Industries, Ltd., Cuttack (Factory at Chowdwar); Shree Durga Glass Works, Ltd., Baranga; Orissa Industries, Ltd., Baranga; National Foundry and Rolling Mills, Ltd., Cuttack; Patnaik Industries, Ltd., Bhubaneswar; Cement Concrete Products, Ltd., Bhubaneswar; Ferro-Chrome, Jeypore Road; Orient Paper Mills (P) Ltd., Brajarajnagar; Hindustan Aeronautics, Sunabeda; Indian Metals & Ferro-Alloys, Ltd., Tirubeli, Rayagada; Jeypore Sugar Co., Ltd., Rayagada; Straw Products, Ltd., (J. K. Paper Mills), Jaykeypore, Rayagada; Indian Aluminium Co., Ltd., Hirakud; Aluminium Industries, Ltd., Hirakud; Hira Cements (Industrial Dev. Corporation), Hirakud; Aska Cooperative Sugar Industries, Aska; Kalinga Iron Works, Ltd., (Industrial Dev. Corporation), Barbil; Tata Ferro-manganese Plant, Joda (Barbil); East Coast Salts & Chemicals, Ltd., (Industrial Dev. Corporation), Bhubaneswar (Factory at Ganjam); Jayshree Chemicals, Ltd., Ganjam; Orissa Cement Co., Ltd., Rajgangpur; Rourkela Steel Plant (HSL), Rourkela; Utkal Machinery, Ltd., Kansbahal; Refractory Plant, Rajgangpur, Belpahar Refractories Sambalpur; Orissa Ceramics, Jharusuguda.

SMALL & COTTAGE INDUSTRIES

Small & Cottage industries with their locations in brackets :—Biscuit & Confectionery (Cuttack, Berhampur, Rourkela); Steel products (Parlakhimedi & Cuttack); Salt (Ganjam, Puri & Cuttack); Fire Bricks (Rajgangpur, Baranga, Jharusuguda, Sambalpur); Foundry (Tapang, Berhampur, Dhanmandal, Cuttack, Bhubaneswar, Rourkela, Baripada, Sambalpur, Balasore); Woodwork (Cuttack, Bhubaneswar, Baripada, Jharusuguda); Tannery (Baud, Titlagarh); Footwear (Puri, Berhampur, Cuttack); Roofing Tiles (Cuttack, Puri, Ganjam and Sambalpur); Radio & Electricals (Cuttack, Rourkela); Glazed Porcelain (Baranga, Rourkela); Agricultural implements (Cuttack); Car Batteries (Cuttack); Cycle parts (Cuttack); Paints, Chemicals & Pharmaceuticals (Cuttack); Tin containers (Parlakhimedi, Cuttack); Sports Goods (Cuttack); Mathematical Instruments (Berhampur); Aluminium Utensils (Cuttack, Puri, Rourkela); Re-Rolling and Steel fabrications (Cuttack); Boats & launches (Cuttack); Buckets (Rourkela, Cuttack); Hard Boards (Cuttack); Filigree (Cuttack); Horn Works (Cuttack & Parlakhimedi); Handloom (Sambalpur and almost throughout the State); Eri and Tassar rearing (Sambalpur & Balangir). The State is famous for its Bell Metal and Brass works. Other cottage industries are: blacksmithy, coir products, soap and

phenyl, carpentry, pottery, wooden and sea-shell toys (Puri), stone carving (Puri), ivory etching, applique works, paddy husking. There are nearly two hundred rice mills and many hullers throughout the State.

Industrial Belts : I. (a) Rourkela-Bonai-Talcher-Cuttack-Paradeep; (b) Nayagarh-Tomka-Daitari-Paradeep; II. Rourkela - Rajgangpur - Jharusuguda - Balangir - Rayagada Koraput-Vishakhapatnam.

Industrial Policy

Loan assistance, land and power at concessional rates, waiving of Octroi duty and sales tax and guidance for preparation of project reports and obtaining of licences are some of the highlights of the policy.

MINERALS, METALS

Orissa's mineral potential is enormous. Her reserves of Iron Ore, Manganese Ore, Chromite, Limestone and Graphite are among the very best in India. The minerals which are worked in large quantities include besides those stated above, Coal, Dolomite, Galena, Fire clay and China Clay. Deposits of Bauxite, Vanadiferous Magnetite, Kyanite, Asbestos, Soapstone and Mica also occur in the State.

Location :—

Iron Ore :—Badampahar, Gorumahisani, Hatisikhli, Thakurani, Joda, Bolani, Sakradihi, Pipokri*, Gandhamaradan*, Jhiling, Tomka, Daitari* and Hirapur*. Total estimated reserves : Over 8,000 million tons.

Manganese Ore :—Thakurani, Joda, Bamebari, Gurda, Kalaparbati, Siljora, Dalpahar, Bhutura, Korra valley and Kuttinga. Total estimated reserves : over 20 million tons of all grades.

Chromite :—Baula—Nuasahi, Saraubil, Sukraugi, Bhimtangar, Kaliapani. Total estimated reserves : Around five million tons.

Coal :—Talchir (Deulbera, Dera, Talchir, S. Balanda) and Rampur (Hingir—Rampur and Orient collieries) are the two coal fields of the State producing non-coking coal. The reserves in those fields may be of the order of several thousand million tons.

Limestone :—Birmitrapur, Hatibari, Purnapani, Lanjhera, Dungri*, Umpavalle, Kottameta—Nandiveda*. The total reserves may exceed 500 million tons.

Dolomite :—Birmitrapur in Sundargarh district.

Graphite :—Sargipali, Matupali, Dharuakhaman, Bamuni, Sigjhan, Loitera, Densurgi, Tumudibandh, Majhibhelum, Kariguda and Athamalik.

China Clay :—Khola, Joshipur, Chanachbani and Jamkesar.

Fire Clay :—Belpahar, Talabira, Darlipali, Jaganath Prasad, Gopalpur* and Ratansara.

Bauxite :—Gandhamaradan Plateau, Kahipur Tiluk, Khariar, Karlapat plateaux. Total reserves : About two million tons.

Vanadiferous Magnetite :—Huasahi, Betai, Rangamatia, Betharan, Kumardubi, Hatichar, Kesam, Majurbeka.

Mineral exploitation :—The Orissa Mining Corporation—a State Govt. Undertaking—has the largest mechanized mining and ore-handling equipment. Messrs. TISCO, Bolani Mines, Ltd., the Hindustan Steel Mines are among the largest mechanized iron ore mines in the country.

PORTS

Major Port :—Paradeep (Cuttack District); with draft of 42, biggest in the country, it can receive bulk-carriers of 60,000 tonnes.

* Indicates occurrences which have not been worked.

Minor Ports :—Chandbali (Balasore District) and Gopalpur (Ganjam District).

See also main article "Ports" for details.

AGRICULTURE

Less than 15 per cent of the cropped area is irrigated. The latest position (1967-68) is as follows : the figures in brackets show the area sown in acres and the production in tonnes : Rice winter and autumn (98,74,000 ; 34,43,000) ; Wheat (34,200 ; 1,68,000) ; Other kharif cereals (5,24,000 ; 1,88,000) ; Kharif pulses (12,64,000 ; 1,06,000) ; Rabi cereals, other than wheat and rice (48,000 ; 24,000) ; Rabi pulses (20,34,000) ; 3,18,000) ; Kharif commercial crops, oilseeds, jute, etc. (4,93,000 acres) ; Rabi commercial crops, oilseeds, jute, etc. (5,86,000 acres) ; Oilseeds production (1,84,000 tons) ; Sugarcane (Gur) production (1,77,000 tons) ; Jute (2,84,000 bales of 400 lbs.).

During the period from 1966-67 to 1968-69, the Intensive Agricultural Area Programme (I.A.A.P.) has been introduced in 86 irrigated blocks of the State. The I.A.D.P. (the Intensive Agricultural Development Programme — previously called the Package Programme) covers 29 blocks in Sambalpur District.

LAND REFORMS

The important steps taken for agrarian reforms include : abolition of intermediaries (as many as 3,68,000 have been abolished out of a total of 4,20,000) under the Orissa Estates Abolition Act. The tenants now hold their tenancies under the Government. These rent-free estates have vested in the State. The bulk of the remaining 52,000 estates are Trust Estates or Religious Endowments. The compensation payable to the erst-while estate owners is Rs. 9.5 crores. The system of collection of rent by hereditary village headmen (karnams and karjis) has been abolished. Land revenue also has been abolished from 1st April, 1967.

Water rates and irrigation cess were levied in all the districts from June 1, 1961 except in Cuttack, Balasore and Ganjam Districts, where the provisions of the Irrigation Act came into effect from July 1, 1963 except that the rates have been halved since June 1967.

FORESTS

The total forest area of the State is estimated to be 26,317.80 square miles which constitute about 42 per cent of the total land area. The forests are largely confined to Western Districts of the State while the coastal Districts are deficient in forests where the demand is greater.

Out of the total forest area, 9,100.90 square miles are Reserve Forests, 2,485.11 square miles are Reserve Lands and Demarcated projected forests, Ex-Zamindari forests, private forests and other types of forests. Sixty per cent of the total forest area of the State is demarcated and support forest growth of reasonable value. Sal is the most important timber species of the State. Besides Sal, Teak, Sisoo, Piasal, Kurum, Bandhan, Champa, and Gambhar are available. In the exploitable forests 56 per cent of the available species are utilised as fire wood. There are extensive areas of the state covered with bamboos. They feed 3 Paper Mills within the State and 2 outside.

At the end of the 3rd Plan, revenue from forests was Rs. 4,70,13,800. Besides bamboos and timber, kendu leaf used for the manufacture of bidis has yielded a net revenue of Rs. 1,97,00,000 in 1968-69. The total expenditure under the head "Forests" is about Rs. 2,00,00,000 including the expenditure on Plan schemes.

The average outlay on forests in the Annual Plans from 1966-67 to 1968-69 was Rs. 50 lakhs per year. A provision of Rs. 4 crores in the draft 4th Plan has been made under "Forests". About 25 per cent of the exploitable forests are covered with uneconomic species. One of the major schemes in the Plan is to plan economic species such as teak, sisoo and semul in the place of the uneconomic species.

The Orissa Forest Corporation is engaged in scientific exploitation of forest resources in some of the areas. It has set up its own saw mills and supply depots.

TRANSPORT

The State is still under-developed in road communication. There are 1,427 miles of State Highways, 3,183 miles of major District roads, 5,542 miles of other District roads and 4,027 miles of rural roads.

During the 3rd Plan period 724 miles of the existing roads had been improved and 50 miles of new roads laid and 110 bridges constructed to achieve the object of all weather long-distance roads. Out of 5,818 miles of roads of higher category in the State, so far (1967-68), 2,886 miles have been made all weather.

The 90-mile long Expressway connecting the Daitari mining area with Paradeep Port, undertaken in the 3rd Plan, was completed in 1967-68.

Most of the passenger bus routes have been nationalised. They are now shared by the State Transport Service and the Orissa Transport Company.

(a) State Transport Service : Total capital invested : Rs. 205.92 lakhs ; Net profit : Rs. 36 lakhs (1967-68).

(b) Orissa Road Transport Co., Ltd. : Total capital paid-up : Rs. 30 lakhs ; Net profit earned : Rs. 12,41,475 (1966-67).

(The Company operates buses on 132 routes).

CO-OPERATIVES

Total Number of Co-operative Societies: 8,925 (1966-67).

(These are being reorganized so that there may be only one for every gram panchayat, that is, 3,600 in all). Number of Credit Societies : 5,062 (1967-68) with a total membership of 14,00,000 ; Amount of short-term and medium-term loans advanced : Rs. 19,00,00,000 (1967-68) ; Amount of long-term loans advanced : Rs. 4,00,00,000 (1967-68) ; Number of Primary Mortgage Banks : 53 (1967-68) ; Number of Regional Cooperative Marketing Societies : 53 ; Wholesale Consumer Co-operative Societies (Urban) : 8 ; Number of Co-operative Farming Societies : 105 ; Number of Labour Co-operative Societies : 296 ; Number of Industrial Co-operatives : 35 rice-cum-oil mills, 2 sugar factories, 7 coldstores.

PUBLIC HEALTH (1967-68)

Commonest diseases in the State are : Small-Pox, Cholera, Filariasis and fevers (including Malaria). Malaria has almost been eradicated through the N.M.E.P. While these diseases are on the decline, the "industrial" diseases like tuberculosis are on the increase. The dreadful yaws disease among the tribal people is also under control. The latest attacks and mortality figures are not available.

Number of allopathic hospitals and dispensaries : 386 (74 urban and 312 rural) ; Ayurvedic hospitals & dispensaries : 136 ; Homoeopathic dispensaries : 16 ; Beds in the hospitals : 7,529 ; Maternity homes : 99 ; Maternity centres and child welfare centres : 176 ; Primary health centres : 314 (end of 1968) ; Medical colleges : 3 (annual in-take 450) ;

Nurses' training institutions : 4 ; Auxiliary nurses' & mid-wifery training schools : 4 ; T.B. clinics : 13 ; Leprosy control units 8 ; V.D. clinics : 13 ; and Filaria units : 5 (end of 1968) ; Malaria control units : 15.

EDUCATION (1968-69)

Enrolment of students in the age group, 6-11, 11-14 and 14-17, were 19.57 lakhs, 3.59 lakhs and 2.14 lakhs respectively.

No. of Schools : Primary : 26,000 ; Higher-Primary (Class VI and VII) 4,000 ; and Secondary 900. Teachers : Primary 53,318 ; Higher Primary 14,648 ; and Secondary 11,800.

The number of students enrolled in 83 colleges under the 3 Universities is : 31,000. There are two engineering colleges, four engineering schools and four polytechnics.

(See under article "Education" for details).

LABOUR, HOUSING

Position in 1968 :

Names of industries in which minimum wage is fixed : Rice Mill, Flour Mill and Dal Mill, Tobacco (including bidi and gudakhu making) manufactory, road construction, building operations and stone breaking or stone crushing, Public Motor Transport, employment in agricultural operations and employment under Local Authority (excepting Gram Panchayats, Anchal Sasan and Notified Area Councils) and Printing Presses.

The minimum rates for wages in respect of the following scheduled employments were revised with effect from 26-11-1960 : (1) Rice Mill, Flour Mill or Dal Mill, (2) Tobacco (including bidi making and gudakhu making) manufactory, (3) Agricultural operation, (4) Road construction or building operation and stone breaking or stone crushing within the notified area of Rourkela. Minimum Wages in respect of Municipalities & N.A.C., Public Motor Transport, construction or maintenance of roads have been revised since 1965.

The following employments have been added to Part I of the Schedule appended to the Minimum Wages Act, 1948—Salt pans, printing presses, tile and brick making, private road transport, hotels, eating houses and restaurants, distilleries, shops and establishments, metal industries, cinema industry, saw mills, handloom and hosiery.

Number of registered factories : 1,123.

Average daily number of workers in registered factories : 71,000 (approximately).

Average monthly earnings of industrial workers : Rs. 172.00.

Number of Trade Unions in the State : 207.

Total membership of trade unions : 74,902.

Number of Labour Welfare Centres : 20.

Number of establishments covered under the Minimum Wages Act : 95,206.

Number of workers employed in them : 6,31,746.

During 1967, there were 219 industrial disputes out of which 211 were conciliated upon and the rest sent to the Tribunal. In the same year, there were 25 strikes, 6 gheraos. Excepting 3 cases, which were sent to adjudication, the others were settled by Government intervention.

Number of houses built under Subsidised Industrial Housing Scheme : By private enterprises : 1,171. By Government : 1,210.

Number of houses constructed under the Low Income Group Scheme : 1,791.

POWER

Power :—The Electricity schemes may be divided in two parts, namely, generation of electricity and construction of power projects on the one hand and transmission and distribution of power to consumers on the other. The former are in the direct charge of the State Government while the latter are the responsibility of the State Electricity Board.

The more important schemes of generation :

(i) Hirakud Stage II, (ii) Talcher Thermal Station, and (iii) Balimela Hydro-Electric Project.

Hirakud Stage II :—At Hirakud, during the Third Plan period the fifth and sixth units have been commissioned. At Chiplima the first and second units were put to commercial use in July and February, 1962 respectively. The third unit was completed in September, 1963. With the commissioning of this set, Stage II of Hirakud Project was completed. It has now a scheduled capacity of 270 MW and is capable of supplying 121 MW of firm power.

Talcher Thermal Scheme :—Under this Scheme, four generators of 62.5 MW each have been set up at Talcher. Two of them were commissioned in 1967-68 and the remaining two were ready for commissioning early in 1969. Of the 250 MW, 230 MW will be available for sale. This station will be interconnected with Hirakud Grid on the one hand and the Machkund and Balimela (both hydel projects are joint ventures of Andhra and Orissa Governments). This station draws its coal from the mines operated by the National Coal Development Corporation. The estimated cost of the project is Rs. 31.5 crores.

Balimela Hydro-Electric Project :—The scheme is being worked out jointly by Andhra and Orissa Governments under an agreement of 4th September 1962 regarding construction of a dam on river Sileru at Balimela for generation of electricity. The total cost has since been revised to Rs. 30 crores. It will have a capacity of generating 360 MW or 135 MW of firm power at 100 per cent load factor. The tail water will be subsequently used for irrigating about 2.4 lakh acres in the Malkangiri Motu plains. Orissa's outlay on this scheme in 1968-69 was Rs. 3.5 crores.

Installed Power Generation in the State at the end of 1968 : 510 MW with the commissioning of two more generators at Talcher.

Rural Electrification :—Executed by the Orissa Board of Electricity, 821 villages have been electrified and 432 lift irrigation pumps were energized by end of 1968. The performance of Orissa in the rural electrification field has been poor because of lack of distribution and transmission channels. It is, therefore, proposed to strengthen and expand distribution and transmission schemes from the current year onwards. The 1968-69 budget provision was Rs. 134 lakhs.

Uptil now, under the distribution and transmission scheme, 1,210 miles of lines have been completed.

Balimela Transmission Schemes :—The Rayagada-Talcher 220 KV Transmission Line is under construction. It will link up all the three main power stations, namely, Talcher, Hirakud, and Balimela Stations. The length of this line is 512 kilometers and the cost Rs. 17.30 crores. This year's provision is Rs. 88 lakhs for completing a stretch of 50 kilometers.

Talcher Transmission Scheme :—The transmission line will hook up this Station with the Hirakud Grid at two points. By this interconnection the availability of power will be raised to 403 MW from the present capability of 170 MW. The 220 KV Single Circuit line will establish a link at Joda. A second link is provided at

Chainpal through a double-circuit 132 KV line from Talcher to Chainpal. The substations at Joda and Jeypore have been commissioned. The current year's provision on this scheme has been drastically cut from Rs. 70 lakhs to Rs. 25 lakhs.

IRRIGATION

(See also tables under main article 'Irrigation')

At present the following existing irrigation projects provide irrigation facilities to the extent mentioned against each (in acres): Rushikulya canals 1,64,400; Mahanadi Delta canals 5,54,000; Hirakud Dam Project (canals) 3,80,000 Kharif and 2,20,000 acres rabi; High Level Canal Range III 60,000; Jaipur Canals 35,455; Haldia and Baldia Projects 18,000; Salandi 25,000; Salki 40,000; Budhabhudiani 5,500; Kharif and 1,500 rabi; Derjang 9,000; Hiradharbati 10,000.

Hirakud Dam Project (Stage I): The project is complete. The entire irrigation potential of 3,80,000 acres is being utilized in the kharif and of 2,20,000 acres in the rabi season. After improvement of the canals which is under way the system will irrigate 6,27,500 acres (kharif 405,000 acres and rabi 222,500 acres).

Mahanadi Delta Irrigation Scheme: Out of the estimated cost of Rs. 34 crores, Rs. 25 crores had been spent on this project upto the end of 1967-68. The re-modelling of the existing weirs at Jobra and the canal system and the construction of a diversion weir at Mundail pick up the regulated release from the Hirakud Reservoir for irrigation in Cuttack and Puri districts. The delta canals will command an area of 16 lakh acres.

Salandi Project: The project consists of a 160-foot high dam at Hadgarh, a barrage at Bidyadharpur across the Salandi river and a canal system to irrigate an area of 1,13,000 acres in Balasore district. MINERALS

Rajasthan is an important mineral and building material producing State. It ranks next to Bihar in Mica which is chiefly found in Ajmer, Udaipur, Bhilwara and Jaipur Districts. Over a lakh persons have been employed in the State mining industry.

The chief non-metallic minerals are Silica sand, Felspar, Asbestos, Barytes, Clays, Emerald, Fuller's earth, Bentonite, etc. The metallic minerals are lead, zinc, iron ore and manganese ore. The State is the sole supplier of gypsum for fertiliser manufacture to Sindri plant.

Lignite (coal) is mined near Palana in Bikaner District. There are vast deposits of high quality building stones such as marbles, sandstones and limestones. Limestone is used for the manufacture of cement at Lakheri and Sawai Madhopur and Chittorgarh and for lime at a number of places. Marble quarries at Makrana in Nagaur District are famous for building stone.

Large resources of sodium sulphate and salt also occur at Deedwana and Sambhar lake. Uranium deposits have been found at Umra and Udaisagar in Udaipur District.

Provisional production in thousand metric tonnes of some important minerals in 1966; Coal (Lignite) 7.2; Metallic minerals: (a) Ferrous (1) Iron ore 0.3; (2) Manganese ore 7.9; (b) Non-ferrous (1) Lead concentrate 5.2, (2) Zinc concentrate 8.9, Minerals: Asbestos 5.9; Barytes 7.1; Calcite 8.1; Emerald (crude) 11.0; Felspar 18.2; Garnet 0.2; Glass sand 40.8; Graphite nil; Gypsum 1,153.4; Lime stone (for cement making) 1,715.2; Mica (Crude) 6.4; Quartz 12.7; Salenite 4.1; Soap stone 135.9; White clay 14.6; Yellow Ochre 0.8; Building Materials: Building stone (including Kankar, Bajri and Sand stone etc.) 6,860.5; Lime stone (for Lime making) 679.0, Marble 63.0, Bentonite, 5.7; Fuller's earth 11.7; Brick earth and ordinary clay 865.7.

The State produced minerals worth Rs. 9.09 crores (Provisional) during 1966.

INDUSTRIES

Among the large-scale industries in the State mention may be made of cotton textile (14 units), cement (2 units), glass (1 unit), sugar (2 units), ball-bearings (1 unit) and electric metres (1 unit). The industrial production of some commodities during 1966 was as under:—

Cloth—lakh kg. (n.a). (625 lakh metres); Yarn—lakh kg. 345; Glass—metric tonnes 288; Cement—lakh metric

tonnes 11.2; Salt—lakh metric tonnes 4.1; Ball bearing—lakh number 56.4; Sugar—'000 metric tonnes 18.3 @; Foreign spirit—'000 litres 1,021.3; Rectified spirit—'000 litres 1,596.5; Denatured spirit—'000 litres 38.4; Country spirit—'000 litres 2,489.0.

The most important cottage and small-scale industries are tie and dye Fabrics, Gota Kinar wooden toys, hand-made paper, papier mache toys, gem cutting, cloth printing, manufacture of agricultural tools and implements, embroidered shoes (Jutiyan) and leather bags, water bottles (Badlas) and handloom weaving. From the point of view of employment, khadi and village industries also play an important role in this State.

AGRICULTURE

Land Utilisation: According to land utilisation statistics for the year 1965-66, the total geographical area of the State was 34,023 thousand hectares, comprising 1,128 thousand hectares under forests, 6,035 thousand hectares not available for cultivation, 8,310 thousand hectares uncultivated land, 4,418 thousand hectares of fallow land and 14,132 thousand hectares net area sown. The total cropped area was 14,972 thousand hectares, the area sown more than once being 840 thousand hectares only.

Agricultural Production:

Main Food Crops of the State: Cereals—Bajra, Jowar, Wheat, Maize, Barley, Small millets, Rice; Pulses: Gram, Tur, other Rabi pulses, other Kharif pulses.

Main cash crops of the State: Oilseeds: Sesamum, Rape and Mustard, Linseed, Groundnut, Cotton, Sugarcane, Tobacco, Chillies, Potatoes.

Area and production of principal food crops in '000 hectares and '000 metric tonnes respectively for the year 1965-66 are as follows:—

Cereals: Bajra 4,807; 932; Jowar 1,015; 287; Wheat 966; 776; Maize 740; 641; Barley 378; 437; Small millets 80; 19; Rice 94; 28.

Pulses: Gram 1,130; 416; Tur 36; 13; Other Rabi Pulses 16; 8; Other Kharif Pulses 1,762; 235.

Oilseeds: Sesamum 630; 51; Rape and Mustard 220; 72; Linseed 67; 10; Groundnut 217; 92.

Others: Cotton 278; 167; Sugarcane 57; 732; Tobacco 4; 2; Chillies 24; 12; Potatoes 2; 5.

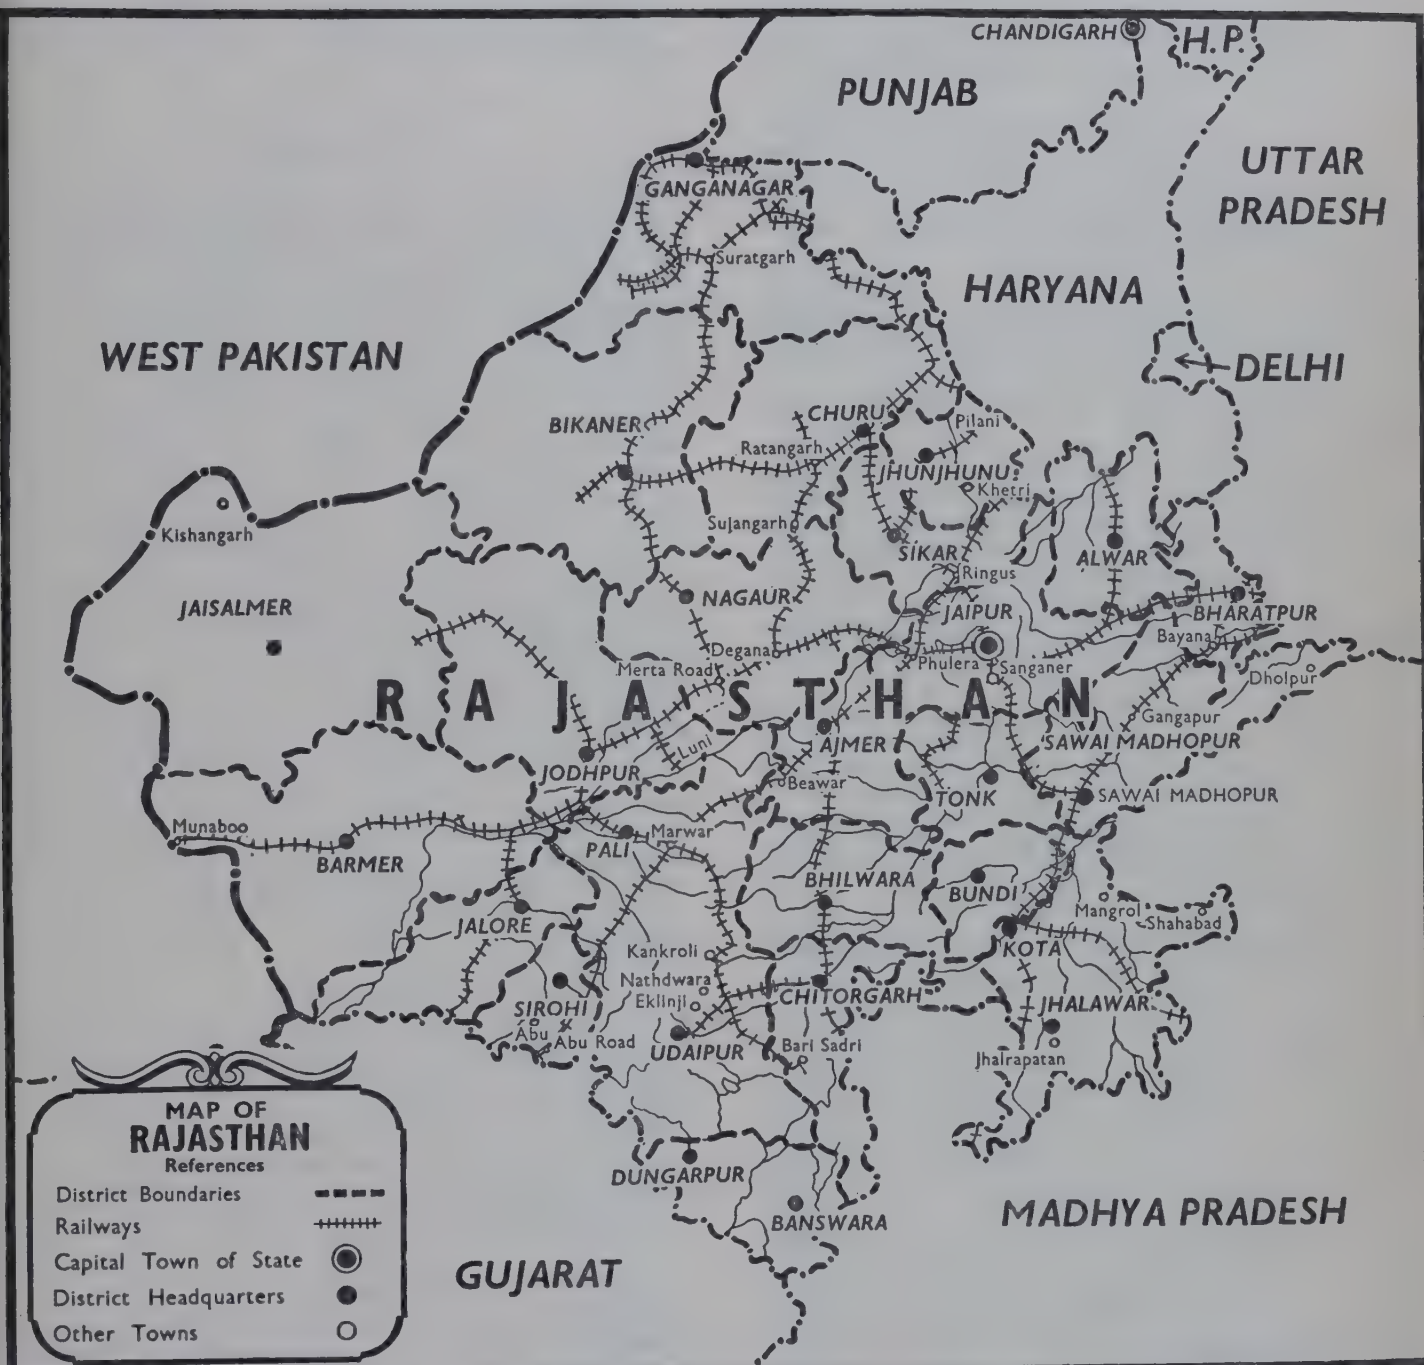

Fish: Variety of fish produced: There is a large number of tanks, lakes and rivers in which inland fishes are found. The main species are the major carps, viz. Rohu, Migal, Kalbasu and Katla; Minor carps, viz. Mahaseer; Cat Fishes: Launchi and Seenghara; Live Fish: Sol, Magur and Singhi.

During the year 1965-66, 10.37 lakh fish seeds were produced and distributed to the private pisciculturists against the stipulated target of 30 lakh fish seeds and an area of 202 hectares was covered under this programme thereby bringing the total area covered in the State till the end of the year to 1,683 hectares.

Sugarcane: (In terms of Gur) During the year 1964-65 and 1965-66 the average yield of sugarcane came to 1,483 and 1,292 Kg. per hectare respectively.

CENTRAL STATE FARM, SURATGARH

The 12,141 hectares Central State Farm at Suratgarh, in the Ganganagar district of Rajasthan, is the first State-run-farm in the country. Started with the main objective

"Based upon Survey of India map with the permission of the Surveyor-General of India."

"© Govt. of India Copyright 1961"

of production of improved varieties of seeds, the farm has made considerable progress in this regard.

The farm has made an estimated profit of Rs. 48 lakhs during 1967-68.

The farm has a fleet of 103 tractors, 40 harvester combines, transport vehicles and various types of other modern machines for farm operations like winnowing, grading, harrowing, seed-drilling etc. Most of this machinery has come as gift from the Soviet Union. A workshop, with a foundry helps to maintain, repair and overhaul the machines.

The farm grows mainly food crops like wheat, jowar, paddy and bajra and cash crops like cotton, oilseed and sugarcane. Under favourable conditions the average yield per hectare from a 6.07 hectare plot has reached: wheat 55 qtls., paddy 39 qtls., jowar and gram 31 qtls., cotton 24 qtls., sugarcane 1,288 qtls.

The area under Kharif & Rabi crops during 1967-68 was 1,801.56 hectares and 7,961.99 hectares respectively. The farm has produced the following Rabi Seeds which is being supplied to States for multiplication:—

Wheat 60,534 qtls.; Gram 9,834 qtls.; Barley 5,034 qtls.; Oil Seeds 8,219 qtls.

Various Mexican varieties of wheat were also sown at the Farm and have given encouraging results. The average yield in Mexican wheat has been more than 8 quintals and the highest yield in a plot of 6.07 hectares has been 41.64 quintals. During Kharif 1967, 220.96 hectares were put under four varieties viz. LEE, Hill Clark, Bragg and Soyabean. Since its inception the Farm has produced food grains and miscellaneous crops valued over Rs. 500 lakhs.

Afforestation: The afforestation scheme is progressing satisfactorily. A large number of Shisham, Babool and Mulberry trees have been grown on the boundaries of the Farm and main roads. These are serving as wind breaks and also checking the high velocity winds and sand storms. The plants are raised in the Farm nursery and are planted every year in the Farm area. At present 60,000 seedlings are ready for transplantation.

CENTRAL STATE FARM, JETSAR (RAJASTHAN)

The second biggest Mechanised Farm comprising 12,140.7 hectares was started at Jetsar in the Ganganagar District of Rajasthan in May, 1964. The main object of the Farm is to produce pedigree seeds and supply it to States for multiplication. The Farm is getting only non-perennial water from the Rajasthan Canal. Due to shortage of irrigation Rabi sowing has not been taken up in large areas. Kharif is the main crop of the Farm, the major crops being cotton, groundnut, guar and bajra.

The Farm has a fleet of 30 tractors, 3 harvester combine bowzers, heavy duty trucks and jeeps. Besides the Farm has modern machines, implements such as crane, mobile shop vans, land levellers, ditchers, graders, scrapers, dozers and seed drills etc. These machines have been imported from the U.S.S.R.

Despite inadequate irrigation, the Farm has been able to bring an area of 1,970.43 hectares under Kharif and 240.38 hectares under Rabi during the year 1967-68. The average yields per hectare are: Cotton 4.77 Qtls, Groundnut 1.29 Qtls, Bajra 6.95 Qtls, and Mustard 4.73 Qtls.

Afforestation work has also been taken up at the Farm and the Farm has by now grown about 34,200 sheesham, 5 K. M. Babool and 107 plants of eucalyptus. The area

under afforestation is likely to increase when the Farm gets regular supply of irrigation water.

LIVESTOCK

The following figures relate to 1965-66 (Provisional):

Number of Veterinary Hospitals 204; Number of Veterinary Dispensaries 129; Artificial Insemination Centres 19; Key Village Centres 136; Mobile dispensaries 17; Mass Immunisation Centres 7; Total livestock population 374.75 lakhs.

(See also article on "Livestock").

LAND REFORMS

By the end of March, 1961, the Jagirdari, Zamindari and Biswedari tenures had been abolished. The Rajasthan Tenancy Act, 1955, has provided for security of tenure and fixity of rent. There are now only four classes of tenants viz., Khatedars, Maliks, Tenant-Khudkasht and Gair Khatedar tenants. Rents have been fixed and forced labour prohibited. Ceilings on existing holdings and on future acquisitions have also been prescribed.

By the end of March, 1966, a sum of Rs. 2.61 crores was paid as final compensation to 50,175 Jagirdars.

The State Government has also taken effective steps for the rehabilitation of *ex-Jagirdars* and have allotted lands to them at concessional rates in the irrigated area, coming under the command of Bhakra Project.

The Rajasthan Govt. has taken a decision that ceiling on agricultural holdings in Rajasthan will be imposed in one stage instead of four stages as envisaged earlier.

The ceilings prescribed under the Act for a family consisting of five persons is 30 standard acres of land capable of producing 300 maunds of wheat per year or any other produce equivalent in price of wheat. It also provides that if a family consists of more than five persons, every person in addition to five will get additional six acres of land subject to the maximum of 60 acres of land.

During the year 1965, under the programme of Bhoodan Yagna in the State no land was donated and of the total land available for distribution, 1,147 hectares of land was distributed amongst 906 families.

PANCHAYATS

The Panchayat Samitis are the executive bodies with wide powers including those for formulating and executing the development programmes, and for imposing taxes. The Zila Parishads are the supervisory and co-ordinating bodies.

Under this democratic decentralisation, at the end of 1965-66, there were 7,382 village panchayats and 1,368 Nyaya Panchayats covering 34,525 villages serving the total rural population of the State.

IRRIGATION

Bhakra Project: The supply in the Bhakra Canals in Rajasthan has become perennial since 1963-64. The total area irrigated during the year 1966-67 was 2.34 lakhs hectares.

Jawai Project: The total area irrigated from this project during 1965-66 was 5.22 thousand hectares.

Chambal Project: The cost and benefits are shared with the Govt. of Madhya Pradesh and the project will be completed in three stages (i) Gandhi Sagar Project, (ii) Rana Pratap Sagar Project, (iii) Kota Dam Project. Most of the work of the first stage i.e. the Kota barrage, the Gandhi Sagar, the right main canal and the left main

canal were completed by the end of the 2nd Plan and the remaining work was completed during 1961-62. The irrigation was started from this project in November, 1960 and an area of 96.67 thousand hectares was irrigated during 1966-67.

Rajasthan Canal

The Rajasthan Canal from Harika (Punjab) to Ramgarh (Jaisalmer district) on completion will be 425 miles long and will irrigate 11.63 lakh hectares out of the net culturable commanded area of 14.92 lakh hectares. The gross commanded area under this project will be 32.37 lakh hectares.

An amount of Rs. 38 crores was provided in the State's III Plan for this project out of which Rs. 29.13 crores or 77 per cent were spent during the Plan period. During 1965-66 a sum of Rs. 454.66 lakhs or 106.98 per cent of the allotment of Rs. 425.00 lakhs was spent. By the end of the year 1965-66 the work on Rajasthan feeder was completed and out of a total of 469.9 kms. of the Rajasthan main Canal, work on the first 45.1 kms. was completed and from 45.1 km. to 96.6 kms. work was in progress on the Canal. Earthwork and excavations on direct distributaries were also in progress at the end of the year (1965-66).

Rajasthan Canal will depend on the water of the rivers Beas and Ravi. For ensuring perennial supply, Pong Dam on the Beas is being constructed by the Government of Punjab under the aegis of Beas control. The work on the project was started in the year 1960 and is expected to be completed by 1971-72.

In addition to the irrigation benefits, it will have six units of 60,000 kW-installed capacity each for generating power. The Rajasthan Government had made a provision of Rs. 25 crores in its Third Five Year Plan to meet its share of expenditure on the Pong Dam. Out of this amount, a sum of Rs. 24.95 crores is estimated to have been spent. During 1965-66, the share of expenditure of the State was estimated to be Rs. 596.00 lakhs.

POWER PROJECTS

The State's Third Five Year Plan envisaged to increase the installed capacity of the State by 275 thousand kW (revised) and electrification of 303 additional localities by the end of the Third Plan period.

During 1964-65, the installation of one 3,000 kW Turbo-set at Jodhpur was completed. Besides, the installation work of five units of 62.5 MW each at Satpura Thermal project in Madhya Pradesh was in progress which was expected to be completed by 1967-68. Rajasthan will get about 103 MW of firm power as its share from the project. The fourth unit of 23 MW was commissioned at Gandhi-sagar during November, 1963 in which Rajasthan is a fifty per cent partner with Madhya Pradesh. The work on Ranapratapsagar and Kota Dam station was in progress and these were expected to be commissioned during the year 1967-68 and 1968-69 respectively. On completion these will provide 45,000 kW and 30,000 kW of firm power respectively. Bhakra Left Bank Power station has been fully commissioned and 22 MW of power is at present available to Rajasthan from it. The work on Bhakra Right Bank power has not been completed. About 45 MW of firm power will be available to Rajasthan. The work on Beas Sutlej project is in progress and is likely to be completed during the early Fifth Plan period when the State is expected to get a little over 1.0 lakh kW power as its share.

Three sets which were purchased from Elect. Board, Punjab, were commissioned at Bhilwara and the work of two sets was under progress at the end of 1965-66. A network of transmission lines has been spread supplying power to various corners of Rajasthan.

As a result 1,181 Km. of 132 kV, 346 Km. of 66 kV, 3,227 Km. of 33 kV and 2,157 Km. of 11 kV lines have been laid in the State by the end of the year 1964-65. The inclusion of 220 kV Hissar Khetri-Jainpur Transmission line in the Third Plan programme on the direction of the Planning Commission and the Central Water and Power Commission was a major step taken by the Government in 1965. The work is in progress.

During 1965-66, 515 localities were electrified as against 279 during 1964-65, thus bringing the total to 1,102 localities electrified so far, out of which 14 localities were electrified by privately owned power houses.

During 1965-66, 225.283 million Kwh of electricity was generated in Rajasthan and 231.375 million Kwh were purchased from the adjoining States and non-electric utilities respectively, bringing the total electricity generated and purchased to 456.658 million Kwh. The analyses of electricity consumed reveal that the major part of electricity was consumed in industries, followed by public water supply and pumping, domestic light and fans, commercial light and fans, irrigation and agriculture, public lighting and domestic heat and power. Per capita production of electricity rose from 7.86 Kwh in 1960 to 21.08 Kwh in 1965. Similarly the *per capita* consumption of electricity rose from 5.34 Kwh to 15.98 Kwh during the same period.

Work on India's second nuclear power station at Ranapratapsagar near Kotah has commenced.

CO-OPERATION

By the end of the co-operative year ending June, 1966 the number of co-operative societies was 22,580 with a membership of 14,92,311. The share capital and the working capital of these societies stood at Rs. 1,140 lakhs and Rs. 5,700 lakhs respectively.

MEDICAL & PUBLIC HEALTH

For expansion of medical facilities, 232 primary health centres were functioning till the end of 1966. The number of allopathic hospitals and dispensaries at the end of the year 1966 stood at 329 and 211 respectively. Besides, 18 Ayurvedic and Unani Hospitals with 305 beds and 1,482 dispensaries, were functioning in the State. Further details are given below :

Kinds of State Public Hospitals: Figures for 1965 : T. B. Hospitals: (i) Sanatorium 4; (ii) Hospitals and Clinics 17; Leprosy hospitals 2; Mental hospitals 2; Isolation: Hospitals 2; Other hospitals 293; Dispensaries: 215.

Number of beds: Maternity 1,372; T.B. 1,471; Isolation 278; Leprosy 95; V.D. 45; Mental 305; Eyes 471; General 7,738; Total beds 11,775.

During 1965-66 there were 1,441 Civil Assistant Surgeons, 103 Specialists, 580 staff nurses, 984 midwives, 2,863 compounders, 1,132 sanitary inspectors and malaria surveyors, 992 vaccinators, 310 health visitors and 226 dais. During 1965-66 there were 18 Ayurvedic and Unani hospitals, 1,482 Ayurvedic and Unani dispensaries; one Yogic centre. During 1965-66 there were 1,661 vaidyas and hakims, 1,388 compounders/nurses and 305 beds.

Patients treated in allopathic institutions in 1965 were: Outdoor 125.02 lakhs, and indoor 5.07 lakhs respectively.

There were five medical colleges: the Sawai Mansingh Medical College at Jaipur; The Medical College, Udaipur; the Medical College, Bikaner; the Medical College, Ajmer and Medical College, Jodhpur during 1965-66.

INDUSTRIES

Chief Industries in this State are textiles, general and electrical engineering, automobile, sugar, cement, tobacco including bidi and cigar manufacture, bricks and tiles, tanning, glassware, chemicals, bicycles, leather and footwear and manufacture of utensils.

Cotton Textiles

No. of textile mills : 190 ; No. of spindles : 3,900,774 ; No. of looms : 9,346 ; Production of yarn : (1967) 8,40,000 bales ; Average number of workers employed in the mills—101,379.

Sugar

There are 15 sugar mills of which six are in the co-operative sector and nine in the private sector with a production of 2,25,907 tonnes during 1966. One co-operative sugar mill in Dharmapuri district with a capacity of 1,250 tonnes a day is in a formative stage.

Cement

The Tamil Nad Cements at Alangulam, envisages a production capacity of 400,000 tonnes per annum. A Pilot Cement plant for the manufacture of cement on small scale basis near Dalmiapuram produces 30 tonnes per day.

The six private sector cement plants produced 1,981,754 tons of cement during the year 1968.

Bicycles

The bicycle unit turned out 4,00,134 cycles during 1968. There are four factories to produce cycle parts in the City.

Fertilizers

There are 8 units which turned out 263,251 tonnes of fertilizers during 1967.

Caustic Soda : The two factories produced 69,819 tonnes in the year 1968.

EMPLOYMENT IN INDUSTRIAL SECTOR

The total number of factories registered and notified under the Factories Act 1948 in commission at the end of the year 1966 was 6,994.

Handloom (Co-operative Societies) : Number of Cotton looms in the Co-operative Societies in the State during 1965-66 was 2,27,231. There were 1,082 Weavers' Co-operative Societies and the number of weavers was 2,31,441. These Co-operative Societies together produced 108 million yards of cloth worth Rs. 13.50 crores during 1966-67. The wages paid per annum was Rs. 380 lakhs.

In the field of large scale industry, public undertakings in the Central Sector figure prominently. The aggregate capital investment in these projects up to the end of 1966 was of the order of Rs. 200 crores. During the year 1966, all the projects have progressed according to schedule.

For details on the following projects, see under the respective notes (Refer General Index for page number) : Integral Coach Factory, Perambur, Neyveli Lignite Corporation, Neyveli, Hindustan Photo Films, Ootacamund, Hindustan Teleprinters, Guindy, Surgical Instruments Plant.

SMALL SCALE INDUSTRIES

In the interest of the commercial working of the production units and some of the servicing centres, the Government have set up the Madras State Small Industries Corporation, Limited with an authorised capital of Rs. 10 crores. (See State Corporations for further details).

The establishment of an Industrial Estate at Kumbakonam sanctioned during the Third Plan has been implemented during the Fourth Plan as a spill over item.

During 1966-67, the establishment of six conventional Industrial Estates at Kancheepuram, Mettur, Karur, Nagapattinam, Cuddalore and Hosur had been sanctioned and they are being implemented.

Functional and Ancillary Industrial Estates: During the Third Five-Year Plan, two functional industrial estates, one for ceramics at Vridhachalam and another for leather at Madhavaram were established. For locating small scale units for manufacture of different components, parts and stores required for the Heavy Pressure Boiler Plant at Tiruchirapalli, an ancillary industrial estate is being established at Triuvarambur and construction work is in progress. During 1966-67, the Government had sanctioned the establishment of one functional industrial estate for food and fruit based industries (at Bathalakundu in Madurai district) and of another functional industrial estate for Electrical Industries at Tiruvellore in Chingleput district. Functional industrial estates for instrument industry, electronic industry and drugs and pharmaceutical industry had also been sanctioned in 1967-68 for implementation.

Private and Co-operative Industrial Estates: For setting up seven private and co-operative industrial estates the Government had provided loan assistance to the tune of Rs. 108.79 lakhs up to 31st March 1968. In the above estates 104 factory units have been constructed.

MINES AND MINERALS

Output of minerals in tonnes and value in Rs. respectively in the various districts in Tamil Nadu during 1964:

Gypsum: Tirunelveli (3,776.00; 72,738); Ramanathapuram (7,660.33; 1,14,905); Bauxite: Salem (28,712; 3,58,906); Magnesite: Salem (2,01,344.00; 49,76,974); Limestone: Salem (2,06,289.25; 16,09,272); Tirunelveli (6,70,025.52; 5,02,519); Ramanathapuram (1,91,650.35; N.A.); Mica: Nilgiris (235 mds; 172); Felspar: Salem (982.00; 8,180); Soapstone: Salem (109.00; 3,972); Garnet sand: Tirunelveli (600.00; 4,800); Iron ore: Nilgiris (7,491.45; N.A.).

KHADI

Tamil Nadu has been pioneer in the development of khadi industry. The most important organizational change has been the formation of the Tamil Nadu State Khadi and Village Industries Board on a statutory basis.

The production and value of Khadi during 1967-68 were 31,74,329 metres and Rs. 143.39 lakhs respectively. Employment during 1967-68 was 93,034 spinners and weavers. The wages for 1967-68 amounted to Rs. 70.84 lakhs.

AGRICULTURE

The figures furnished below relate to the year 1965-66 and are provisional.

Total area cultivated (Gross area): 17.47 million acres (7.07 million hectares); Total area irrigated (Net area) 5.93 million acres (2.39 million hectares) or 40.45 per cent of the net area cultivated; gross area irrigated 7.85 million acres (3.18 million hectares) or 45.93 per cent of the gross area cultivated. Net area grown: 14.66 million acres (5.93 million hectares).

Classification of area (Million Hectares):—Forest 1.91.

Barren and uncultivable land 0.88; Land put to non-agricultural uses 1.35; Cultivable waste 0.69; Permanent pastures and other grazing lands 0.34; Land under miscellaneous tree crops and groves not included in the net area grown 0.27; Current fallows 1.03; Other fallow lands 0.62; Net area grown 5.93; Area of the State according to village papers 13.01.

Statement showing the area in hectares and yield in tonnes respectively under important food crops in 1965-66 was: Paddy (Rice) 25,01,943; 35,24,220; Cholam 7,59,055; 5,12,650; Millets 4,72,260; 3,60,610; Ragi 3,28,966; 2,92,300; Pulses 3,97,790; 1,01,960; Sugarcane (Gur) 1,00,990; 9,54,960; Potatoes 8,207; 57,290; Sweet Potatoes 4,048; N.A.; Tapioca 84,831; N.A.; Cumbu 4,00,230; 12,35,290; Maize 3,933; 4,240.

The State's total output of foodgrains (cereals and pulses) in 1965-66 was 50,31,910 lakh metric tons.

The principal commercial crops of the State showing area in hectares and yield in tonnes respectively under cultivation in 1965-66 were: Groundnut 9,54,942; 8,22,880; Cotton (bales of 180 kg. limits) 8,21,299; 3,00,934; Gingelly 1,18,024; 38,170; Tobacco 11,639; 17,170; Coconut (in 1000 Units) 68,697; N.A.; Coffee 23,303; N.A.; Tea 30,431; N.A.; Pepper 217; 40; Rubber 5,624; N.A.

The total cultivated area in Tamil Nadu during 1965-66 was 7.07 million Hectares, of which paddy accounted for 2.5 million Hectares.

Production of rice in 1965-66 was 35,24,220 m. tons. For 1966-67 production was estimated at 40,76,400 m. tons. The procurement target of 8 lakh tons for 1967 (January to December) has been already exceeded. The programme for 1967-68 envisaged an increase in foodgrains potential of 11.33 lakhs tons of which 6.85 lakh tons were to come through application of improved seeds.

Bananas, mangoes and citrus are the most important fruit crops of the State. For 1965-66 total area under banana, fruits of citrus varieties, mangoes, cashewnuts, other dry fruits, tapioca, sweet potatoes, onions and other vegetables, other fresh fruits etc., was 2,13,916 hectares.

Cotton and Oil Seeds: Production of cotton during the year 1966-67 was 4,46,990 lakh bales of 180 kg. lint, and that of oil seeds (groundnut, gingelly and castor) for the same period was 9,31,290 lakh tonnes.

Plantation Schemes: The important schemes of economic plantations undertaken during the Third Plan period relate to rubber plantations in Kanyakumari district, bamboo plantations in Coimbatore district and quick growing fuel plantations in the districts of Chingleput, South Arcot and North Arcot. Rubber plantation of 829 acres (1964-65), 820 acres (1965-66), bamboo plantations of 1,097 acres (1964-65), 3,988 acres (1965-66) were covered by the scheme.

FISHERIES

Estimated landings of inland fish from the various inland waters in 1967-68: 115,936 tonnes of the value of Rs. 731.17 lakhs. Estimated marine fish landings for the State in 1967-68: 204,916 tonnes of the value of Rs. 2,305.31 lakhs.

IRRIGATION

Source and area irrigated (Hectares): Government Canals 861,900; Private canals 1,119; Tanks 971,843; Tube wells 5,250; Wells, sole irrigation 632,757; Other sources i.e. springs, channels etc. 45,606; Total net area irrigated 2,518,475.

Total Land Area of State 32.15 mil. acres; Cultivated area in the State 21.93 mil. acres; Total area which is expected to be irrigated when the major and medium projects proposed under the Third Five-Year Plan are completed 6.145 mil. acres; Anticipated extra food production on completion of irrigation projects taken up during the Third Plan 94,000 tons of foodgrains; Total

investment proposed in Third Plan Rs. 2,742 lakhs. Actual expenditure during the IIIrd Plan: Rs. 3,211 lakhs.

Major Projects

Major Projects with location (Districts), estimated cost in Rs. lakhs and area benefited in acres in brackets respectively are : Lower Bhavani Project (Coimbatore and Tiruchi Districts): (1,034; 1,95,000); Mettur Canals Scheme (Salem and Coimbatore Districts: 192.91; 45,000); Manimuthar Reservoir Project (Tirunelveli District: 505; 1,03,000); Araniar Reservoir Project (105.89) Headwork of the Project transferred to Andhra State; Amravathi Reservoir Project (Coimbatore District: 324.14; 53,500); Vaigai Reservoir (Madurai and Ramanathapuram Districts: 330.00; 22,818); Sathanur Reservoir Project (North and South Arcot Districts: 258; 21,000); Krishnagiri Reservoir Project (Dharmapuri District: 202.43; 9,000); New Kathalai High Level Canal (224.58; 20,622); Pullambadi Canal Scheme: (205.88; 22,114); Vidur Project (88.94; 3,200); Pondicherry figures not available; Neyyar II Stage (109.06; 5,800).

During the III Five Year Plan, four new schemes were taken up viz. (1) Improvements to Palar Anicut System (2) Sathapur II Stage (3) Gomuki Nadhi Scheme (4) Chittar Pattanamkal Scheme in addition to the Parambikulam-Aliyar Project. Of these, the first three schemes were completed within the plan period itself. The latest stage and salient details of the Chittar Pattanamkal Scheme and the Parambikulam Aliyar Project are furnished below:—

Parambikulam-Aliyar Project: The project, started in Dec. 1958 and expected to be completed during the IVth Plan, envisages the construction of seven reservoirs and 14 miles of tunnelling, a weir, 33 miles of lined contour canal and 152 miles of line main canal. The reservoir across Parambikulam and Tunakadavu (including Peruvipallam and Tekkadi) will be in Kerala State, while the rest will be in Tamil Nadu. The project will extend irrigation facilities to 240,000 acres in Pollachi, Udumalpet, Palladam and Dharapuram Taluks of Coimbatore District. Power to an extent of 185,000 KW will be generated under this project.

The project is estimated to cost Rs. 6,753.00 lakhs.

Percentage return: 4.91 without betterment levy.

Benefits achieved to end of March 1968: Potential 147,276 acres; Utilisation 68,912 acres.

Chittar Pattanamkal Scheme: The scheme envisages:

(1) Construction of two dams (with inter-connecting channel) across two Chittar tributaries of river Kodayyar (1) 2,500' long, 72' high, and 555 Mcft capacity; (b) 3,530' long 82' high and 964 Mcft capacity. (2) Raising the F.R.L. of Pechipara and Perunchani Dams by 6 ft. by providing gates to increase the capacity of 4,530 Mcft and 2,890 Mcft respectively. (3) Excavating a feeder canal from Chittar Dam I to augment supply to the existing Kodayar Left bank canal. (4) Excavation of a new Pattanamkal channel. (5) Extending and improving the two channels taking off from Thirupparappu weir on Kodayar river. (6) Improvements to Pandya Kal, Thovala and Nilapparai channels in certain reaches and excavation of another channel from Nilappara channel. (7) Improving and lining left bank canal of Kodayar system to take the additional flow diverted from the two Chittar dams.

It is expected to be completed during the Fourth Five Year Plan.

Estimated cost: Rs. 733 lakhs; **Percentage return:** 0.75; **Ultimate benefit:** 47,000 acres.

Minor Irrigation

There are 33,000 minor irrigation sources in the State, out of which 27,000 are tanks and 6,000 spring channels. Of these sources, about 30,000 have an ayacut of more than 10 acres.

The provision for minor irrigation under III Plan was Rs. 1,280 lakhs. About 5,000 works were to be renovated during the III Plan. Of these 4,286 works were completed during the III Plan and the expenditure incurred was Rs. 1,114 lakhs.

Desilting-cum Reclamation: As against the Third Plan Programme of covering 1,750 acres of gap to be bridged and 750 acres of foreshore reclamation, the anticipated coverage by the end of the IIIrd Plan period was 2,039 acres of gap to be bridged and 1,038 acres of foreshore reclamation.

ELECTRICITY

Tamil Nadu ranks first in India in hydro-electric development in the use of electric power for irrigation purposes and by way of number of consumers.

Total capital outlay of the power schemes as on 31-3-1969: Rs. 357.77 crores; **Gross Revenue:** Rs. 49.25 crores.

Installed capacity (as on 31-10-68) of different hydro-electric projects: Pykara 70,200 KW; Moyar 36,000 KW; Mettur 40,000 KW; Papanasam 28,000 KW; Periyar 1,40,000 KW; Kundah PH I 60,000 KW; Kundah PH II 1,75,000 KW; Kundah PH III 1,20,000 KW; Kundah PH IV 50,000 KW; Kundah PH V 20,000 KW; Mettur Tunnel PH 2,00,000 KW; Sarkarpatti 30,000 KW.

Rural Electrification: Number of towns and villages and hamlets electrified as on 31-10-1968: 32,038.

Number of Agricultural pumpsets connected: 4,11,516. **Per capita consumption** 114 units.

ROADS

The total mileage at the end of the Third Plan and at the beginning of the Fourth Plan (as originally conceived) is 31,800. During the Third Plan 12 miles 3 furlongs of roads were cement concreted, 1 mile 7 furlongs asphalt concreted, 172 miles black topped, 369 miles newly metalled and 920 miles newly formed.

TRANSPORT

The Bus Transport in Madras City is Government owned. Position in the year 1969: Number of routes served by the Department: 495; Total route mileage: 21,398.6; Number of Suburban routes: 89; Number of long distance routes: 58; Fleet strength: 1,436; Number of passengers per day: Nine lakhs; Average collections (Sale of tickets): per day: Rs. 3.20 lakhs.

CO-OPERATION

The tentative outlay for the Co-operative development schemes for the Fourth Five Year Plan (1969-70 to 1973-74) is Rs. 2,872.32 lakhs under the State Plan Schemes and Rs. 112.45 lakhs under the Centrally sponsored Schemes outside the State Plan Ceiling. The allotment for 1969-70 is Rs. 566.93 lakhs under the State Plan Ceiling and Rs. 70.30 lakhs under the Centrally Sponsored Schemes.

It is proposed to step up the issue of production credit to the agriculturists year by year so as to issue loans through agricultural credit societies to the extent of Rs. 80 crores in the last year of the Fourth Five Year Plan. This will meet about 50 per cent of the total credit requirements for agricultural production in Tamil Nadu. It is

also proposed to issue long term Credit through Land Mortgage Banks to the extent of Rs. 106 crores during the entire Fourth Plan period.

Under the scheme of reorganisation of agricultural credit societies it is expected that out of about 8,600 agricultural credit societies, about 4,800 viable units will emerge. The Co-operative Central Banks will open additional branches so as to have one branch per Panchayat Union.

COIMBATORE DISTRICT

Dt. Hqrs. : Coimbatore.

The Coimbatore District, next in importance to the City of Madras, has an area covering 6,024 square miles with a population of 3,154,296. It is one of the major districts in Tamil Nadu. The Anamallais (elephant hills) which form part of the District in the south have large coffee and tea plantations covering 40,000 acres and employing 40,000 workers whose annual wage bill is nearly Rs. 3 crores. Some 35 million lbs. of tea and 1,000 tons of coffee are produced. There are also cardamom and cinchona plantations. The finest teak in India is produced on these hills.

Coimbatore, the District Headquarters, is the largest industrial city in Tamil Nadu. The district has 71 textile mills, 57 of which are spinning mills and the rest weaving mills.

There are also a number of iron foundries, Coimbatore being the first in India to manufacture pump-sets for irrigation. A medium sized blast furnace is in operation. A cement factory of the A.C.C. produces 1,500 tons a day.

A branch of the Asbestos Cements Ltd. is also located at Podanur.

The 22-lakh synthetic gem factory, which is an Indo-Swiss venture, hopes to meet the full demand for synthetic gems, which are now being imported, producing in the first year alone gems valued at Rs. 20 lakhs.

The Rs. 10-crore Indo-Italian venture, South India Viscose Ltd., four miles from Mettupalayam, manufactures rayon pulp.

Another Rs. ten-crore venture with Italian aid is an aluminium factory at Mettur on the banks of Cauvery. A third is an Indo-American Venture—Rs. 10-crore paper factory at Erode.

Two factories are engaged in the production of textile machinery and parts. The ultimate plan of the factories is to manufacture all modern equipment required for textile industry.

Three factories in Coimbatore produce nut and plastic buttons.

The Regional Agricultural Research Institute caters to the needs of Tamil Nadu, Kerala, Mysore and Andhra Pradesh and is open to 40 post-graduates. The institute awards the highest degrees of M.Sc. (Ag.) and Ph.D. to successful candidates.

Other specialised institutions are the Union Government's Sugarcane Breeding Institute, the Southern Herbarium of the Botanical Survey of India and the Regional Research Station of the Indian Council of Agricultural Research for cotton, millets and oilseeds.

The source of power in the Union Territory of Tripura is from diesel stations located at Agartala, Ambassa, Khowai, Dharmanagar, Kailasahar, Udaipur and Bogafa. The aggregate installed capacity of the generating stations is 2,886 KW. Power facilities are now available in 53 localities. To meet the growing demand of power, the Government of Tripura has entered into an agreement with Assam State Electricity Board for purchase of power in bulk. To transmit the purchased power construction of 132 KV line has already been started. The preliminary work of the Gumti Hydro electric scheme has been completed and construction work on the main Project has already started.

PANCHAYAT

The work of setting up Panchayati Raj Bodies in Tripura was started in the Third Plan period. Total No. of Gram Panchayats—448, Nyaya Panchayats—134.

INDUSTRIES

The Industries in the Territory include cottage and small industries like handloom, weaving, carpentry, blacksmithy, sugar making, basketry, pottery, saw mill, brick manufacture, bakery, tinmithy, agricultural implements, manufacture of footwear and other leather goods, fruit canning etc. But efforts have now been initiated for starting large industries and other organised small industrial units. A 15,000 spindles spinning mill is being set up. A licence for a plywood factory has been issued. Preliminary action is also being taken for a powerloom training centre. Efforts are being made for the development of forest and agro-based industrial complexes.

TRANSPORT

Total length of roads is 1,580 Km. out of which 736 Km. are surfaced. Tripura is linked with Assam by road through the Assam-Agartala road. There are no big irrigation works in this Territory. There is a new railway link which connects Dharmanagar with Kalkalighat Railway Station in Assam. Most of the rivers in the Territory carry country boat traffic. There are three airstrips and one aerodrome in this Territory.

EMPLOYMENT EXCHANGE

Figures for 1968 (upto October): number of registrations—8,067; No. of vacancies notified—1,718; No. of candidates placed—1,394; No. of waiting list in the Live Register—17,521.

Total number of employees was 33,006 (6,606 private sector and 2,400 public sector) as on 30-6-1967.

Total number of employees was 35,037 (6,910 private sector and 28,127 public sector) as on 30th June, 1968.

HEALTH

No. of Hospitals 11; No. of Public Health Centres 22; Dispensaries 124; No. of beds 790; No. of doctors 180; No. of nurses 274; V.D. and skin clinic—1; (for each) Family planning clinic 1; Anti natal clinic 1; Eye clinic 1; Chest clinic 1; Leprosy clinic 1; Dental clinic 1; Family planning centre 32; E.N.T. clinic 1; Psychiatric clinic 1; and well Baby clinic 1 and A.R. 1.

AGRICULTURAL PRODUCTION

The Agricultural wealth of the Territory consists of rice, jute, cotton, tea and fruits, while its forests yield timber, firewood and charcoal. Paddy is the main source of revenue.

Area in '000 acres under the crop and production in '000 tonnes respectively are: Winter rice—1,17,359; 1,03,383; Autumn Rice—1,20,596, 93,581; Sesamum Rice—8,094, 6,500; Kharif Pulses—542, 249; Rabi pulses—1,920, 797; Jute—12,950, 96,000 (Bales); Mesta—12,141, 75,000 (Bales); Cotton—4,047, 3,055 (Bales); Rape and Mustard—4,654, 1,932; Sesamum—2,711, 1,125; Sugar cane (Gur)—2,970, 9,950; Potato—2,752, 15,136; Classification of area (1965-66)—Total area under forest—6,35,252 hectares; Total cropped area 3,31,791 hectares; Net area sown 2,35,401 hectares.

Livestock: Total cattle 5,88,290; Buffaloes 49,740; Sheep 2,287; Goats 1,32,212; Horses & Ponies 1,773; Pigs 36,627; Poultry 6,63,367 (1966 Census).

RETIREMENT AGE

The State Government has raised the retirement age of the employees to 58.

PANCHAYATI RAJ

Panchayati Raj has been established in this State. Accordingly a three-tier structure of local bodies, viz. Gaon Sabhas, Kshettra Samitis and Zilla Parishads at village, block and district levels respectively has been built up.

These different bodies shall in addition to discharging the local governmental functions, also have the responsibility of preparing plans of development and executing them in their respective areas themselves.

AGRICULTURE

Total area cultivated 1,73,19,284 hectares (1966-67).

Main food crops : Wheat, barley, gram, rice, juar, bajra and maize.

Main cash crops : Sugar-cane, linseed, rape seed, mustard, groundnut, til, cotton and jute.

The production of food went up from 11.77 million tonnes in 1966-67 to 16.69 million tonnes in 1967-68 and was expected to be 16.80 million tonnes for 1968-69. The increase in production is attributed to the introduction of high-yielding variety of wheat, paddy and hybrids of maize, juar and bajra.

Production of sugarcane in terms of gur has also gone up from 37,90,821 tonnes in 1967-68 to 43,64,791 tonnes in 1968-69.

Oilseeds production was 15,83,669 tonnes in 1967-68 against 12,95,407 tonnes in 1966-67.

Cotton area was 63,668 hectares in 1968-69. Production was 50,114 bales in 1966-67 and 30,629 bales in 1967-68.

Jute area was 12,747 acres in 1968-69. Production was 1,54,191 bales in 1966-67 and 1,31,711 bales in 1967-68.

Potato production rose from 8,80,977 tonnes in 1966-67 to 14,62,234 tonnes in 1967-68.

(For more details see under the article on 'Agriculture'.)

FOOD AND CIVIL SUPPLIES

Foodgrains distribution through fair price shops remained in force. The number of fair price shops in the State at the end of 1968 was 5,372.

The releases of foodgrains from the Government stocks during the financial year upto March 31, 1968 were : wheat 5,42,103 tonnes ; rice 78,542 tonnes ; coarse grains 2,78,172 tonnes ; wheat products 1,64,187 tonnes ; Total issue of foodgrains was 10,63,004 tonnes.

During the year 1967-68, the State Govt. obtained from the Government of India 5,36,573 tonnes of imported wheat and 2,29,074 tonnes milo. Total imports were 7,88,018 tonnes.

The purchase of rice was made through a levy on trade. Rabi foodgrains viz., wheat, gram, barley and mixtures were procured direct from the producer through a graded levy. The total purchases during the financial year 1967-68 were as follows : (Fig. in tonnes) : Wheat 1,58,773 ; Gram 4,689 ; Barley 39,645 ; Rabi mixture 1,113 ; Rice 1,10,583 ; Juar 203 ; Bajra 81 ; Total : 3,15,087.

LAND TENURE

(Latest available)

With the abolition of zamindari, following the enforcement of the U.P. Zamindari and Land Reforms Act, 1950,

on July 1, 1952 in 48 out of the State's 51 districts, estates of nearly 20 lakh zamindars were taken over resulting in direct contact with 12,800,000 Kisans. The area of land taken over from intermediaries is about 6 crore acres. There are now only a few tracts where Zamindari has not yet been abolished.

Liquidated zamindars retain such of Sir, Khudkast and groves of which they have become Bhumidhars.

The new land tenures under the U.P. Zamindari Abolition and Land Reforms Act are : Bhumidhar, Sirdar and Asami.

The State Government have also enacted legislation to impose ceiling on land holdings and to acquire on payment of compensation surplus land with a view to providing for a more equitable distribution of land by making it available to landless agricultural labourers, cultivation on cooperative basis, conservation of part of available land resources to increase food production and building up of reserve stocks against lean years by carrying on cultivation on modern scientific lines in State-owned farms. The ceiling area applicable to a tenure-holder having a family up to five members, is 40 acres of fair quality land. In the case of a family having more than five members, every additional member will be allowed eight acres of fair quality land subject to a maximum of 64 acres of such land for the entire family. As a result of imposition of ceiling, it is estimated that about two and a half lakh acres of surplus land will be available for distribution among the landless.

Upto September 1968, the total area finally declared surplus under Section 14(1) of the Act stood at 2,36,743 acres, out of which possession was taken over of 1,84,323 acres out of which an area of 1,19,862 acres was temporarily settled. Compensation was finalised in 2,761 cases involving an amount of Rs. 98,69,168 out of which Rs. 33,81,963 were paid in cash.

IRRIGATION

Total irrigation potential created by the State works till 1967-68 was 131.87 lakh acres. It was expected to be stepped up to 134.57 lakh acres by the end of 1968-69.

Of the total irrigation potential 89.17 lakh acres will be served by major and medium irrigation works, 37.40 lakh acres by tubewells and lift schemes and 8.00 lakh acres by other minor schemes.

Lift schemes have been launched which ensure early watering facilities to fields. As a result the number of lift canals was expected to go up to 124 by 1968-69.

Work on the two major irrigation projects—Gandak and Ramganga has been expedited so as to extend irrigation facilities by 1969.

POWER

Generation Capacity

The total installed capacity during 1968-69 was 1,349 MW.

The 64 MW Panki power house at Kanpur has been commissioned.

Three machines of 50 MW each were pressed into service at the Obra Thermal Power House in the Mirzapur district.

Two machines of 50 MW each were also commissioned at the Harduaganj power station, raising its total capacity to 210 MW.

Work on hydro-electric schemes like Obra, Yamuna, was speeded up.

In the private sector, Renuagar Thermal Station with a capacity of 125 MW was completed and inaugurated.

Transmission System

Under the U.P. grid, the total length of transmission and distribution lines at the end of 1967-68 was 77,772 circuit kilometres which was expected to go up to 89,399 circuit kilometres by 1968-69.

The State's 220 KV system has been planned to run across the State right from Obra Thermal in the extreme South-East of the State to Yamuna Stage II in the North-West with sub-stations at Obra, Allahabad, Kanpur, Mainpuri, Harduaganj, Muradnagar, Roorkee, Chhibro, Khodri and Shamli.

Besides, a 220 KV D.C. line has been completed from Obra Thermal Power Station to Mughalsarai to meet the power requirement of north-eastern part of the State.

Some other 220 KV lines are under planning and construction.

Another important development in U.P.'s transmission system is the planning of 400 KV line for the first time in the country. It is proposed from Obra Thermal to Lucknow via Sultanpur. This line will be completed during the Fourth Plan.

Energisation of Tubewells and Pump Sets: Emphasis has been laid on energisation of tubewells and pump sets in order to help boost up agricultural production. Till 1967-68, 43,356 private tubewells and pump sets were energised. Additional 25,000 private tubewells/pump sets are expected to be electrified in 1968-69. The number of State tubewells was 8,428 at the end of 1967-68.

Rural Electrification: Under the rural electrification scheme, 4,812 villages were electrified by 1967-68.

Co-operative Sector (Sugar)

Co-operative Sugar Factory at Bazpur (Nainital), Baghpat (Meerut), Sarsawa (Saharanpur) and Majhola (Pilibhit). The fifth co-operative sugar factory is under construction at Aurai (Varanasi), co-operative spinning mill, Etawah.

Production

The Churk Cement Factory could produce only 1,13,988 tonnes of cement in the first five months of 1968-69 due to shortage of gypsum. With resumed supplies the factory expected to carry its production to about 3.33 lakh tonnes during 1968-69. It earned a net profit of Rs. 88.39 lakhs during 1967-68.

The Precision Instrument Factory manufactured 31,511 water meters, 453 microscopes and 3,769 pressure gauges during 1967-68 and earned a net profit of Rs. 5 lakhs.

The Vibhuti Glass Works expected to manufacture 6,000 tonnes of bottles, etc., during 1968-69. The net profit for 1967-68 was Rs. 1.50 lakhs.

The Nitrogenous Fertilizer Factory at Gorakhpur was commissioned in 1968. The Japanese aided Rs. 33-crore factory will produce one lakh tonnes of urea and ammonia each annually.

The Rs. 2-crore Triveni Structurals also went into partial production during 1968-69 for meeting its own requirements.

The Diesel Locomotive Works has produced 221 broad gauge diesel locomotives till December, 1968 and has been able to raise the indigenous content in these engines upto 80 per cent. It has started production of meter gauge diesel locomotives.

The second Government Cement Factory will commence production at Dalla during 1969 with the initial production of 1,200 tonnes of cement per day. Work on dead-burnt magnesite plant at Almora is also progressing fast.

A large Urea Fertilizer Factory will also go into production during 1969 at Kanpur at a total cost of Rs. 65 crores. In participation with a U.K. firm, it will produce 4.50 lakh tonnes of urea annually.

The Aluminium Factory at Renukoot (Mirzapur) is raising its annual production capacity by 60,000 tonnes at a cost of Rs. 55 crores.

The 71 sugar mills in the State produced 7.50 lakh tonnes of sugar during the 1967-68 crushing season.

New Incentives Offered by State Governments

During, 1968-69, the Government announced following concessions and incentives for stepping up the industrialisation: 1. Sales tax holiday for three years for new industries and also to existing units under certain conditions; 2. Exemption from sales tax of parts and components used by 23 industries; 3. Rebate of 15 per cent in power charges to new industrial units for three years; 4. Exemption from Octroi duty of industrial equipment, raw materials and building materials throughout the State; 5. Finance and developed sites or sheds on more liberal terms.

Small-Scale Sector

Total number of small-scale industrial units at the end of 1968-69 was 19,681. U.P. occupies the second position in the country in the matter of defence supplies.

Industrial Estates

Out of the 848 allotted industrial sheds in the 76 industrial estates established all over the State, 586 sheds have gone into production. The working units employ about 10,000 persons and produce goods worth Rs. 4.50 crores annually.

WEST BENGAL

CAPITAL: Calcutta. Area: 34,194 sq. miles; Population: 34.93 million (1961 Census). Percentage of increase 1951-61: 32.79. Density: 1,032. Sex ratio 878 females per 1,000 males. Literacy: 29.3 per cent.

There are three Divisions in the State, the Burdwan Division, the Jalpaiguri Division and the Presidency Division.

The Districts in the Divisions with their headquarters in brackets are as follows: *Burdwan Division:* Bankura (Bankura), Birbhum (Suri), Burdwan (Burdwan), Hooghly (Chinsura), Midnapore (Midnapore), Purulia (Purulia). *Jalpaiguri Division:* Cooch-Behar (Cooch-Behar), Darjeeling (Darjeeling), Dinajpur* (Balurghat), Jalpaiguri (Jalpaiguri), Malda (Malda), Murshidabad (Berhampur), Nadia (Krishnagar), 24-Parganas (Alipur). Calcutta and Howrah comprise the Presidency Division.

Panchayats: The rural area of West Bengal has been covered by a network of Gram and Anchal Panchayats. The total number of Gram Panchayats in the State is 19,662 and that of Anchal Panchayats 2,926. The State Government has dissolved all the 15 zilla parishads and about 325 anchalik parishads in the State with immediate effect from May 1969.

The abolition order had been issued under the West Bengal Zilla Parishads (Amendment) Ordinance promulgated recently.

The Government had already appointed administrators for the dissolved bodies to act until they were reconstituted under a revised constitution.

The State Cabinet has decided to separate the executive from the judiciary. A beginning in this direction has already been made.

POPULATION

(See under "Population").

AGRICULTURE

Acreage and production of principal crops in 1966-67 are as follows:

	Production (tons)	Area (Acres)
Rice	4,748,100	11,487,300
Wheat	44,800	136,000
Sugarcane	1,279,400	73,000
Jute	2,852,600†	1,041,300

† Bales.

Land Tenure: All rent-receiving interests in agricultural lands vest in the State and the numerous tenants and

sub-tenants, as the case may be, now hold land directly under the State Government. All forests too are now managed directly by the Government.

There are roughly 1.28 million acres of cultivated land in the State, of which, according to preliminary but by no means accurate statistics, only 400,000 acres will be found surplus for redistribution among the tillers of the soil.

Sonarpur-Arapaneh Scheme: The Sonarpur-Arapaneh-Matla Drainage Scheme of reclaiming vast water-logged tracts 105 sq. miles in area, with powerful pumping plants, is the first of its kind in India. Under the first part of the Scheme, a submerged area of 23,360 acres has been reclaimed for cultivation. The total yield of paddy from these large tracts of land was 21,000 maunds.

Bagjola Drainage Scheme: Rs. 104-lakh Bagjola Drainage Scheme is intended to improve the drainage of 116 square miles of area. The scheme when completed will reclaim 25,600 acres of water-logged lands and render them fit for cultivation, which will result in annual additional yield of 12,091 tons of paddy and 1,619 tons of rabi crops.

FORESTS

(See under article on "Forests").

IRRIGATION

Area under irrigation: over 35 lakh acres.

Some individual schemes with total cost in Rs. lakhs and area in acres benefited (kharif season) respectively are as follows: Mayurakshi Reservoir 20.46.60; 560,000; Harahatuganj Drainage 12.94; 16,000; Berai Canal 21.78; 5,000; Jibanti-Banki 3.11; 6,400; Jampoi 0.51; 800; Soadighi Gangakhali 24.84; 29,400; Jhargram 9.74; 5,000; Suvankar Daura 17.57; 6,000; Trans-Damodar 4.15; 32,900; Saraswati 6.25; 7,100; 20 Minor Schemes 5.34; 45,292; 52 Procurement Bonus Schemes 21.62; 87,717; 23 Emergency Schemes 13.84; 62,880; 5 New Minor Schemes 1.86; 13,676; Excavation of Nonagang river 4.25; 4,860; Sonarpur-Arapaneh-Matla 138.72; 46,400; Bagjola-Ghuni-Jatragachi 108.93; 25,600; Improvement of Kamakhya Khal 3.52; 3,840. This does not include the area under river lift and tube-well irrigation schemes.

DAMODAR VALLEY CORPORATION

(See under "Irrigation").

TWO DEVELOPMENT SCHEMES

The Ganga Barrage Scheme: Work in connection with the Ganga Barrage, also called Farakka Barrage Scheme, is now in progress.

* Also called West Dinajpur.

Benefits expected from the barrage: 1. Improvement of the Calcutta Port; 2. Provision of a direct railway and road link between the northern and southern parts of the State; 3. Provision of an inland water route entirely through the Indian Union starting from Calcutta and going up to Bihar and Uttar Pradesh and ultimately to Assam.

POWER

Jaldhaka Project in West Bengal was taken up during the year 1961. The other scheme in the Third Five Year Plan is Bandel Super Thermal Power Station comprising four 82.5 Mw turbo alternator sets with a maximum continuous rating of 330 Mw. The power station was pressed into commercial service on Jan. 1, 1966.

Jaldhaka Hydro-Electric Scheme: Tapping of river Jaldhaka in north Bengal to generate 27 Mw of power at the first stage and 9 Mw at the second stage. The first unit was commissioned in April 1967 and the second unit was installed in August 1967. **Baluxan Hydro-Electric Scheme:** Harnessing of river Baluxan in Darjeeling District. **Suburban Electrification Scheme:** Total Plan provision for colliery electrification, tube-well irrigation, Central Testing laboratory and suburban electrification schemes: Rs. 29.21 lakhs. **Durgapur Power Station:** With the increase in power demand both in public and private sectors around Durgapur, the State Government was called upon to expand the power station by installing 3 × 75 Mw and 1 × 150 Mw turbo-alternator sets. These units are designed for burning washery middlings. Two Units are already in operation.

Development in Transmission & Distribution System: With the beginning of the Third Five Year Plan, the West Bengal State Electricity Board started erecting 132 KV lines mainly for the purpose of supplying power to the Eastern Railway for track electrification in the suburban areas. A transmission scheme was undertaken under which 132 KV lines were drawn from Bandel to Dharampur from where a feeder line was extended upto Ranaghat to connect the North Calcutta Grid. Another radial feeder was extended to Ashokenagar and the third one on the southern direction to Titagarh. Power supply to Eastern Railway at Ranaghat, Ashokenagar and Titagarh was arranged. A double circuit 132 KV lines were also drawn from Bandel to Howrah and Liluah for bulk supply to the Calcutta Electric Supply Corporation Ltd. To arrange for bulk supply to the Farakka Barrage Project, 66 KV lines were further extended from Beldanga to Farakka. In North Bengal, extensive 66 KV line was drawn from Jaldhaka to Siliguri on the West and Jaldhaka to Cooch-Bihar on the East covering the entire district of Jalpaiguri, Cooch-Bihar and Darjeeling. On the distribution side, hundreds of miles of 33 KV lines and thousands of miles of 11 KV lines were drawn for bulk supply to a number of high voltage consumers and power supply to various towns and villages and hundreds of agricultural deep tube-wells.

INDUSTRY

A TOURISTS' GUIDE—*(Continued from page 12).*

DEVELOPMENT OF TOURISM

The India Tourism Development Corporation has opened "Duty Free Shops" at Bombay, Delhi and Calcutta.

Against the total outlay of Rs. 8 crores on Tourism in the Third Plan, the actual expenditure during the above period, both in the Central and State sectors, was Rs. 5.1045 crores.

Fourth Plan

A sum of Rs. 25 crores was originally allocated for the

development of tourism in the Fourth Plan. Later a working group was constituted to make a critical review of the position likely to be reached by the end of 1968 and for undertaking studies and formulating programmes with regard to the size, contents and priority of the schemes to be indicated in the draft Plan. On the recommendations of the working group, a revised Fourth Five Year Plan on Tourism with an outlay of Rs. 40.334 crores has been prepared which includes Rs. 14.50 crores for India Tourism Development Corporation.

"DUFFERIN," TRAINING SHIP

Off Mazagon Pier, Bombay 10.

(Under the administrative control of the Government
of India, Ministry of Transport).

The "Dufferin" is a pre-sea training ship for cadets
aspiring to become Navigating Officers and ultimately
the Captain of a ship in the Merchant Navy. A large
number of Dufferin ex-cadets are also employed as officers
in the Indian Navy, Port Services, Mercantile Marine
Department and other ancillary services.

The course is of 2 years duration and consists of educational and professional subjects, stress being laid upon officer-like qualities and physical proficiency. All cadets are resident on board and are required to be physically fit to take part in all ship's activities. On satisfactory completion of training, cadets are accepted in sea-going ships of the Merchant Navy for 3 years apprenticeship. After passing the Ministry of Transport Certificate of Competency they become qualified for appointment as Navigating Officers.

The age limits for admission are 15½ to 18 years on the 1st of July of the year of entry. Annually about 80 cadets who have matriculated are selected on the basis of an all-India qualifying examination, and interview. The approximate total cost to a parent is about Rs. 3,000. A large number of scholarships ranging in value from Rs. 400 to Rs. 3,000 are available.

THE INDIAN HUME PIPE CO. LTD., are the largest manufacturers in India of R.C.C. Pipes known as "Hume Pipes", allied products, Prestressed concrete pipes, Hume Steel Pipes, Steel Pipes and Steel Penstocks for Hydro Electric Projects, No-Joint cast in place concrete pipes, R.C.C. Poles, Prestressed concrete poles, Welding flux, Welding electrodes etc.

The Company has acquired patent rights for No-Joint Pipes cast in Situ and can undertake laying of No-Joint Pipes.

Hume Pipes are very extensively used for Water Supply, Sewage, Drainage, Irrigation, Culverts, Well sinking etc. Concrete half-rounds and one-third round channels, R.C.C. Septic tanks, Telephone cabins, dust bins, Cattle troughs, Fencing posts, Housing for Latrines, Policeman Cabins, Pillars are the allied products made out of Hume Pipes. For High Pressure Mains required for water supply, the Company manufactures steel pipes, lined and outcoated with concrete, popularly known as "Hume Steel Pipes". The Company also manufactures Steel Pipes for Gas mains, Tunnelling etc. and Prestressed Concrete Pipes by Roca Process, for water supply schemes designed to stand pressure of 6 kg./cm² and above. These are found economical.

During the World War II, the Company pioneered manufacture of Welded Steel Pipes—Penstock pipes—for Hydro Electric Projects. Penstocks manufactured by the Company have been used in such important Projects as the Papanasam Hydro Electric Schemes, Madras, Mahatma Gandhi Hydro Electric Projects, Mysore, The Moyar Hydro Electric Scheme, Madras, Rihand Hydro Electric Projects, U.P., Koyana Hydro Electric Project (Maharashtra State) and 1st & 2nd Stage of Sharavathi Valley Hydro Electric Project (Mysore State) which the Company have recently executed successfully. Company's Penstock factory at Hadapsar (Poona) is fully equipped with the latest machinery to cater the increasing needs of Penstocks for coming Hydro Electric Projects in the country.

Prestressed Concrete Poles for Transmission lines manufactured by the Company have very advantageously replaced the Steel Tubular Poles for both High tension and Low tension lines. Also R.C.C. Poles manufactured by the Company are largely used as Lamp Posts in all the cities.

To complete any Storm Water or Sewerage Scheme with standard precast pipes, a very long period is required as it involves manufacture of pipes, curing and laying. No-Joint Pipes are machine cast in Situ in ready trenches and this speeds up the work considerably with saving in time and money.

The Company has a large network of about 60 factories spread over India and Ceylon and one factory at Benghazi in Libya with its Registered Office at Construction House, Ballard Estate, Walchand Hirachand Marg, Bombay-1. Telephone No. 268091 (13 Lines). Tel. Address : "HUMEPIPE", Bombay, Telex No. 2780.

The advertisement for Ellora Art Industries features a central illustration of a woman in traditional Indian attire playing a stringed musical instrument, possibly a veena. Surrounding her are various electrical goods, including a large lamp with the 'Ellora' brand name, several light switches, a fuse box, and other electrical components. The 'Ellora' logo is prominently displayed in a stylized font at the top right and bottom right of the illustration. Below the illustration, the text reads 'Ellora Art Industries' and 'SHRIJEE BHUVAN, LOHAR CHAWL, BOMBAY-2'.
